## **Explanation of BPAD Scoring**

**Superior (Scores 30-32):** These candidates performed exceptionally well. They demonstrated excellent judgment, problem solving skills, communications skills, and awareness of the main issues in all scenes. They appear highly qualified to handle a wide range of situations on the job.

**Very Good (Scores 27-29):** These candidates have strong skills in problem solving, communicating, and identifying the main issues in work situations. They appear to be very reliable in handling a wide range of job situations.

**Good (Scores 24-26):** These candidates demonstrated generally effective responses in handling the work problems which were presented. While not as effective as the two higher groups, their responses were adequate to resolve the problems in each scene.

**Fair (Scores 21-23):** These candidates performed adequately on most scenes, but were somewhat inconsistent in their problem solving and communication skills.

**Inconsistent: (Scores 18-20):** These candidates had difficulties in three or more scenes. They either missed the main issues, were unable to solve the problem, or communicated ineffectively. They are likely to be inconsistent in solving problems on the job.
