# **INTRODUCTORY SECTION** (Unaudited)

DALLAS COUNTY DARRYL D. THOMAS COUNTY AUDITOR

March 29, 2017

Honorable District Judges of Dallas County and Honorable Members of the Dallas County Commissioners Court:

State law, V.T.C.A. Local Government Code 114.025 and 115.045, requires issuance of an annual financial report and an annual independent audit of all matters relating to fiscal affairs of the County. Pursuant to those requirements, we hereby release the comprehensive annual financial report of the County of Dallas for the fiscal year ended September 30, 2016.

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, the County has established a comprehensive internal control framework that is designed both to protect the County's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). Accounting requirements for Governmental Accounting Standards Board (GASB) Statement Numbers 72 and 79 were implemented in FY16. These statements are explained on page 35 of the Notes to the Basic Financial Statements. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the basic financial statements will be free from material misstatement. Responsibility for internal controls is shared by Commissioners Court, which is the governing body; the County Auditor, (appointed by the District Judges); the Office of Budget and Evaluation (appointed by Commissioners Court); and, the County Treasurer (an elected position). We believe that the County's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions. We assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's basic financial statements have been audited by Deloitte & Touche, LLP. The goal of the independent audit was to provide reasonable assurance that the basic financial statements of the County, for the fiscal year ended September 30, 2016, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors' report is presented as the first component of the financial section of this report.

Generally accepted accounting principles require a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The introduction includes this transmittal letter, the County's organizational chart and a list of principal officials. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The financial section also includes government-wide financial statements, fund financial statements, notes to the financial statements, required supplementary information and the combining and individual fund financial statements and schedules in addition to the report of the independent auditors on the financial statements and schedules. The statistical section of this report includes selected financial and demographic information, which is generally presented on a multi-year basis.

#### **PROFILE OF DALLAS COUNTY**

The County is located in north central Texas, and is strategically central to the economic region of Texas, Louisiana, Arkansas, Oklahoma, and New Mexico, as well as centrally located within the United States. The County region was opened for settlement by the Mexican colonization laws and was included in an impresario grant before 1836, but actual settlement was delayed until 1841. The first Texas legislature created the County from parts of Robertson and Nacogdoches counties on March 30, 1846, and designated the town of Dallas (a post office since 1844) as a temporary "Seat of Justice." The act does not state whom the County's name honors; it probably was George M. Dallas, then vice president of the United States. Two elections were held in 1850 to fix the city of Dallas as the permanent county seat. The County encompasses an area of 900 square miles. Dallas County is the ninth largest county in the U.S. with the 2010 census reported population for the County of 2,368,139. The Census Bureau has estimated the population has increased to approximately 2,553,000. The County is a public corporation and political subdivision of the State of Texas. The general governing body of the County is the elected five-member Commissioners Court in accordance with Article 5, Paragraph 18 of the Texas Constitution. Commissioners serve four-year staggered terms, two members elected every two years. The County Judge is elected at large to serve a four-year term.

The Commissioners Court sets the tax rates, establishes policies for County operations, approves contracts for the County and develops and adopts the County budget within the resources as estimated by the County Auditor. The Commissioners Court is also responsible for development of policies and orders, approving financial commitments and appointment of various department heads. The management and leadership provided by members of the Commissioners Court and the elected and appointed officials of other key County offices is crucial to the success of the County in financial management and growth. While there are 254 Texas counties, Dallas County is one of eight with its bonds rated AAA by S&P Global Ratings and Aaa by Moody's. Dallas County's bond ratings are a positive reflection of its financial management and the fact that its tax base has increased 33% since 2012 to \$234.9 billion. The commissioners serve on various boards and committees including the Dallas County Criminal Justice Advisory Board, Bail Bond Task Force, the DWI Task Force, North Texas Behavioral Health Authority (NTBHA), Greater Dallas Homeless Policy Alliance, Public Employee Benefits Cooperative (PEBC), Prostitute Diversion Initiative (PDI) and an alternate for the Regional Transportation Committee, Dallas Convention Visitors Bureau, Dallas Zoological Society, New Friends New Life, Methodist Dallas Medical Center, Dallas County Civil Service Commission, Population Committee, Dallas County Juvenile Board, Jail Sanitation and Maintenance Committee, Dallas County and Housing Finance Corporation, Public Health Advisory, Bioterrorism and Safety, the Texas Conference of Urban Counties, Behavioral Health Leadership Team, and Civil Service Committee.

The County Auditor is appointed according to Texas State Statutes for two-year terms by the District Judges. The County Auditor has responsibilities for prescribing the systems and procedures for handling the finances of the County, certifying available funds for county budgets, and "examining, auditing, and approving" all disbursements from County funds prior to their submission to the Commissioners Court for approval. It is the Auditor's duty under statutory mandates to determine if claims are in conformance to laws governing county finance and to audit records of precinct offices that collect funds. The Auditor presents status of audit risk assessments to the Finance Committee and publishes final audit reports on the web. The Commissioners Court has vested accounts payable and payroll processing functions with the County Auditor. Additionally, the County Auditor serves as Chief Financial Officer for federal and state financial award programs; Juvenile Programs and Adult Probation Departments.

Financial management controls regarding banking and investment are managed by the County Treasurer, an elected position. The Treasurer chairs the County Finance Committee and submits for annual recertification an official investment policy. In accordance to Texas state statutes, the County's investment policy was reviewed and certified with recommended updates. Budget authority, control over purchasing transactions, and human resource management are assigned to directors appointed by Commissioners Court. Policy and procedures are developed according to sound business practices and in strict conformance to federal and local financial statutes.

The County provides many services not ordinarily provided by any other entity of government and provides additional services in cooperation with other local governmental units. A primary service is the administration of justice, which includes the civil and criminal county and district courts, justices of the peace, constables, district attorney, investigators, clerks of the courts, sheriff, jail, security and emergency management, medical examiner, crime laboratory and grand jury bailiffs. Other functions performed by the County include the construction and maintenance of roads and bridges, either independently or in cooperation with other entities; administration of public health services; assistance to indigents; and the provision of juvenile, health, education and welfare services involving the care and correction of dependent or delinquent children, as well as property tax collections for multiple agencies.

The annual budget serves as the foundation for the County's planning and control. Budget workshops are hosted periodically by the Office of Budget and Evaluation with the final budget approved by the Commissioners Court in accordance with statutory guidelines. Potential loss of state and federal funds is considered in developing the budget. The final budget includes contingency and emergency reserves line items. Encumbrances are carried forward to the subsequent year. Unencumbered appropriations for the general fund lapse at fiscal year-end. The General fund unassigned reserves are addressed in budget policies, targeted at 10.5% of current expenditures, and used to smooth uneven revenue flows. Cost savings initiatives of recent years have been positive and pay raises were approved for 2016. The Commissioners Court has committed funds for major technology projects and major capital development. Any available budget for these committed funds is carried forward annually for those specific purposes. Most appropriated budgets are prepared by fund, function, department, and category. Capital expenditures for general operations are approved on a line item basis but a multi-year capital improvement plan is utilized to track major capital projects. All budget transfers between departments and/or projects must follow statutory approval processes. Budget to actual comparisons are provided in this report for each individual government fund for which an appropriated annual budget has been adopted. Budgets funded by federal and state financial assistance are authorized individually on application and acceptance of awards by order of the Commissioners Court.

Another governmental unit is included in the County's reporting entity because the County's governing body appoints the board, sets tax rate and operational and financial relationship with the County is significant.

