

**Dallas County Criminal Justice Advisory Board
Meeting Agenda**

March 18, 2019, 2:30 p.m.

Dallas County Health & Human Services Bldg., Room 520
2377 N. Stemmons Freeway
Dallas, TX 75207

- I. Welcome and Introductions** – The Honorable Elba Garcia, Chair, CJAB
- II. Membership & Infrastructure*** – Ellyce Lindberg Co-Chair, CJAB
 - **Dallas Police CJAB Representative**
- III. Minutes Review/Approval*** – Ellyce Lindberg Co-Chair, CJAB
- IV. Presentations**
 - **Development of a Reentry Program for Veterans** - Dr. James LePage
- V. Committee Project Updates**
 - **Bail Bond Committee** –Miguel Canales
 - **Fair Defense Committee** – Lynn Richardson
 - **Jail Population Committee** – Etho Pugh
 - **Justice of the Peace** - Judge Steve Seider
 - **Law Enforcement/Jurisprudence** – Chief Jim Spivey, Ellyce Lindberg
 - **Pretrial Committee** – Commissioner Garcia, Jeff Segura
 - **Reentry Committee** – Christina Crain
 - **Research Committee** – Dr. Jennifer Gonzalez
- VI. Program Update**
 - **Local Data Advisory Board** – Miguel Canales
- VII. Public Comments**
- VIII. Announcements**
- IX. Next Meeting Schedule**
 - June 17, 2019

Reuben Ramirez is a 23-year veteran of the Dallas Police Department where he currently holds the rank of Major of Police. As a Major of Police, he has held assignments in patrol, investigations, and administration throughout the department.

Major Ramirez started his career in 1995, where he quickly had the opportunity to serve on several specialized taskforce groups throughout the DFW area. These assignments involved the AFT taskforce, Joint Terrorism Task Force, and Department of Homeland Security's Intellectual Crime taskforce. These and several other regional assignments afforded Ramirez the opportunity to work closely with agencies throughout the area and create a strong network of contacts and relationships with our federal, state and local partners.

Since 2016, Ramirez has held a dual role of also serving as the Dallas Police Department's Legislative Affairs Coordinator. This biannual 140 day assignment to Austin Texas affords him the opportunity to represent the concerns and interests of Law Enforcement throughout the state, and attempting to improve the criminal justice system as a whole. Ramirez served in the Legislative role under Chief Brown and now Chief Hall.

Ramirez has a Bachelor's degree from Midwestern State University and a Master's in Behavioral Sciences/Humanities from Southern Methodist University. He has also completed the Lieutenant Leadership Series at the Caruth Police Institute and is a graduate of the Police Executive Research Forum's Senior Management Institute for Police.

Major Ramirez currently serves as the Division Commander of the Internal Affairs Division, a role he has held since December of 2017

**Dallas County Criminal Justice Advisory Board
General Membership Minutes for Monday, December 17, 2018**

Welcome & Introductions, Commissioner Dr. Garcia, called the meeting to order at 2:30 PM. Customary introductions were made by all in attendance.

Membership & Infrastructure:

A motion was made to approve Dr. Jennifer Gonzalez as the Research Subcommittee Chair. The motion was seconded and voted on. Motion carried out unanimously.

Meeting Minutes:

The minutes from the CJAB General Membership meeting held on September 17, 2018, were made a part of the packet. There was a motion made to accept the minutes as printed.

Presentations:

The Law Enforcement Stress Surveillance Study – Dr. Jennifer Gonzalez

Commissioner Garcia introduced Dr. Jennifer Gonzalez, UT Health Associate Professor and Assistant Regional Dean.

Dr. Gonzalez began the presentation by giving background of the Law Enforcement Stress Surveillance Study. The study was conducted on a group of Dallas Police Officers. The purpose of the study is to try and determine why police officers have poor health outcomes. What are some of the day-to-day stressors that police officers have, and what can be done to intervene to help LEA officers.

Dr. Gonzalez stated that LEA officers die an average of 10 years earlier than people who are employed in other occupations. Some of the common causes of premature mortality are disproportionate injury, cancer, cardiovascular disease, and suicide. A possible mechanism that may be contributing to premature mortality is the repeated exposure to stressful and traumatic stimuli. Acute and chronic stress may also drive high rates of divorce and family conflict, emotional dissonance and exhaustion, detachment, and cynicism. These adverse effects of stress have costly ramifications to the police departments in form of injury and

workers compensation claims, sick days, long- and short-term disability, early retirement and attrition, lost productivity, and burnout.

