The Americans Seniors Act of 1965 was created to provide health and social services for people age 60 and older. Dallas County encourages all communities to take time during this month to recognize, celebrate and support older adults and the people who serve them.

Every year, millions of Americans face the reality of living with mental illness. In Dallas County, many organizations, such as the North Texas Behavioral Health Authority, which I chair, have improved mental health through advocacy, community education, and resources for children, teens, and adults.