**Discretely Presented Component Unit** - The Dallas County Hospital District (District) is under the direction of a seven-member board of managers who are appointed by the Commissioners Court. Although the Commissioners Court approves the District's budget, sets its tax rate, and approves major contracts, the District is an organization separate from the County. These factors dictate the inclusion of the District in the County's financial statements. According to the Texas Constitution, the District, not the County, is responsible for the District's ongoing debt payments regardless of any future financial/economic events. The District's financial data is presented separately to emphasize that it is legally separate from the County. The District operates under different statutory and constitutional authority. The District also has a separate constitutional tax limitation, the independent power of eminent domain and the individual right of ownership of property. The District and serves as the major teaching hospital for the University of Texas Southwestern Medical School. The hospital is a Level I Trauma Center, a Level III Neonatal Intensive Care Unit and a regional burn center.

#### Local Economy

The Dallas Metropolitan area is headquarters for many Fortune 500 companies representing a diversified economy which includes technology, retail, manufacturing, and services. The ongoing industry in Texas is growing faster than the national average. Dallas and Fort Worth (DFW) have seen dramatic growth in the video game studies and gaming software development jobs. Public transit options continue to expand significantly, though in several outlying suburbs, it remains limited. The area also reflects art, fashion, and entertainment. It is the site of a district Federal Reserve Bank and Dallas – Fort Worth International Airport.

Together with the Fort Worth Metropolitan area, DFW comprises the nation's fourth largest urban economy with per capita personal income (PCPI) 103% of national average (U.S. Department of Commerce, BEA). The benefits component of compensation costs continued to increase in DFW metropolitan area according to U.S. Bureau of Labor statistics. The local unemployment rate is 3.8%, which is lower than the national rate of 4.8%. The area enjoys relatively low taxes with no personal or corporate state income tax and maximum state and city sales tax of 8.25%.

Dallas home prices increased 8.0% in September from a year earlier, according to S&P Case-Shiller Home Price Index. Construction starts for apartment buildings, offices, and warehouse locations are strong. Research indicates the number of Dallas-area homes posted for foreclosure continues to decline. Economic declines noted for the top 10 employers and taxpayers were noted in insurance, telecom, and electronic industries. The combined appraisal value of the 10 largest taxpayers total 2.95% of the County's total 2016 appraised value. A schedule listing the 10 largest taxpayers can be found in statistical sections of this report. The Federal Open Market Committee has maintained the target range for federal fund rates at 0.25% - 1.00% from December 2008 through March 2017.

County business planning continues to address performance and reliability of jail operations and transportation systems and maintains commitment to e-government. Budget initiatives reflect ongoing focus for public safety, transportation funding, and inmate health/security. Management initiatives and tight budget controls have resulted in strong general fund reserves while achieving success with long-term goals and options to provide employee compensation increases. Significant budgetary challenges are housing needs for the homeless, insurance/hospital options for the employees, and inmate housing/care. Technology planning is focused on development of an automated courts system. The County and surrounding cities are focusing on transportation and infrastructure. Walking trails are championed for alternate transportation as well as community use areas.

The County adopted and "Administrative Plan," which sets priorities to guide decision making and planning for the next five years. Also, the County utilizes a five-year Capital Improvement Plan as a significant budget tool. The Capital Improvement Plan consists of those items whose long useful lives distinguish them from recurring operational items. The Major Capital Development Fund (MCDF) provides a funding mechanism as an alternative to debt financing for major projects. The MCDF receives property tax funding and is used to fund large capital projects similar in nature to projects funded by the County through bonds. The MCDF has three categories of projects: transportation, parks and open space, and buildings, plus an energy conservation initiative for utility costs. Revenue projections are expected to replenish reserves for future use. In accordance with the Major Capital Plan, a percentage of assessed taxes are devoted to large scale capital projects. A total of 5.155 (4.5 plus .655) cents per hundred for tax rate is committed to combined Debt Service and MCDF.

The Major Technology Fund receives dedicated property taxes and is used to fund long-term objectives related to computer technology. A dedicated tax rate of 1.56 cents per \$100 valuation remains relatively consistent year-to-year. Funded projects include statewide initiatives to develop technology programs, Microsoft licensing and various business management systems.

Another property tax funded program, the Permanent Improvement Fund, managed by the Facilities Management Department, is largely utilized to maintain the integrity of the County's buildings.

Risk management and self-insurance with stop loss policies for medical, workers' compensation, and property continue to be effective. Various actuarial studies are periodically performed to aid in financial planning. Cost increases incurred by the County for medical claims are significantly less than industry averages. Cost sharing formulas for establishing the premium are reviewed annually. Focus remains on providing high level care for employees with reasonable rates and offering a Health Savings Account (HSA).

In fiscal 2016, the County issued bonds with total proceeds in excess of \$200 million in order to improve and restore several of its buildings. Most notably, the Dallas County Records Complex and Old Red Courthouse.

#### AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Dallas County for its comprehensive annual financial report (CAFR) for the fiscal year ended September 30, 2015. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. The CAFR must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The County has received a Certificate of Achievement for the last 35 consecutive years (fiscal years ended 1981 through 2015). We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA.

The preparation of the CAFR on a timely basis could not have been accomplished without the efficient and dedicated services of the staff of the County Auditor's Office. We express our appreciation to all the members of the office who assisted in and contributed to its preparation. Additionally, credit must be given to the County Treasurer, Directors of the Office of Budget and Evaluation, Human Resources, Purchasing, and Public Works for verification and review of key elements of the financial report.

We also thank the members of the Commissioners Court and their staff, and all other County officials and employees who have given their support in planning and conducting the financial operations of the County in a responsible manner.

Respectfully submitted,

Dawal D. Mome

Darryl D. Thomas Office of County Auditor

#### INDEPENDENT AUDITORS' REPORT

The Honorable County Judge and Commissioners Court Dallas County, Texas

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Dallas County, Texas (the County), as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Dallas County Hospital District, which represents the entire discretely presented component unit. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Dallas County Hospital District, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Dallas County, Texas, as of September 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, the Budgetary Comparison Schedules—General Fund, Major Projects Special Revenue Fund, Major Grants Special Revenue Fund, the Infrastructure Assets under Modified Approach, the Schedule of Changes in Net Pension Liability and Related Ratios-Primary Government, the Schedule of County Pension Contributions—Primary Government, the Schedule of Funding Progress for Other Postemployment Benefits Plan, the Schedule of Changes in Net Pension Liability and Related Ratios—Discretely Presented Component Unit, the Schedule of Employer Contributions— Discretely Presented Component Unit, and the Schedule of Funding Progress for Other Postemployment Benefit Plan—Discretely Presented Component Unit be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining financial statements, budgetary compliance schedules, and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining financial statements and budgetary compliance schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the

United States of America. In our opinion, the combining financial statements and budgetary compliance schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

#### DALLAS COUNTY, TEXAS

#### MANAGEMENT'S DISCUSSION AND ANALYSIS Primary Governmental Activities (Unaudited)

This management's discussion and analysis (MD&A) of Dallas County (County) financial performance provides an overview of the County's financial activities for the fiscal year ended September 30, 2016. The MD&A should be read in conjunction with the basic financial statements and the accompanying notes to those financial statements. *All amounts, unless otherwise indicated, are expressed in thousands of dollars*. The MD&A includes comparative data for the prior year.