Dr. Gonzalez reported that a total of 10 officers from the Dallas Police Department were recruited to participate in the 30 day study, and the aim of the study was to identify what about the officer's day-to-day activity is stressful. In order to identify the micro-stressors associated with the law enforcement occupation a FitBit was assigned to each participating officer, along with an activity log and a stress log. The purpose of the FitBit was to record the officer's heart rate, and use that data to compare to the officer's current activity while on the job. Each officer was also to self-report when they put on their FitBit and when they took it off and record that data in the activity log. The stress log was used to record anything non-occupational that cause them stress. At the end of the study officers participate in a focus group to discuss feasibility and stress. Dr. Gonzalez then went over graphs that recorded the variations in heart rate and compared them to their activity.

Dr. Gonzalez stated continued to speak about the micro-stressors that impacted their heart rate while on the job. The primary micro-stressors included crisis intervention team (CIT) calls, traffic stops, officer-involved shooting events, low pay, and being unable to have a meal break or eat healthy on the job. The officers also reported hypervigilance, or being unable to turn off "cop mode." They also stated that limited man power, inadequate benefits, and stress from certain departmental policy. The officers were then asked how they cope with these stressors and they reported such coping mechanisms such as physical activity, time with family, and playing games. Dr. Gonzalez went over more graphs and compared heart rates between a CIT call and an officer assist call. The graph revealed that the officer assist call showed a higher heart rate than the CIT calls.

Dr. Gonzalez reported that in summary heart rate data were noisy and inconsistent. There was tremendous between-officer variation in responses to occupational stimuli. CIT and officer assist calls especially driving to and the first 10 minutes of the call, appeared to cause the greatest spikes in heart rate and the most stressful.

During questions and answers, Chief Spivey commented that he was happy to see these kinds of studies being conducted. It was also stated that the stressors for young officers fresh out of the police academy will be different than the stressors older tenured officers would have. Dr. Gonzalez mentioned that is one study she would like to do in the future. It was also asked if these type of studies will be expanded into other fields like nursing. Dr. Gonzalez stated that this it is something they would like to continue to research in the future.

Committee Project Updates:

Bail Bond:

Miguel Canales gave the update. The Bond Forfeiture Judgment Report reflected judgment totals from January – November 2018 of \$1,245,620.07 for 1,963 cases. The Account 62 reports reflected total bond forfeitures collected by the felony courts in November 2018 was \$7,800.00. For the same reporting period, the misdemeanor courts collected \$3,500.00.

Fair Defense Committee:

Lynn Richardson gave the update. It was reported that the Public Defender's Office and the Indigent Defense Committee are asking for the support of CJAB on a proposed legislation, regarding priority appointment on capital cases in the criminal courts. Priority appointment meaning before assigning a case to another attorney the Public Defender's Office should get first priority. This proposed legislation would be cost effective for Dallas County as it will positively impact Dallas County's budget. Commissioner Garcia stated that the Public Policy subcommittee met, and discussed the Public Defender's office proposed legislation and have decided that CJAB will support the proposed legislation. Charles Reed further stated that this proposal along with Dallas County legislative agenda was heard at Commissioners Court and approved. A motion was made to support the Public Defender's Office proposed legislation. The motion was seconded and voted on. Motion carried out unanimously.

Jail Population Update:

Etho Pugh reported on the Jail Population meeting held on December 14, 2018. Excerpts from that meeting can be found on pages 28 through 33 of the packet. Mr. Pugh stated that the jail population for this date is 4,687. Commissioner Garcia asked what is the average jail population for this time of the year. Mr. Pugh stated that we are currently 300 below the average at this time.

Justice of the Peace:

Judge Steve Seider gave the update. The Court Management System (CMS) development has not progressed in accordance with any time deadlines. Court Management System (CMS) capabilities/goals are being changed—it appears that the system will provide less than what was promised and it has taken a step backwards. There are four new Justices of the Peace that will be taking office next year. It was requested that Dallas County administration put together some kind of packet or training to provide them with information on what is happening within Dallas County. Judge Seider stated that he would partner with Mr. Hikel to develop a training for the new Justices of the Peace.

Law Enforcement/Jurisprudence:

Chief Spivey gave the update. A meeting was held November 14, 2018 in regards to how the new process of indigent bonds will affect Dallas County LEA's. It was further reported that Dallas County LEA's want to comply with all rulings from the Dave's lawsuit. It was reported that during the last meeting Mr. Hikel gave a presentation to all LEA's and walked them through the requirement and ramifications of the lawsuit. It was further stated that the minutes from that meeting are in the CJAB packet on pages 34 through 36.

