DETAILS

Asset Inventory Review

A review of the Oracle Fixed Asset Report for fiscal year 2022 and inquiry of County Clerk personnel revealed 36 property items listed on the report totaling \$1,100,842.99 were not physically located; supporting documentation for disposal was not provided; and three property items were listed on the report with the incorrect location. **Status:** Items not located. Department to brief Commissioner's Court for approval to remove missing items from Oracle.

Per Dallas County Code Section 90-313 (6), it is the sole responsibility of the elected official/department head to which property is assigned to maintain a proper accounting of all property through proper inventory records. Per Dallas County Code Section 90.373, all department heads and elected officials are responsible for maintaining property assigned to their department, proper inventory records, and making appropriate reports as required. Lack of management review of processes related to property inventory including the lack of submission of P280 forms for assets retired or no longer in the department has resulted in incomplete/inaccurate property inventory records and increased the potential for loss or misuse of property inventory.