#### FINANCIAL HIGHLIGHTS

#### Government-Wide Financial Statements

- The government-wide total net position decreased \$886 from the previous year. The total net position is comprised of:
  - 16.5 % restricted by external regulators
  - 0.3 % restricted for debt
  - (24.3) % unrestricted deficit funds that may be used to meet on-going obligations to citizens and creditors, negative due to pension and other post-employment benefit (OPEB) liabilities
  - 107.5 % amount invested in capital assets, net of related debt
  - Major factors contributing to change in net position are:
  - pay increases of 3%, and 4% to 5% for civilian and law enforcement employees, respectively
  - increasing liability for OPEB
  - increasing pension liability resulting from increased salaries and OPEB decreased earnings
  - increasing property tax values
- Deferred revenue from property taxes based on the 2016 levy embody a flat tax rate and a 10.8% increase in the assessed taxable value after qualified exemptions for real and business personal property

**Governmental Funds Financial Statements** 

- The County's governmental funds reported combined fund balances of \$615,506; compared to \$388,100 of prior year. The majority of this change of combined fund balances was the result of debt issuance in FY16. Components of fund balances are:
  - 1.0% non-spendable: inventories and prepaids
  - 1.1% restricted to major grants
  - 12.9% restricted to non-major governmental funds
  - 0.3% restricted to debt service
  - 38.6% committed major projects
  - 33.4% restricted for County building improvements fund
  - 1.4% committed to non-major governmental funds
  - 2.0% assigned general fund
  - 9.3% unassigned general fund

- At the end of the current fiscal year, the unassigned fund balance for the General Fund was \$57,522 or 12.0% of general fund expenditures. This represents a \$15,501 decrease compared to the prior fiscal period.
- Tax revenues realized during the period increased, reflecting strong collection experience on 2015 taxable values which increased 7.8% over 2014 taxable values.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This MD&A is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other required supplementary information in addition to the basic financial statements.

**Government-wide financial statements.** *The government-wide financial statements* are designed to provide readers with a broad overview of the County's finances in a manner similar to private sector business. They present the financial picture of the County from an economic resources measurement focus using full accrual basis of accounting. These statements include all assets of the County (including infrastructure), as well as all liabilities (including long-term debt). Additionally, certain eliminations have occurred in regards to inter-fund activity, payables and receivables.

The Statement of Net Position presents information on the assets, deferred outflows of resources, liabilities, and deferred inflows of resources for the County and its component unit. Components of net position exclude fiduciary accounts. Increases or decreases in net position contrasted with budgetary decisions serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The S<u>tatement of Activities</u> presents information showing how net position changed during the most recent fiscal year using the accrual basis of accounting. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other business functions that are intended to recover all or a significant portion of their costs through user fees and charges. The governmental activities of the County include general government, public safety, highways and streets, public welfare, health, judicial, and education.

**Fund financial statements.** A *fund* is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Unlike the government-wide financial statements, however, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. In particular, unrestricted, unassigned, assigned, and committed fund balances may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between *governmental funds* and *governmental activities*.

The County maintains 27 individual governmental funds (excluding fiduciary funds), 20 special revenue funds, one Capital Project Fund, and the following major funds: one County Building Improvements Fund, one Debt Service Fund, one Major Grants Fund, one Major Projects Fund and the General Fund. The County also has one Internal Service Fund. Information is presented separately in the governmental fund balance sheet and governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund, Major Projects Fund, County Building Improvements Fund, and Major Grant Fund which are classified as major funds. Data from the other non-major governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this Comprehensive Annual Financial Report (CAFR).

**Proprietary funds.** *Proprietary funds* provide the same type of information as the government-wide financial statements, only in more detail. The Internal Service Fund (a type of proprietary funds) is used to report activities that provide supplies and services for other programs and activities – such as the County's self-insurance program (including workers' compensation) and employee benefits. Because these services predominantly benefit government rather than business-type functions, the Internal Service Fund is reported with *governmental activities* in the government-wide financial statements.

**Fiduciary funds.** *Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. The County's fiduciary activities are reported in a separate Statement of Fiduciary Assets and Liabilities. These activities are excluded from the County's other financial statements since the County cannot use these assets to finance its operations. The accounting used for fiduciary funds is much like that used for proprietary funds. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

**Notes to the basic financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning infrastructure assets reported using the modified approach, pension and OPEB benefits for the County and its component unit, and general fund and major special revenue fund budgetary schedules.

**Discretely Presented Component Unit**. The Dallas County Hospital District (District) is under the direction of a seven member Board of Managers appointed by the Commissioners Court. Although the Commissioners Court approves the District's budget, sets its tax rate, and approves major contracts, the District is an organization separate from the County. These factors dictate the inclusion of the District in the County's financial statements. The County, however, does not have financial responsibility for the District's debt. The District's financial data is presented separately to emphasize that it is legally separate from the County. The District operates under different statutory and constitutional authority. Only the dissolution of the District by a vote of the County's voters would terminate the District's responsibility to provide health care to its indigent eligible residents. The District also has a separate constitutional tax limitation, the independent power of eminent domain, and the individual right of ownership of property.

#### Complete financial statements for the District may be obtained from: Parkland Health & Hospital System 5200 Harry Hines Boulevard Dallas, Texas 75235 Attention: John G. Moore Executive President Finance and Chief Financial Officer

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

The County's net position at September 30, 2016 and 2015 are summarized as follows:

Dallas County's Net Position

#### **Governmental Activities**

|                                      | 2016         | 2015       | Increase<br>(Decrease) |
|--------------------------------------|--------------|------------|------------------------|
| Current and other assets             | \$ 1,231,761 | \$ 942,411 | \$ 289,350             |
| Capital assets (net of depreciation) | 613,464      | 590,446    | 23,018                 |
| Total assets                         | 1,845,225    | 1,532,857  | 312,368                |
| Deferred outflow of resources        | 166,998      | 43,962     | 123,036                |
| Current and other liabilities        | 172,581      | 142,072    | 30,509                 |
| Long-term liabilities                | 817,887      | 464,726    | 353,161                |
| Total liabilities                    | 990,468      | 606,798    | 383,670                |
| Deferred inflow of resources         | 501,498      | 448,878    | 52,620                 |
| Net investment in capital assets     | 559,389      | 536,199    | 23,190                 |
| Restricted                           | 87,072       | 78,822     | 8,250                  |
| Unrestricted (deficit)               | (126,204)    | (93,878)   | (32,326)               |
| Total net position                   | \$ 520,257   | \$ 521,143 | \$ (886)               |

The financial reporting model focuses on net position and serves as a useful indicator of a government's financial position. Categories of net position are unrestricted, subject to external restrictions as to how they may be used, or invested in capital assets less outstanding debt used to acquire those assets. Current and other assets increased due to real estate taxes collected in FY16 and amounts receivable at September 30, 2016. These increases were due to real estate valuation increases and not an increase in the County's overall tax rate. During September, 2016, the County issued debt with total principal and premium of \$201,178, which will fund renovation of certain County buildings. Long-term liabilities reflect increasing other post-employment benefit (OPEB) and pension costs. The County's unrestricted category is impacted by the OPEB liability of \$360,408, which is unfunded and increased \$53,504 in FY16. In addition, the County's pension liability increased \$126,615 as a result of increased salaries and resulting in decreased earnings.

The largest portion of net position reflects investments in capital assets (e.g., land, buildings, machinery, and equipment), less outstanding debt used to acquire those assets. Current activity for capital assets reflects increases in construction in progress for major building improvements and purchases of machinery and equipment. Capital assets are used to provide services to citizens; consequently, these assets are *not* available for future spending. Although investments in capital assets are reported net of

related debt and the County's philosophy is "pay-as-you-go," resources needed to repay any necessary debt must be provided from other sources, capital assets cannot be used to liquidate these liabilities.

A portion of net position represents resources that are subject to external restrictions which limit its use. Use of net position includes restrictions such as statutory requirements, bond covenants, or grantor conditions. Current period activity reflects significant permanent improvement spending of prior commitments. Unrestricted deficit is negative due to the OPEB and pension liabilities.

The Reconciliation of Statement of Revenues, Expenditures and Changes in Fund Balances of Government Funds on page 30 provides further details of the decrease in net position of \$886 as indicated on page 27.