Pretrial:

Jeff Segura gave the update. It was reported that Pretrial continues to expand their intake division and will have a group of individuals starting next week. The goal is to be operating 24 hours a day, 7 days a week. It was further reported that with the expansion there will also be opening for supervisor and manager level positions within Pretrial. Smart Justice Unit is currently down 1 staff member in the Electronic Leg Monitor Unit, and they have been approved for the 8th officer. The Alcohol Monitoring Unit is fully staffed.

Reentry:

Christina Crain could not attend the meeting and sent an update to Miguel Canales. The 2018 Texas Reentry Symposium was held Friday, October 19, 2018 at the Belo Mansion in Downtown Dallas. Following are highlights: 350 attendees, full day of presentations and discussions regarding pertinent topics in criminal justice/reentry, and wide Media Coverage was received. Preparation for the Texas Legislative Session is under way: Unlocking DOORS™ served as a member of Texas Governor's Workforce Workgroup representing special populations. The group has assisted in making workforce recommendations for the criminal justice population in the upcoming Legislative Session. Multiple meetings have been and are continuing to be held with state leadership regarding pertinent criminal justice/reentry issues. Unlocking DOORS™ plans to assist with testimony, data, analytics, and additional assistance during the Legislative Session. The White House/DOJ/Koch Network reentry initiative "Safe Streets & Second Chances" (S3C) continues at the Unlocking DOORS™ Headquarters. Unlocking DOORS™ is the test site for the initiative's Texas rollout, with S3C staff having their own space at the Unlocking DOORS™ Headquarters through May of 2020. Unlocking DOORS™ has partnered with the University of Texas at Arlington to create a transportation/mobility application to assist clients. Stay tuned for additional information on the project.

Program Update

Caruth Smart Justice:

Mike Laughlin gave an update; he stated to refer to pages 42-48 for a quarterly summary of Caruth MHPR Bond. Since April 2017 they have a total of 920 approved cases, and a total of 656 discharged. They have had 239 complete the program successfully, 410 unsuccessfully and seven with a neutral outcome. As of November 30, 2018 they have a total of 264 active cases. Mr. Laughlin further stated that this is the last month for the Caruth Smart Justice grant. Mr. Laughlin briefly went over Intercepts 1-5, and asked to refer to packet for detailed explanation on progress made.

Public Comments:

None

Announcements:

Lynn Richardson passed around a flyer with contact information for the Mental Health Division Staff for the Public Defender's Office. The flyer will be added to the CJAB packet.

The next CJAB meeting will be held on March 18, 2019, at 2:30pm.

Adjournment:

A motion was made to adjourn the meeting; it was seconded and approved at 3:33PM.

James P. LePage, PhD.

Is a clinical psychologist and the Associate Chief of Staff – Research and Development Service at VA North Texas Health Care System. He is also an Associate Professor of Psychiatry at the University of Texas Southwestern Medical Center. Dr. LePage's research interests are primarily focused around the psychosocial reintegration of vulnerable veteran populations, specifically veterans with histories of incarceration and veterans experiencing homelessness. He has developed a number of vocational programs for Veterans with histories of incarceration and mental illness or substance use disorders, and has studied VA health care utilization rates of Veterans leaving prison and Veterans experiencing homelessness. He is interested in better understanding the experience of leaving incarceration and developing innovative approaches to assist Veterans effectively transition out of prison.

Rehabilitation for those Released from Prison - Research Enhancement Award Program grant

