## DALLAS COUNTY SHERIFF'S DEPARTMENT

### FROM THE SHERIFF

I wanted to congratulate our deputies and staff for the way they handled themselves during the chaotic situation on the morning of June 13, 2015. I was also glad to see one of our deputies featured on several news stations for the job she did in helping end the police chase involving the shooting suspect that not only shot at the Dallas Police Headquarters but at officers who tried to stop him. Deputy Caldwell at great risk to herself, managed to help end the chase possibly avoiding anyone else from getting hurt in the chase. We were truly blessed that no officers were hurt by the shooting suspect.

Deputy Katrina Caldwell is humbled and overwhelmed with the way that the video of her actions during the police chase with the Dallas Police Headquarters shooting suspect has gone viral. The Shaun Rabb Fox 4 News story and interview had already garnered over 271,000 views by the time I spoke with her.

## Quick Acting Deputy Helps Stop Shooting Suspect (Continued from Page 1)

On June 13, 2015, shortly after midnight, Dallas Police Headquarters was shot several times and responding officers were also fired upon. The suspect fled in an armored van and the police gave chase. At the time, Deputy Katrina Caldwell was on another call assisting another officer. When she heard the call for assistance, Caldwell knew she had to do something. She was not far from where the chase was heading and if she hurried could get ahead of the shooting suspect to deploy the “stop sticks”. The “stop sticks” are a tire deflation device that police agencies use to end automobile chases quickly and safely. The use of “stop sticks” is dangerous because the officer has to step away from their vehicle to deploy them and is vulnerable at that point. Deputy Caldwell, with only a few minutes to spare, stopped her vehicle on Hwy 310 just north of I-20 and got out of her vehicle retrieving the “stop sticks”. She could hear the lights and sirens heading in her direction in the distance. Without hesitation she throws out the “stop sticks” and realized that the vehicle coming towards her was not the suspect vehicle. She runs back out and retrieves the “stop sticks” and again throws them out into the roadway. This time, the “stop sticks” land perfectly across the roadway and with literally seconds to spare, Deputy Caldwell dashes across the highway towards her squad car. The armored van being chased by Dallas Police runs over the “stop sticks” and several tires start to deflate. This was the first time Deputy Caldwell had deployed the “stop sticks”.

The chase continued another mile or so coming to a stop in the Jack in the Box parking lot just South of Dowdy Ferry Rd on the I-45 service road. Deputy Caldwell, after the van ran over the “stop sticks”, could be heard saying “I got him! I got him!”. She radioed in and told dispatch that she had managed to spike the vehicle and jumped in her vehicle to join in the chase. When they arrived at the Jack in the Box, part of her dash cam caught the eruption of gun fire as officers crouched down behind a brick wall.

Deputy Caldwell was interviewed by several news outlets including Fox 4 reporter Shaun Rabb. The story had gone viral and was being replayed all over the nation. Deputy Caldwell was asked about the incident and stated “I knew I had to do something, and I just got brave!” She informed me that she wasn’t trying to be a hero but that she didn’t want to see any of her brothers or sisters in blue die. Well she definitely did a great job in helping to end the suspect’s shooting spree and destructive actions.

## Fallen Deputy Memorial 2015 Highlights

The Fallen Deputy Memorial was held on May 15, 2015. Sheriff’s Department members once again did the department proud. The ceremony was professional and honored the men and women who made the ultimate sacrifice. More photos on page 3 and 4.

### Fallen Deputy Memorial 2015 Highlights

DSO Choir sang before and after the ceremony

The Dallas County Sheriff's Department held their annual Fallen Deputies Memorial on May 15, 2015 at the George Allen Court Building.

The annual memorial ceremony coincides with National Police Week which was established by President John F. Kennedy and a joint Congress resolution to pay tribute to law enforcement officers who have given the ultimate sacrifice to protect their community.

Since its establishment in 1846, the Dallas Sheriff's Department has lost 19 deputies in the line of duty. The first fatal incident took place in January 1871, when Deputy James McMahan, who was on his first day of duty, along with Deputy Charles Nichols were shot and killed while attempting to arrest a suspect.

The most recent was Deputy James Robert Allman who died in a car accident on August 5, 1995. Allman was responding to a call about a suspicious person when his cruiser went out of control and struck a tree. He was killed instantly. **"We Honor, We Don't Forget."**

### Jail Medical Modification Project

Recently, HDR/Hill International commissioned a professional photographer to come in and photograph the new Dallas County Jail Medical Modification Project. The Med Mod is a one-of-a-kind facility that renovated and modified 138,657 sq. feet of existing space in the lowest three floors of the North Tower Jail facility to create a stand-alone centralized medical-mental health services facility. The Med Mod includes separate medical and mental health clinics. Below are some of the stunning photographs of this impressive facility.

With an immune system that works incredibly hard to protect our bodies against infections and diseases, it's important we support it wherever we can. Eating one juicy orange a day is the perfect way to do just that. As vitamin C is a water-soluble vitamin, it is not stored in the body and is therefore required to be consumed daily.

This naturally packaged source of super nutrients contains antioxidants such as carotenoids, flavonoids and a huge 64mg of vitamin C, which is more than one and a half times the daily recommended dietary intake. All of this healthy goodness will help support your immune system in fighting free radicals, generated when the body is exposed to smoke, poor diet, stress and infection.

Oranges are also ideal for weight maintenance. Not only do they contain zero fat, they're also rich in antioxidants and are a wonderful source of folate, potassium and fiber. Compared to the other fruits in your bowl, oranges contain a lower amount of fruit sugars but are high in fiber. This means they'll keep you fuller for longer.

### Inmate Programs Scroll Saw Program

Inmate Programs is pleased to announce the launch of its Scroll Saw Program. Students are taught woodworking fundamentals and a clear approach to cutting covers, curves, straight lines, sharp corners, angles, true arcs, perfect circles, making large cutouts and inside cutouts, stack-cutting, bevel-sawing, and much more. The course is taught by DSO Roy Love who has been with the Sheriff Department for 27 years. Though DSO Love is assigned to the Law Library at the Kay's Jail, he is able to offer the woodworking course twice a week. The course is offered to both male and female inmates.
