

# DALLAS COUNTY TREASURER

## DALLAS COUNTY RETIREMENT PROGRAM

Dallas County employees participate in the Texas County and District Retirement System. TCDRS handles the retirement program for Texas counties and special districts. The program is mandatory for all full-time and some part-time employees of Dallas County.

In the retirement plan, employees contribute 7% of their gross salary each pay period (pre tax dollars) which is matched equally by Dallas County.

As an employee of Dallas County you are vested after 10 years of service. Becoming vested means that you have earned sufficient service credits to be eligible for retirement benefits.

Eligibility requirements for retirement are to be vested and fulfill one of the following criteria:

- 30 years of service credit any age
- 10 years of service credit at age 60
- Combined age and service credit of 80 years or more

The County Treasurer's Office has a Retirement Benefits Specialist whom you can visit personally to help guide you through the retirement process.