James P. LePage, PhD.
VA North Texas Health Care System

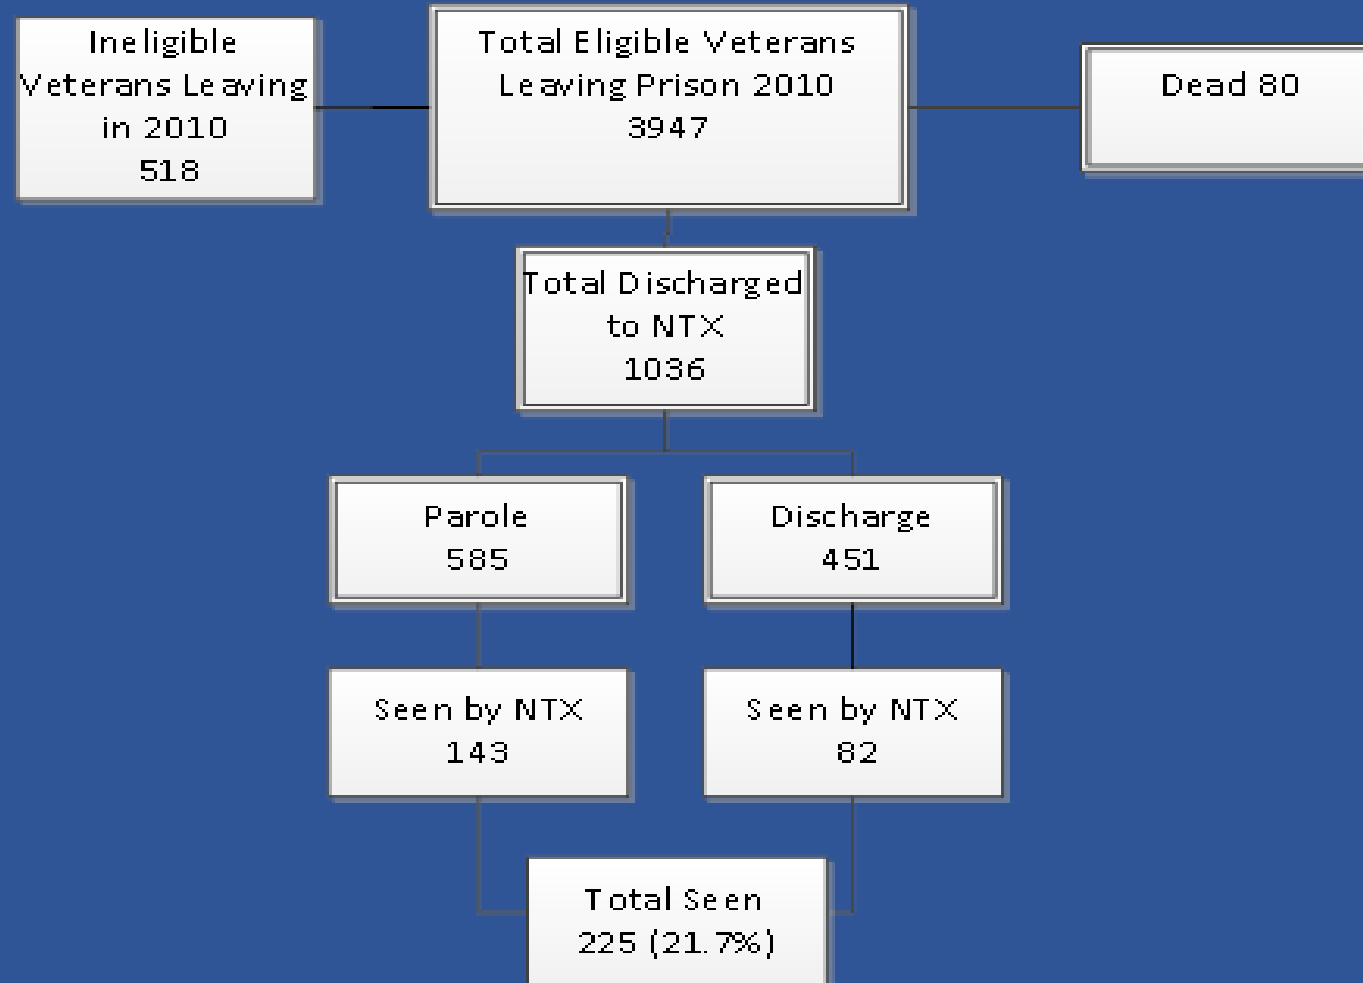

Numbers of Veterans in Prison

- Over 140,000 Veterans in prison
- Approximately 45,000 to 50,000 will be released annually
- Estimates are that approximately 84% would be eligible for VA services based on their military discharge (Honorable or General Under Honorable Conditions)

Problems encountered after discharge

- Death from violence, overdose, and suicide
- Unemployment
- Divorce
- Social Isolation
- Homelessness
- Social stigma
- Reincarceration
- Mental illness and Medical diseases (infectious diseases primarily)

