	5 inches compressed into a 4 inch thickness,																	
	Color: Dark Green-																	
	Stitching: Double-needle, lock-stitch-sewn seams																	
	Cleaning: Wipes clean with soap and water, or properly diluted disinfectant Flammability: Cover and Batting meet or exceed flame resistance standards including DOC Federal																	
	Flammability (FF-4-72) and California Technical Bulletin 129 and 603.																	
	Durability: Resistant to delaminating from flexing action.																	
	Stitching: Sewn with double locking stitch.																	
	Thread: 100% bonded nylon for added strength and durability. Construction: Constructed with a single piece of vinyl. Two sides are closed with a double-needle locking stitch.																	
	Construction. Constructed with a single piece of vinyl. Two sides are closed with a double-needle locking such. Core Specs																	
	Material: 100% Polyester Pad																	
	No chemicals or additional ingredients added, core is non-allergenic																	
	Composition: Mixture of polyester fibers, low melt fibers, and virgin fibers																	
	Cover Specs General Description: PVC Vinyl with non-cracking properties. Envelope style cover.																	
	Color: Dark Green																	
Mate Thic	Material: Vinyl																	
	Thickness: 17 - 20 mil																	
	Weight: 12 oz. per sq yard Flammability: Flame Resistant, Passes Cigarette Ignition Std. Passes NFPA-701 Large Scale.																	
	Strength: 3-ply vinyl-laminate cover (two layers of vinyl bonded to a tough synthetic scrim)																	
	Water Resistant: Liquid, body waste and hospital medications cannot penetrate.																	
	Tear Strength: Punctures will not produce running rips.																	
	Warp* – 124 lbs.																	
	Fill** – 99 lbs. Breaking Strength: Construction designed for ticking fabrics (vinyl fabrics).																	
	Warp* – 236 lbs./in.																	
	Fill** – 219 lbs. /in.																	
	*Warp is the scrim running length of the fabric.																	
	**Fill is the scrim running the width of the fabric. Delivered in sealed dust proof plastic bags (required) and boxes (optional).

Heat Sealed Seam to help prevent Bed Bugs																
2 inch thickness / Firm																
Color: Dark Green-																
Size: 17" x 25"																
Weight: 2.2 lbs.																
Cleaning: Wipes clean with soap and water, or properly diluted disinfectant																
Flammability: Cover and Batting meet or exceed flame resistance standards including DOC Federal																
Flammability (FF-4-72) and California Technical Bulletin 129 and 603.																
Durability: Resistant to delaminating from flexing action.																
Construction: Constructed with a single piece of vinyl. All side heat sealed																
Core Specs																
Material: 100% Bonded Polyester Fiber 10oz																
No chemicals or additional ingredients added, core is non-allergenic.																
Mold, mildew and flame resistant																
Cover Specs																
PVC Vinyl with non-cracking properties.																
Heat Sealed Seams to prevent Bed Bugs and tampering																
Color: Dark Green																
Material: Vinyl																
Thickness: 17 - 20 mil																
Weight: 12 oz. per sq. yard																
Strength: 3-ply vinyl-laminate cover (two layers of vinyl bonded / tough synthetic scrim)																
Water Resistant: Liquid, body waste and hospital medications cannot penetrate.																
Tear Strength: Punctures will not produce running rips.																
Warp* – 124 lbs.																
Fill** – 99 lbs.																
Breaking Strength: Construction designed for ticking fabrics (vinyl fabrics). Waro* – 236 lbs. /in.																
Vvarp" – 236 lbs. /in. Fill** – 219 lbs. /in.																
*Warp is the scrim running length of the fabric.																
**Fill is the scrim running the width of the fabric.		1	1												1