**Governmental activities.** Program revenues and expenses are presented net of inter-fund eliminations. Key elements for the years ended September 30, 2016 and 2015 are as follows:

Incrasca

Dallas County's Changes in Net Position

|                                                      | 2016       | 2015       | Increase<br>(Decrease) |  |

#### General Revenues and Program Revenues

General revenues are revenues not assigned to support a specific function, but are available to provide financial resources as necessary. Included in general revenues are ad valorem taxes, other tax related revenues, interest earned from investments, and miscellaneous income. Net program revenues were flat between FY16 and FY15. However, General revenues increased significantly due to the following:

- Property taxes increased \$28,995 during the year from increases in taxable assessed valuations without an increase of the County's tax rate.
- General revenues include a 6.3% increase of other taxes collected due to increasing vehicle sales.
- Grants and contributions not restricted increased \$5,338 due to collections of various miscellaneous non-exchange funds permitted by State statutes.
- County was the beneficiary of a donation of a building addition partially funded by the County and a third party.

The tax rate assessed for January 1, 2016, valuation date remained flat at 24.31 cents per \$100. Taxable assessed valuations for that period increased 10.8%. (Property taxes levied prior to year-end are reflected as unearned revenue and taxes receivable.)

#### **Expenses and Program Revenues – Governmental Activities – FY16**

Net program revenue of \$292,247 less expenses of \$786,949 for FY16 was a net expense of \$494,702. Net program revenue less expenses was a net expense of \$412,471 in FY15. The change between FY16 and FY15 was primarily a result of:

- Salaries increased October 1 with structure increases of 3% and 4% to 5% for civilian and law enforcement employees, respectively. Pension costs increased as a result of salary increases and as a result of an implementation of a new accounting standard in FY15.
- General government OPEB annually determined expense reflected a \$53,504 increase for the current year.
- The pension liability increased from \$89,266 in FY15 to \$215,881 in FY16. Pension expense increased \$13,132 as a result of the actuary's determined expense exceeded the County's expense.

#### FINANCIAL ANALYSIS OF GOVERNMENTAL FUNDS

As noted, the County uses *fund accounting* to ensure and demonstrate compliance with finance related legal requirements. Fund accounting budget controls and fiscal responsibility are the framework of the County's strong fiscal management and accountability.

**Governmental funds.** The general government functions are reported in the General, Special Revenue, Debt Service, and Capital Project Funds. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's annual financing and budgeting requirements. In particular, *unrestricted, unassigned, assigned, restricted, and committed fund balances* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The County's aggregate governmental fund balance increased \$227,406 in the current fiscal year to \$615,506. However, a decrease was noted for the Debt Service fund with increases in the Major Project and County Building Improvements funds. Tax revenues increased \$28,480 due to increasing property tax valuations.

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$57,522 in contrast to \$73,023 in the prior year. Total fund balance is \$73,772. Increased expenditures were recorded in each expenditure category as a result of structural salary increases of 3% and 4% to 5% for civilian and law enforcement employees respectively. As a measure of the General Fund's liquidity, County management has a budgetary target of unassigned fund balance to total fund expenditures (excluding other financing uses) of 10.5%. The budget incorporates maximum anticipatory spending with expectations that management controls will minimize actual costs. FY16 reflects unassigned fund balance to total fund expenditures to total fund expenditures (excluding other financing uses) at 12.0%.

In FY16, the Debt Service fund balance decrease reflects decreasing requirements for principal and interest payments due to continued repayment of existing debt before consideration of new debt issued in September 2016. County management anticipates full debt retirement in 2031.

The Major Projects Fund reflects a fund balance of \$237,844 compared to \$204,106 in FY15. This increase was due to increased tax revenue from an increase in assessed values without an increase in the tax rate.

The County Building Improvements fund was previously classified as a non-major governmental fund as a Capital Project fund titled: Permanent Improvement fund. In September 2016, as described earlier, new

debt was issued to fund improvements to certain County buildings. As a result, the fund was renamed and reclassified as a major governmental fund.

Major Grants Fund includes federal and Texas awards except HUD Section 8 grants and Academy for Academic Excellence (Charter School), which are included in Other Non-Major Governmental Funds.

Other Non-Major Governmental Funds includes a capital project fund (funded by bond sales), non-major grant awards, and other activity for special funds administered by local officials in accordance to statutes. These funds continue to be restricted for statutory purposes. Also included in non-major governmental funds is a Major Technology fund with balances committed by the governing body. Other Non-Major Governmental Funds total fund balance is comprised of \$79,131 restricted, and \$8,491 committed. The FY16 balances slightly increased in Non-Major Governmental Funds, reflecting fewer capital outlays in FY16 as compared to FY15.

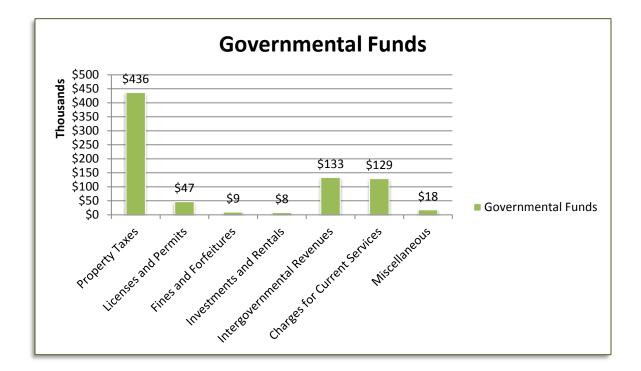

The following table presents the amount of revenues from various sources, as well as increases or decreases from the prior year.

#### **Governmental Funds - Revenues Classified by Source**

|                              | 2016 |         | 2015          | rease<br>rease) | Percent of<br>Change |  |  |
|------------------------------|------|---------|---------------|-----------------|----------------------|--|--|

| Intergovernmental revenues   |      | 133,226 | 125,783       | 7,443           | 5.92                 |  |  |
| Charges for current services |      | 128,935 | 131,988       | (3,053)         | (2.31)               |  |  |
| Miscellaneous                |      | 17,521  | <br>13,352    | <br>4,169       | 31.22                |  |  |
| Total                        | \$   | 779,463 | \$<br>741,445 | \$<br>38,018    | 5.13                 |  |  |

- Property taxes increased by \$28,480 primarily due to a 7.8% increase in the 2015 assessed taxable values with a flat tax rate. New construction values totaled \$4,350,051, an increase compared to the previous year.
- Licenses and permits increased \$2,842 primarily due to a \$2,700 (6.3%) increase in sales tax collections as market demand for vehicles continues to increase.
- Fines and forfeitures decreased due to declining collection rate for aged receivables for criminal fines as well as continuing decline of traffic program.
- Intergovernmental revenues increased due to an increase of a State grant received by the Major Grants Fund to improve air quality.
- Miscellaneous revenues increased due to collections of various miscellaneous non-exchange funds permitted by State statutes.

The following table presents expenditures by function compared to prior year amounts.

|                                            | 2016       | 2015       | Increase<br>(Decrease) | of<br>Change |

| Capital outlays                            | 31,670     | 29,985     | 1,685                  | 5.62         |
| Debt service - principal                   | 24,645     | 25,840     | (1,195)                | (4.62)       |
| Debt service – interest and fiscal charges | 4,724      | 4,937      | (213)                  | (4.31)       |
| Total                                      | \$ 753,235 | \$ 717,535 | \$ 35,700              | 4.98         |

#### **Expenditures by Function - Governmental Funds**

Percent

- Salaries increased October 1 with structure increases of 3% and 4% to 5% for civilian and law enforcement employees, respectively. Pension costs increased as a result of salary increases.
- Expenditures for each of the above functions increased for costs associated with salary increases except for highways and streets, health, public welfare, education, and debt service. Salary costs include related benefits such as medical and pension costs.
- Capital outlay expenditures increased because of County building renovations.
- Debt service Interest payments decreased primarily due to scheduled payments of principal.