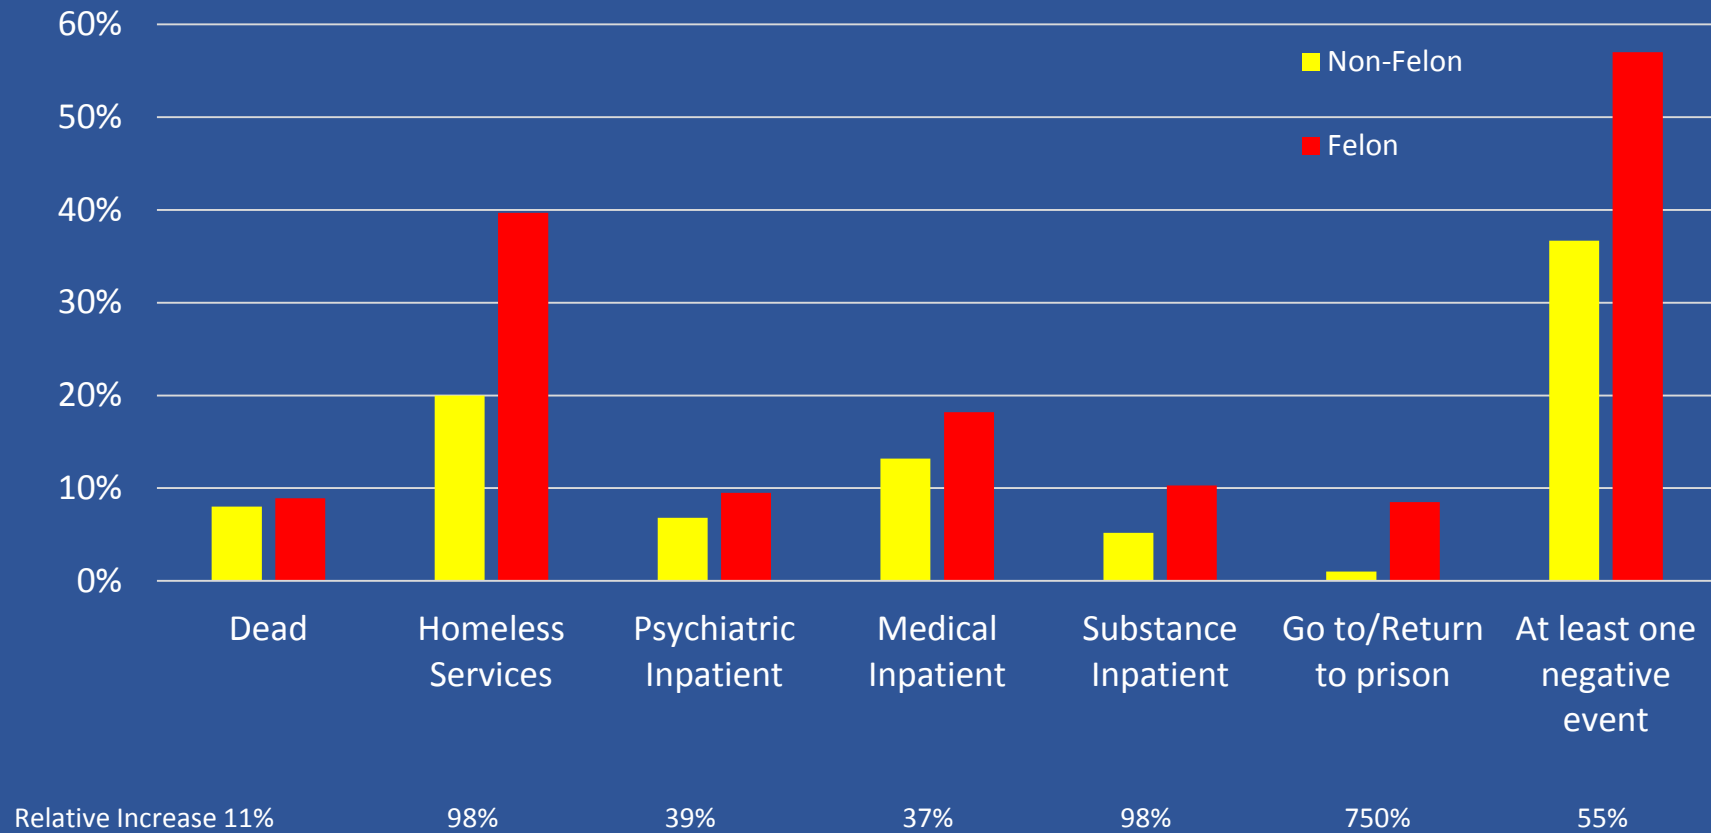

Numbers Coming to VA North Texas Health Care System

Problems Encountered Once Discharged

- 980 Veterans released from prison over a 5 year period
 - Receiving care at VA North Texas within 5 years of release
- Matched to non-incarcerated sample of Veterans at VA NTX
 - Age
 - Gender
 - Racial/ethnic minority (binary)
 - Mental Illness diagnosis (binary)
 - Substance use diagnosis (binary)
 - Medical Disease Burden

Rates of Negative Events: 5-Year follow-up

Research Enhancement Award Program (REAP)

- REAP is a VA award funded through the Office of Research and Development - Rehabilitation Research and Development service
- The REAP funds research infrastructure to focus on a specific area
- Area of focus needs to be rehab focus i.e. the development of new methods/interventions/technologies to target a area of rehabilitation, broadly defined
- The REAP funds
 - Trainees
 - Pilot projects to develop new interventions and rehabilitation services

REAP

- Letter of Intent was approved to submit a REAP application
- Application is due August 8, 2019
- Focused on Veterans coming out of prison with MI, SUD, or medical issues (so practically everyone)
- Goals
 - Create new rehabilitation methods/techniques
 - Train future clinicians in working with the population
 - Generate future research funding
- Funding is \$315,000 per year for five years (renewable)
 - Will be seeking/need additional funding
- Competitive peer review – no guarantees

Current Confirmed or Likely Partners (either organization or individuals within the organization)

- Academic Partners
 - Health Care for Reentry Veterans office
 - VA National Center on Homelessness Among Veterans
 - University of Texas Dallas Criminology Department
 - University of Texas School of Public Health
 - UTSW Clinical Trials Network
 - University of North Texas, Department of Health Behaviors and Health Systems
- Developing list of community partners

The Ask

Before the Grant Submission

- Support letter from the Criminal Justice Advisory Board
 - Indicating the CJAB is supportive of the VA's efforts to improve rehabilitation techniques and programs for released Veterans
- Requesting at least one member of the CJAB or affiliated member participate in the development of pilot projects
 - The role can be as content advisor or actually involved in the development and conducting of research studies

After Grant Awarded

- Requesting at least one member of the CJAB to participate in the project.
 - As investigator, or
 - On Advisory Council that meets twice a year to look at progress of the program and assist in defining new priorities
 - Help identify additional funding to support additional pilot projects
- Be allowed to give annual updates on progress to the CJAB

**Dallas County Criminal Justice Advisory Board
Law Enforcement/Jurisprudence Committee Minutes
Tuesday, March 5, 2019**

Welcome & Introductions: Chief Jim Spivey called the meeting to order at 10:00AM. Chief Spivey introduced Dallas County District Attorney Judge John Creuzot, and explained that Judge Creuzot will be speaking about changes to case filing policies within the District Attorney's Office.

Changes to Case Filing Policies:

Judge Creuzot began the presentation by introducing himself, and stating that the Dallas County District Attorney's Office has instituted a policy starting early February, that the DA's Office will no longer accept first time marijuana offenders for 4 oz. or less. If that person is picked up for a second marijuana charge, then the case will be treated as a public health problem, and not a criminal justice issue. The defendant will then be placed in some kind of program either a MEMO agreement or some type of conditional dismissal program. Some jurisdictions around the United States are no longer filing any misdemeanor marijuana cases, and in some places, even felony marijuana cases are not filed. Judge Creuzot stated that he does not believe in that policy because there are more likely underlining issues that need to be addressed. The goal of the DA's Office is to try to solve those problems, and to get the person back home without a criminal record and functioning better than before. Judge Creuzot reported that back in the early 1980s, if you were on probation and tested positive for marijuana, it was an automatic revocation with two years in the penitentiary. Dallas County has moved away from that mind-set, and we continue to make progress on reducing jail population and mass incarceration.

Judge Creuzot discussed how state jail felonies were created, and the current challenges trying to reduce recidivism. The Criminal Justice system has created recidivism in how cases have been handled. There is a concerted effort to try to solve this issue, by getting more money for treatment, pretrial intervention, assessments, and to be more responsive towards the underline problems of the individual. Texas has gone from 150,000 prison beds in 2005 with a projection to need an additional 17,000. By looking at assessment/treatment and making money available for treatment beds, Texas has closed eight prisons. The DA's Office is going to treat a marijuana case as a

public health problem and not a criminal justice problem, in order to continue to be proactive toward criminal justice system reform.

Judge Creuzot stated that the United States has a problem with people of color being arrested at disproportionate rates for lower level offenses. This is true in Dallas County and across the State of Texas. There is no need for Dallas County to continue down that path when we have the tools and knowledge to do something about it. As the Dallas County District Attorney, policies will be implemented to drive change. It was further stated that research shows that putting an individual through a treatment program, if necessary, is the most effective thing to do. There is no research that shows that putting a person with a drug problem in jail will solve that problem. The DA's Office approach is to apply research to Criminal Justice and try to reduce recidivism. This is a movement that is now being seen across the State of Texas.