#### GENERAL FUND BUDGETARY HIGHLIGHTS

The FY16 legally adopted cash budget was adopted on September 15, 2015, for the General Fund totaling \$533,227 (prior to including prior period carry forwards) an increase of \$19,892 from FY15 budget. Valid encumbrances from prior year are added completing the approved budget. The FY16 legally adopted budget for all funds prior to encumbrance rollover totaled \$903,566.

Highlights from Dallas County FY16 Budget include the following:

- The tax rate was set at 24.31 cents per \$100 assessed valuation; without a change since tax year 2010.
- Salaries increased October 1 with structure increases of 3% and 4% to 5% for civilian and law enforcement employees, respectively. Pension costs increased as a result of salary increases and as a result of an implementation of a new accounting standard.
- A total of 5 positions were deleted with 44 new positions added for a net increase of 39 positions.
- The budgeted General Fund unassigned reserve balance meets Commissioners Court policy.

Budgetary variances (refer to pages 94-97) reflect encumbered funds for various products or services not yet ordered. Contingencies for juvenile detention and health welfare costs did not materialize and purchase of capital assets for facilities were deferred.

#### DEBT ADMINISTRATION AND CAPITAL ASSETS

**Long-term debt.** At September 30, 2016, the County had limited tax, unlimited tax, and general obligation bonds outstanding in the amount of \$227,980, with debt premium of \$36,953. According to Texas statutes, the County has two debt limits. Bonds issued under Article 3, Section 52b of the Texas Constitution total were refunded resulting in zero balance, and bonds issued under Texas Government Code Title 9, Chapter 1301.003 total \$227,980. The debt limits for the two authorizations are \$58,715,672 (25% of real property assessed valuation), and \$13,580,611 (5% of assessed valuation of all taxable property); therefore, the County has legal debt margins on general obligation debt of \$58,715,672, and \$13,354,684, respectively.

The County's bond ratings are "AAA" from Standard & Poor's and "Aaa" rating from Moody's for general obligation debt. These ratings have been upheld since 1978 with the latest evaluation in credit rating action June 2016; at which time the County's outlook was rated as STABLE.

The following represents the activity of the long-term debt of the County for FY16 (refer to page 55 for additional information).

|                                      | Beginning<br>Balance |         | Additions |         | Reductions |         |    | Ending<br>Balance |

| Governmental Activities:             |                      |         |           |         |            |         |    |                   |
| Bonds and Certificates of Obligation | \$                   | 90,517  | \$        | 201,178 | \$         | 26,762  | \$ | 264,933           |
| Compensated Absences                 |                      | 27,918  |           | 42,626  |            | 37,792  |    | 32,752            |
| Other Post Employment Benefits       |                      | 306,904 |           | 62,507  |            | 9,003   |    | 360,408           |
| Claims and Judgments                 |                      | 2,000   |           | 167     |            | 167     |    | 2,000             |
| Net Pension Liability                |                      | 89,266  |           | 205,895 |            | 79,280  |    | 215,881           |
| Workers' Compensation                |                      | 2,703   |           | 962     |            | 1,649   |    | 2,016             |
|                                      | \$                   | 519,308 | \$        | 513,335 | \$         | 154,653 | \$ | 877,990           |

Legal counsel and subject experts are contracted to review workers' compensation claims and other legal matters as needed. The FY16 claims and judgments were mostly settled for property damages. Workers' compensation expenditures and liability decreased as a result of claims management by the County and a third party administrator. The County's OPEB actuarial study was last updated October 1, 2015. OPEB liability continues to increase because only a fraction of the OPEB expense is actually paid in any given year. The discount rate for calculating OPEB was 2.7%. More detailed information about the County's long-term liabilities is presented in Note VI to the financial statements.

**Capital assets.** The capital assets of the County are those assets (land, buildings, improvements, and machinery and equipment (M&E)), which are used in the performance of the County's functions. Capital assets also include infrastructure assets – roads and bridges. The County owns and maintains the original courthouse constructed in 1892, which has been renovated as a historical treasure. At September 30, 2016, net capital assets of the governmental activities totaled \$613,464, reflecting a net increase of \$23,018. Depreciation of capital assets (except for infrastructure assets which are reported under the Modified Approach basis) is recognized in the government-wide financial statements. FY16 depreciation for buildings, improvements, and M&E totaled \$22,067. Depreciation is not recorded for the historical treasure, the 1892 Old Red Courthouse, which has a book value of \$32,042.

An annual allocation of the tax rate is reserved for fund expenditures related to major capital and major technology assets. A tax rate of \$0.05155 (\$0.045 plus \$0.00655) per \$100 assessed valuation is split between the Debt Service Fund and Major Projects Fund. The rate of \$0.00655 was approved for funding

utility costs beginning with tax year 2013. Construction or contract development needs are analyzed during the budget cycle and encumbrances/obligations revised.

The County has elected to use the "Modified Approach" as defined in GASB 34 for reporting infrastructure assets which includes 112.26 miles of roads, and 26 bridges and culverts. The FY16 assessment revealed the condition of the roads was maintained consistent with County policy, whereas 99.3% of the County's roads were rated 2.5 or better on a 4.0 scale, based on the Federal Highway Administration Road Pavement Condition Rating (PCR). All, except two, of the County's bridges are in very good condition rated 6.0 or better on a 9.0 scale. Two bridges are in good condition rated between 4.0 and 5.9 on a 9.0 scale.

The County expended \$2,013 on county road maintenance for the year ended September 30, 2016. These expenditures delayed deterioration; however, overall road conditions were not significantly improved. Incurred bridge maintenance costs in FY16 were \$218. Additional details on infrastructure assets can be found in Required Supplementary Information pages 100 and 101 of this report.

| County's Capital Assets  |               |            |  |  |  |  |  |  |

Additional information on Dallas County capital assets and debt can be found in Notes V and VI.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Dallas County budget is developed annually and intended to provide efficient, effective, and controlled usage of the County's resources, as well as a means to accomplish the highest priorities of the Dallas County Commissioners. Through the budget, the County Commissioners set the direction of the County, allocate its resources, and establish its priorities. The FY2017 Budget meets the key established policy directive of the Commissioners Court requiring that the budgeted ending unassigned general fund balance be not less than 10.5% of County funded expenditures.

The FY2017 budget process was primarily focused on identifying various balancing strategies that impact services provided to citizens of Dallas County as minimally as possible. The budget is expected to raise more revenue from property taxes than the prior year by \$32,268, or an increase of 7.55%. The property tax revenue to be raised from new property added to the tax roll is \$10,783.

Highlights from Dallas County FY17 Budget include the following:

- The overall tax rate was unchanged from 2016 tax year and has remained (unchanged for seven years).
- Compensation increases for all levels were approved at 8% (6% for elected officials and department heads) along with step increases for approved programs. Required contributions for the defined benefit plan increased from 11.5% to 12.2% effective January 2017.
- A net decrease of 23 positions was approved with 1 added for a net of 22 deleted.

#### **REQUEST FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, and investors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have questions about this report, separate report of the County's component unit, or need any additional financial information, contact the appropriate financial office (County Auditor, County Treasurer, or Budget Director) at 1201 Elm Street, Suite 2300, Dallas, TX 75270, or visit the County's website at www.dallascounty.org.

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of Dallas County (County) reflected in the accompanying financial statements conform to generally accepted accounting principles (GAAP) in the United States of America applicable to state and local governments. Accounting principles generally accepted in the United States of America for local governments are those promulgated by the Governmental Accounting Standards Board (GASB). The most significant accounting and reporting policies of the County are described in the following notes to the basic financial statements.

In the current year, the County implemented the following:

**GASB Statement No.** 72 – *Fair Value Measurement and Application.* This statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement provides guidance for determining a fair value measurement for financial reporting purposes. The statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

**GASB Statement No. 79** – *Certain External Investment Pools and Participants.* This Statement establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized cost for financial reporting purposes and for governments that participate in those pools. Those disclosures for both the qualifying external investment pools and their participants include information about any limitations or restrictions on participant withdrawals.

#### A. Reporting Entity

The County is a public corporation and political subdivision of the State of Texas (State). The Commissioners Court composed of four commissioners and the County Judge is the general governing body of the County in accordance with Article 5, Paragraph 18 of the Texas Constitution. The County provides the following services as authorized by the statutes of Texas: general government (e.g., tax collection, funds investment, etc.), judicial (courts, juries, district attorney, etc.), public safety (sheriff, jail, homeland security, etc.), highways and streets, health, education, and public welfare (e.g. juvenile services and assistance to indigents).

The accompanying financial statements and Notes to the Basic Financial Statements include Parkland Health & Hospital System (District), which is a component unit of the County.

#### **Other Boards and Commissions**

The Commissioners Court appoints individuals to certain boards and commissions, none of which are component units of the County. Those entities are:

Child Welfare Board Citizen Election Advisory Committee Historical Commission Historical Foundation Hospital District Board of Managers (Parkland) Metrocare Services Board of Trustees

#### September 30, 2016 (in thousands of dollars)

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

North Central Texas Health Facilities Development Corporation Board North Texas Tollway Authority Board North Texas Behavioral Health Authority Trail and Preserve Program Board (TAPP) Welfare Advisory Board Youth Services Advisory Board

#### **B.** Government–Wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. Government-wide statements report, except for County fiduciary funds financial activity, information on all of the County activities including its component unit. The effect of inter-fund transfers has been removed from the government-wide financial statements, but continues to be reported in the fund financial statements. Governmental activities are supported mainly by taxes, intergovernmental revenues and charges for services. The primary government is reported separately from the component unit within the government-wide statements.

The statement of activities reflects the degree to which direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function, e.g. other postemployment benefits are charged to general government functions/programs in the statement of activities because these costs are guaranteed by the general government. Indirect expenses include changes in estimates of workers' compensation, which may not be reasonably allocated to other functions/programs in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from services or privileges provided by a given function and 2) grants and contributions restricted to operational or capital requirements of a particular function. Taxes and other items not properly included in program revenues are reported as general revenues.

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide financial statements. The General, Debt Service, Major Projects, County Building Improvements, and Major Grants Funds meet criteria as *major governmental funds*. Each major fund is reported in a separate column in the fund financial statements. Non-major funds include other Special Revenue, and Capital Projects. The combined amounts for these funds are reflected in a single column in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. This measurement focus is also used for the proprietary fund financial statements. Revenues net of allowances are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Major revenue types, which have been accrued, include district clerk and county clerk fees, justice of the peace fees, revenue from investments, intergovernmental revenue and charges for services. Grants are recognized as revenue when all applicable eligibility requirements imposed by the provider are met.

#### September 30, 2016 (in thousands of dollars)

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenues are classified as *program revenues* and *general revenues*. Program revenues include 1) charges for services provided, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues include all taxes, grants and contributions not restricted to specific programs, investment earnings and donations of assets.

Governmental fund level financial statements are reported using current financial resources measurement focus and modified accrual basis of accounting. Revenues are recognized only when they become susceptible to accrual (measurable and available). Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Unavailable means not available to finance expenditures for the current fiscal period. Unearned refers to funds received before the earnings process is completed. Except for grants, measurable and available revenues include revenues expected to be received within 60 days after the fiscal year-end. Grants policy includes recognition of revenues, so long as such amounts are collectible within 60 days or soon enough afterwards to be used to pay liabilities for the current period, and where grant eligibility requirements have been met. Property taxes levied prior to September 30, 2016, and became due October 1, 2016 have been assessed to finance the budget of the fiscal year beginning October 1, 2016 and, accordingly, have been reflected as unavailable revenue and property taxes receivable in the governmental fund financial statements. Receivables and deferred inflows associated with these property taxes are included in the government-wide statements at September 30, 2016.

Expenditures generally are recorded when a fund liability is due and payable; however, debt service expenditures, as well as expenditures related to compensated absences, claims, and judgments, are recorded only when the liability has matured and payment is due.

The County reports the following major governmental funds:

**General Fund** is the general operating fund of the County and is always classified as a major fund. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. Significant revenue sources include property taxes, charges for services, intergovernmental revenues, and investment income of idle funds. Primary expenditures are for general government, public safety, judicial, public welfare, health services, and capital acquisition.

**Debt Service Fund** is used to account for accumulation of resources for, and the payment of, general long-term debt principal and interest. Revenue source is primarily property taxes levied specifically for debt service. Interest earnings from investment of idle funds of County Building Improvements and Capital Project Funds are deposited and recorded in the Debt Service Fund to assist in bonded debt retirement.

<u>Major Projects Fund</u> (special revenue fund) is used to account for monies received from property taxes and property sales to fund parks, trails, transportation, and major County building projects. These funds are committed by action of the governing body.

<u>County Building Improvements</u> (capital project) is used to account for funds received from sale of bonds which occurred in September 2016. These funds are to be used for renovations of certain County buildings. This fund was previously included with non-major governmental funds as a capital project fund titled: Permanent Improvement Fund. In September 2016, bonds were issued with an aggregate principal and premium of \$201,178 to fund

#### September 30, 2016 (in thousands of dollars)

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

improvements to certain County buildings. As a result, the fund was renamed and has been reclassified as a major governmental fund.

<u>Major Grants Fund</u> is used to account for programs supported by federal, state and local financial assistance or intergovernmental contracts from various agencies and/or governmental units except for HUD-Section 8 Grants and the Academy for Academic Excellence which are included in Other Non-Major Governmental Funds.

**Non-Major Funds** include special revenue funds (other than major projects) and capital project funds (other than County Building Improvements fund). The funds are used to account for the proceeds of specific revenue sources that are legally or administratively restricted to expenditures for specified purposes. As an example, the Road and Bridge Fund is legally restricted.

Other fund types include proprietary and fiduciary funds:

**Proprietary Fund** financial statements are used to account for activities, which are similar to those often found in the private sector. The measurement focus is based upon determination of net income, financial position, and economic resources. The County's only Proprietary Fund is the Internal Service Fund used to account for the County's group medical insurance program, workers' compensation, self-insurance program, and flexible spending accounts of employees who participate in the medical and dependent care flexible spending option of the County's cafeteria-style plan. Revenues are derived from County contributions, employee and COBRA premiums, investment of idle funds, and stop-loss collections. Committed expenses are for claims and administrative expenses.

The Proprietary Fund is accounted for using accrual basis of accounting as follows:

- 1. Revenues are recognized when earned, and expenses are recognized when liabilities are incurred.
- 2. Current-year contributions, administrative expenses, and benefit payments, which are not received or paid until the subsequent year, are accrued.

Proprietary funds distinguish operating revenues and expenses from non-operating. Operating revenues and expenses generally result from providing goods and services in connection with a proprietary fund's principal on-going operations (e.g. insurance claims and workers' compensation payments).

**Fiduciary Fund** financial statements include agency funds used to account for assets held by the County as agent for individuals, private organizations, other governments, and other funds. Agency funds do not involve a formal trust agreement. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The following are the County's Agency Funds:

<u>Administrative Escrow Fund</u> - used to account for miscellaneous amounts temporarily held for other individuals or entities outside control of Commissioners Court.