Judge Creuzot reported on another issue that he continues to encounter: Criminal Trespass arrests. It appears that officers are arresting homeless, mentally ill people who are trespassing as a default. Taking these people to jail is very ineffective and a waste of tax payer's money. Other options need to be considered for this population, and the jail should not be the default for these individuals. Judge Creuzot suggested instead of taking these individuals to jail, that we should identify and be knowledgeable about the resources within the community where this population can receive services. This would be a great alternative to having someone sit in jail for a couple of days. Due to this being a low level, low risk offense, an individual is often quickly released from jail and the same behavior occurs again.

Judge Creuzot stated that there is also a new policy that will affect each LEA regarding officer-involved shooting cases. The policy applies regardless of whether the involved person was hit or not, and it includes security officers who fire at a person. As before, the DA's Office will conduct their own investigation after the LEA has completed their investigation. If anything is found that the DA investigators believe might be part of the investigation, the LEA will be called out for evidence collection. Secondly, the DA's Office will require all LEAs to submit digital evidence within 12 hours of the incident. Lastly, the DA's Office expects the main case file to be submitted within 45 days of the incident, regardless of whether the investigation has been fully completed. If the file is not received within 45 days, a Grand Jury Subpoena will then be issued for the file. The DA's Office is also setting time limits on themselves: once everything is received, the case will then be presented to the grand jury within 90 days. At the grand jury, the focus will be to find out if there is probable cause that an offense was committed.

Judge Creuzot reported that the Dallas County District Attorney's Office is sponsoring a Legislative bill that will affect LEAs. This bill will put duties and responsibilities on LEAs in every case with respect to evidence discovery. The bill will create a statutory responsibility to give the DA's Office all the evidence in a case. One of the reasons behind the sponsoring of this bill is because evidence is not being turned to the DA's

Office. Judge Creuzot gave a personal example of a case he had as a private defense attorney in which the LEA failed to submit evidence.

There was a comment by Chief Cato regarding possession of marijuana rejections – it was stated that they are receiving instruction from the DA's Office to 1) recall the warrants, and 2) file paperwork with the bond desk requesting all monies to be returned. Chief Cato stated that this process results in more work and is very time consuming for the officers, as they have to undo everything they had already done. Chief Cato also stated what they are doing is arresting the marijuana suspects and releasing them as charges pending, reporting it to DPS in order to have a record of the first possession offense. It was asked if the DA's Office would take the case, for example, if that same person had a second possession charge. Judge Creuzot stated that they would take the case. Judge Creuzot further stated that the LEAs can do whatever they want, and he understands that they have a shortage of money and man-power. The decision about how the LEAs will handle their cases is left to their individual discretion. Judge Creuzot reminded them that the DA's Office will reject and not prosecute possession of marijuana cases for a person's first offense. Chief Spivey asked if they file a possession of paraphernalia in municipal court would the DA's Office consider that a first offense. Judge Creuzot stated, no, that would not count as a first offense. It was asked that if the case is filed with municipal court as attempted possession of marijuana, but it was in fact possession of marijuana, and it is being filed as such for tracking purposes, would the DA's Office take that case once they have another possession charge for the same person. Judge Creuzot stated that they would not be able to take the case in that scenario, because they would not be able to sort out the previous lower marijuana charge in the current system.

There was a question asked if instead of filing the entire marijuana case, could the LEAs send in an abbreviated case. Ellyce Lindberg stated that the DA's office would have to further discuss what abbreviated means and see if it can be done. It was asked if a suspect would be able to be booked into jail without a warrant. Judge Creuzot said, no. No one can get booked into the Dallas County Jail without a warrant. Judge Creuzot asked if there were any other questions.

Ellyce Lindberg spoke briefly about an issue that the Department of Public Safety Drug Laboratory (DPS) is facing, then turned it over to Jeoff Williams from DPS. Jeoff Williams began by stating that the current state of the DPS lab is that they have a big backlog of cases, and they are underfunded at this time. They have also fallen behind because in drug cases, the DA's Office policy states that all samples need to be tested in a case that is to be filed for prosecution. They are receiving an average of 3.8 samples per case. The chemists that are testing the drugs are also the chemists that test blood alcohol. Their current trajectory relating to drug cases would put the lab 14,000 samples behind by June of 2020. We need to change the path that we are on and have another meeting to get more ideas. In speaking with the DA's Office, a suggested idea was to have officers file the strongest case with the highest penalty

group. This would reduce the number of samples that the lab would have to test. While this is the current situation with drug case, the same issues are arising with sexual assault kits, due to the law that was passed that every sex assault kit that is sitting on a shelf needs to be tested. The problem is that funding was provided to test the sexual assault kits, but not to test for everything else (i.e. clothes, mattress, bed sheets etc.). This has also created a backlog. Mr. Williams stated that thoughts are welcome on how to proceed.

Judge Creuzot asked Mr. Williams to mention statute of limitations on the drug cases. Mr. Williams reported that on this current trajectory, somewhere between now and 2020, these drug cases will have reached their statute of limitations. Currently, there are occasions in which they will receive phone calls from LEAs about cases reaching the statute of limitations, and DPS will move the sample to the front of the line to get it tested faster. However, this will not be able to happen with the projected backlog between now and 2020. Ellyce stated that we would set up another meeting to further discuss this issue. From the DA's Office perspective, it does not matter where you get the lab test done. The DA's Office cannot go to the Grand Jury without a lab report. Also, the DA's Office does not want the statute of limitations to run out, and would like to be constructive partners in trying to figure out a solution to this problem. It was asked if the DA's Office is taking restitution forms to get money back to LEAs that are spending money on lab testing. It was stated that, yes, they will complete and submit the form, and it will be up to the judge to approve the reimbursement. There was some discussion on case filing and how different jurisdictions are handling them. Judge Creuzot asked if there were any other questions.

The meeting was adjourned at 11:30AM

JOHN CREUZOT
CRIMINAL DISTRICT ATTORNEY
DALLAS COUNTY, TEXAS

To: Dallas County Law Enforcement Agencies

From: John Creuzot

Date: February 7, 2019

Subject: Changes to Case Filing Policies

Effective February 7, 2019, the Dallas County District Attorney's Office will implement the following case filing policies related to (1) Possession of Marijuana, (2) Possession of Tetrahydrocannabinol (THC), (3) Misdemeanor Narcotics, (4) Trace Evidence, (5) State Jail and 3rd Degree Felony Narcotics, and (6) Driving While License Invalid.

The policies included in this agency letter do not address a peace officer's right to make a lawful arrest; they pertain to how the DA's Office will handle cases once submitted for prosecution.

Possession of Marijuana

Prosecution will be declined on misdemeanor possession of marijuana cases for first time marijuana offenders (both Class A and Class B misdemeanors). Only offenses occurring after February 7, 2019, will be considered in determining whether a person has a prior marijuana offense. For example, if a person committed offenses in 2018, or before, any of those offenses will not be counted. If an offense occurred on February 7, 2019, or thereafter, that offense will be considered for calculating prior offenses. Offenses occurring in drug free zones, involving the use or exhibition of a deadly weapon, or cases with evidence of delivery of marijuana will not be declined, regardless of first time offender status.

Possession of Tetrahydrocannabinol

Prosecution will be declined on State Jail Felony and 3rd Degree Felony Possession of Tetrahydrocannabinol (THC) cases for first time THC offenders. Only offenses occurring after February 6, 2019, will be considered in determining whether an offender has a prior THC offense. This does not include arrests occurring in drug free zones, manufacture and delivery of controlled substance cases, or offenses involving the use or exhibition of a deadly weapon.

Misdemeanor Narcotics Cases

Prosecution will be declined on misdemeanor narcotics cases in which the defendant is also arrested for a felony offense out of the same transaction, with the exception of K2 cases, which will continue to be accepted.

Trace Evidence Drug Cases

Prosecution will be declined on trace evidence drug cases. Any case with a laboratory reported drug weight below 0.01 grams will be treated as trace evidence.

State Jail and 3rd Degree Felony Drug Cases

For State Jail or 3rd Degree Felony drug cases, a final lab report will be required at the time a case is submitted to the DA's Office. This does not include offenses occurring in drug free zones, manufacture and delivery of controlled substance cases, or offenses involving the use or exhibition of a deadly weapon during the commission of the offense.

Driving While License Invalid

At the time of case submission, additional information will be required from agencies for Driving While License Invalid Cases enhanced to a Class B Misdemeanor under Transportation Code Section 521.457(f)(1)-(2). A copy of a valid prior conviction will need to be included for cases in violation of 521.457(f)(1), enhanced by a prior conviction for driving while license invalid, or a prior offense under Section 601.371(a), as that law existed before September 1, 2003, because the prior conviction is jurisdictional. This requirement includes sufficient evidence to prove that the defendant is the same person convicted of the prior DWLI offense, such as fingerprints. In addition, a valid copy of the Notice of Suspension authorizing the suspension of the defendant's privilege to drive active at the time of the defendant's arrest and a copy of the TXDPS DWLI packet, to include a copy of a defendant's Certified Abstract for Law Enforcement driving record, is required.

With the utmost respect,

John Creuzot