<u>State Reports Fund</u> - used to account for State fees collected by the County and subsequently disbursed to the State.

#### September 30, 2016 (in thousands of dollars)

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>County Clerk, District Clerk, Sheriff, Justices of the Peace, and Constables Fee Funds</u> - used to account for monies received with ultimate disposition of receipts to be determined at a future date by the Courts.

<u>Community Supervision and Corrections</u> - used to account for the activities of a Texas agency with funds in the County depository.

<u>Housing Finance Corporation – 1993 Refunding</u> - used to account for monies received as a result of refunding of 1983 Mortgage Revenue bonds issue by Dallas County Housing Finance Corporation (HFC).

<u>Juvenile Department Child Support</u> - used to account for monies held for other parties in the child support program in accordance with court orders.

<u>Housing Finance Corporation – 1994 Refunding</u> - used to account for monies received as a result of refunding 1984 Mortgage Revenue Bonds issued by HFC.

<u>Community Supervision and Corrections Special</u> - used to account for receipt and distribution of restitution payments made by probationers.

<u>Youth Village</u> - used to account for donated money to be used for the benefit of youths temporarily housed in the facility.

<u>Tax Assessor – Collector</u> - used to account for initial receipt and distribution to proper parties of taxes and fees collected for various governmental entities.

<u>Police Agencies Seized Funds</u> - used to account for seized monies awaiting judicial determination for local police agencies.

<u>Attorney General Seized Funds</u> - used to account for seized monies awaiting judicial determination for the Texas Attorney General.

<u>Gambling Seized Funds</u> - used to account for seized monies for gambling awaiting judicial determination for the Texas Department of Public Safety.

<u>Narcotics Seized Funds</u> - used to account for seized monies for narcotics awaiting judicial determination for the Texas Department of Public Safety.

<u>Sheriff Inmate Funds</u> – used to account for monies held for individuals in County custody.

#### D. Assets, Liabilities, and Net Position

#### 1. Cash, Cash Equivalents, and Investments

For the purpose of the Statement of Cash Flows, the County considers cash on hand, demand deposits, and all highly liquid investments with original maturities less than 90 days at date of purchase to be cash and cash equivalents. Texas statutes and the County's official investment policy authorize the County to invest in fully collateralized

#### September 30, 2016 (in thousands of dollars)

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

security repurchase agreements, fully serviced certificates of deposit at the depository, obligations of the Texas Local Government Investment Pool (TexPool), which is a local government investment pool sponsored by the Texas Controller of Public Accounts and managed by Federated Investors, U.S. Treasury securities, direct obligations of, or participation certificates guaranteed by the Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, Federal Home Loan Bank, U.S. Small Business Administration, Federal Farm Credit Bank, and Federal Agricultural Mortgage Corporation. To be eligible to receive funds from and investments on behalf of the County, an investment pool must be rated not lower than AAA or AA-m or at an equivalent rating of at least one nationally recognized rating service.

The County records investments, except TexPool and TexPrime Deposits, at fair value. TexPool and TexPool Prime Deposits are recorded at amortized cost. Investment income for the County is recognized as revenue in the appropriate fund's Statement of Revenues, Expenditures and Changes in Fund Balance, and in the Statement of Activities as investment earnings.

#### 2. Receivables and Payables

Property taxes are levied prior to September 30 based on taxable values as of January 1, and become due October 1 and past due after January 31. Accordingly, receivables and revenues for property taxes are reflected in the government-wide financial statements based on the full accrual method of accounting. Property tax receivables are shown net of an allowance for uncollectible accounts.

Accounts receivables from other governments include amounts due from grantors for approved grants for specific programs and reimbursements for services performed. Program grants are recorded as receivables and revenues at the time all eligibility requirements established by the provider have been met.

Reimbursements for services performed are recorded as receivables and revenues when earned in the government-wide financial statements. Included are fines and costs assessed by court action, and billable services for certain contracts. Revenues received in advance of the costs being incurred are recorded as unearned revenue in the fund statements. Receivables are shown net of an allowance for uncollectible accounts. Borrowing between funds is recorded as an amount either "Due to" or "Due from." Due to and due from amounts are eliminated in the government-wide financial statements.

#### 3. Inventories and Prepayments

Various methods are used to cost inventories; however, the majority of inventories are (determined on a first-in, first-out basis) stated at cost. Inventories in the General and Special Revenue Funds consist of expendable supplies held for consumption. In the General Fund, the cost is recorded as an expenditure at the time an inventory item is consumed. In the Special Revenue Funds, inventory items expected to be consumed within a short period of time, are recorded as expenditures at the time of purchase; other inventory items are expensed when consumed. Reported inventories are denoted as a non-spendable fund balance, which indicates that they do not constitute "available spendable resources" even though they are a component of current assets. The inventory policy on government-wide statements is consistent with fund statements.

#### September 30, 2016 (in thousands of dollars)

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The costs of prepaid items are recorded as expenditures when consumed rather than when purchased. In the fund financial statements, advances and prepayments are denoted as a non-spendable fund balance.

#### 4. Restricted Assets/Funds

The following accounts reflect restricted status by third-party or statutory obligations for specific purposes:

- Debt Service fund balance (amount restricted for future debt service expenditures according to debt covenants);
- County Building Improvements fund balance (amount restricted for County building improvements, of which \$201,178 was funded with the issuance of bonds in September 2016).
- Major Grants and the following grant funds are included with Non-Major Governmental Funds, HUD Section 8 Grants and Academy for Academic Excellence (amounts restricted for future grant expenditures according to award restrictions);
- Other Non-Major Governmental fund balances (except for Permanent Improvement and Major Technology) (amounts restricted for other specific purposes according to Texas statutes).

The following accounts reflect committed status by action of the governing body for specific purposes:

- Included in Other Non-Major Governmental Funds: Permanent Improvement and Major Technology fund balances (committed by governing body for future non-major building improvements or major technology related expenditures);
- Major Projects fund balance (amount committed for future major construction-related expenditures according to official action of governing body).

#### 5. Capital Assets

Capital assets, including land, construction-in-progress, historical treasures, buildings, machinery and equipment, and infrastructure (e.g., roads and bridges) are reported in the government-wide financial statements. Capital assets (except for grant assets with lower thresholds) are defined as assets where the County bears risks and benefits of ownership with a cost of \$5 or more and with a useful life in excess of one year. Infrastructure assets include County owned roads and bridges. Capital assets are recorded at historical cost if purchased or constructed. Donations of capital assets are recorded at acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of an asset or materially extend an asset life is not capitalized. Additionally, County capital expenditures include amounts incurred to improve infrastructure assets owned by other governmental entities within Dallas County. Accordingly, these amounts are not capitalized. Capital assets, except infrastructure, are depreciated using the straight-line method over the following estimated useful lives:

#### September 30, 2016 (in thousands of dollars)

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

| Asset                          | <b>Years</b> |
|--------------------------------|--------------|
| Buildings and improvements     | 20 - 50      |
| Furniture and fixtures         | 7            |
| Telecommunication equipment    | 20           |
| General equipment              | 5            |
| Construction equipment         | 10 - 15      |
| Trucks and transportation      | 7 - 8        |
| Autos                          | 3            |
| Computer hardware and software | 5            |

The 1892 Old Red Courthouse is recorded as a Historical Treasure at historical cost but not depreciated. The County uses the modified approach to report infrastructure assets in the government-wide statement of net position. Infrastructure assets are recorded at historical cost but not depreciated. Under the modified approach, the County reports annual expenses for maintaining County roads and bridges including estimated costs for preservation at specified levels.

The County evaluates capital assets regularly for impairment. If circumstances suggest that assets may be impaired, an assessment of recoverability is performed prior to any write-down of assets. An impairment charge is recorded on those assets for which the estimated fair value is below its carrying amount. No material impairment charges to capital assets were recorded for the fiscal year ended September 30, 2016.

#### 6. Compensated Absences

A liability for unused vacation and sick time for all full time employees is reported in the government-wide financial statements. This includes related amounts for Social Security, Medicare, and County retirement benefits. The following criteria must be met to be considered as compensated absences:

-leave or compensation is attributable to services already rendered.

-leave or compensation is not contingent on a specific event (such as illness).

Liabilities for compensated absences are recognized in the fund statements to the extent such liabilities have matured (e.g. are due for payment). Accordingly, there is none in the fund statements as of September 30, 2016, but compensated absences are accrued in the government-wide statements.

The County's permanent, full-time employees accrue annually 80 hours of vacation from date of employment to 6 years of service, 120 hours from 6 to 15 years of service, and 160 hours in excess of 15 years of continuous employment. The maximum accrual is 4, 5 or 6 weeks of vacation for the respective accrual categories specified. Upon termination, an employee is entitled to payment for total accrued but unused hours of vacation.

The County's permanent, full-time employees accrue annually 96 hours of sick leave. Sick leave is paid to current employees if absent from work due to illness, injury, or other situations requiring medical attention. An employee who terminates for any reason is paid a percentage of their accrued but unused sick leave. Amounts payable are initially 5% after 5 years of service, increasing thereafter at 5% for each additional 5

#### September 30, 2016 (in thousands of dollars)

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

years of service to a maximum of 50%.

Compensated absences (accrued vacation and sick leave) are reported in the government-wide financial statements and are typically incurred by the following governmental funds: General, Major Grants, Major Projects, and Other Non-major Governmental Funds.

#### 8. Deferred Outflows / Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. The County has one item that qualifies for reporting in this category. It is the deferred outflow of resources related to pensions discussed in Note VIII Retirement Commitments. These amounts are amortized over a period of five or six years.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has two types of items that qualify for reporting in this category. The governmental funds report unavailable revenues from property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available. Additionally, the County has an inflow of resources related to pensions discussed in Note VIII Retirement Commitments. This amount is amortized over a period of six years.

#### 9. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the term of the bonds. Bonds payable are reported net of unamortized premiums or discounts.

In the fund financial statements, governmental fund types recognize bond premiums or discounts, and issuance costs in the period in which bonds are issued. The principal of bonds issued is reported as another financing source. Premiums received on debt issuances are reported as another financing source while discounts are reported as another financing use. Issuance costs, whether or not withheld from the actual proceeds received, are reported as debt service expenditures.

Long-term obligations, except long-term debt, net pension obligations or net other postemployment benefit obligations (OPEB) are liquidated from the General Fund. Longterm debt is liquidated from the Debt Service Fund. Net pension obligations are liquidated through a trust managed by Texas County and District Retirement System. OPEB obligations remain unfunded.

#### September 30, 2016 (in thousands of dollars)

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 10. Unemployment and Workers' Compensation Benefits

The County is a reimbursing employer for unemployment compensation benefits. Reimbursements are made on the basis of billings received from the Texas Employment Commission. The County also processes workers' compensation payments through a third-party administrator as claims become due. The third-party administrator assists with hearings for contested claims. Expected costs are budgeted annually from current resources (see Note X).

#### 11. Fund Balances

Fund balances are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. These classifications are defined as:

- Non-spendable fund balance includes items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portions of loans or notes receivable, or property held for resale unless the use of the proceeds are restricted, committed or assigned), and activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund.
- Restricted fund balances have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation. The restricted fund balance at September 30, 2016, is composed of \$2,053 restricted as a result of bond requirements for future debt service, \$6,565 restricted by State and federal authorities for grants awarded to the County. Special Revenue Fund balance of \$70,415 is restricted by federal and State statutes. County Building Improvements Fund and Capital Projects Fund balances of \$205,755 and \$8,716 respectively, are restricted as a result of bond requirements. Bonds were issued to fund improvements and renovation of certain County buildings.
- Committed fund balances can be used only for specific purposes pursuant to constraints imposed by a formal action of the government's highest level of decision-making authority. The County's highest level of decision making authority resides with the Commissioners Court. This formal action is the passage of a court order specifying the purposes for which amounts can be used. The same type of formal action is necessary to remove or change the specified use. As of September 30, 2016, Major Project Fund committed balance of \$237,452 is detailed on page 70. The balance of committed fund balance \$8,491 is for permanent building improvements and major technology projects.
- Assigned fund balance includes amounts that are constrained in accordance with policies established by the Commissioners Court. Officials responsible for budget level control are delegated that authority by Commissioners Court to assign amounts for a specific purpose. Amounts assigned are neither restricted nor committed. For governmental fund types other than the General Fund, this is the

#### September 30, 2016 (in thousands of dollars)

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

residual amount within the fund that is not restricted or committed. As of September 30, 2016, the assigned fund balance of \$12,255 is primarily composed of amounts assigned by officials for various operational expenditures. Details of assigned fund balance are listed on page 70.

• Unassigned fund balance is the residual amount of the General Fund not included in the four categories above. Also, any deficit fund balances within the other governmental fund types are reported as unassigned.

The General Fund target reserve policy is established by the governing body at 10.5% of expenditures and classified as unassigned reserves, while balances in other funds are set aside for specific purposes as described above.

When both restricted and unrestricted amounts are available for use, County policy as approved by the governing body is to use restricted amounts first, with unrestricted resources utilized as needed. In the case of unrestricted resources, the policy is to use committed amounts first consistent with formal action of the governing body, followed by assigned amounts, then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be incurred.

#### 12. Net Position

In the government-wide financial statements, net position is categorized into three categories. The first is net investment in capital assets, reduced by accumulated depreciation and any outstanding debt incurred to acquire, construct or improve those assets excluding unexpended bond proceeds. The second category is restricted, which represents assets restricted by requirement of bond covenants, grantor regulations, other externally imposed constraints, or by legislation, in excess of the related liabilities payable from restricted assets. The third category; unrestricted portion of net position, consists of all assets that do not meet the definition of either of the other two categories of net position.

#### **13. Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### **II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

## A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes a reconciliation between fund balance for total governmental funds and net position as reported in the government-wide Statement of Net

#### September 30, 2016 (in thousands of dollars)

# **II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS** (Continued)

Position. One element of that reconciliation explains, "Other long-term assets are not available to pay for current period expenditures and, therefore, are not reported in governmental funds." The details of this difference are as follows:

| Property taxes - assessed in current year which remain uncollected within | \$<br>3,364  |
|---------------------------------------------------------------------------|--------------|
| 60 days of year-end (see page 53)                                         |              |
| Other receivables and accrued interest (see page 53)                      | 12,444       |
| Net adjustment to increase fund balance –                                 |              |
| total governmental funds to arrive at net position - governmental         |              |
| activities                                                                | \$<br>15,808 |

One element of that reconciliation explains, "certain liabilities, including bonds payable and related accrued interest, are not due and payable in the current period and therefore, are not included in governmental funds." The details of this difference are as follows:

| Bonds payable                                              | \$<br>(227,980) |
|------------------------------------------------------------|-----------------|
| Premium on bonds payable                                   | (36,953)        |
| Other post employment benefits                             | (360,408)       |
| Miscellaneous accrued liability                            | (5,315)         |
| Accrued interest payable                                   | (677)           |
| Claims and judgments                                       | (2,000)         |
| Compensated absences                                       | (32,752)        |
| Net pension liability                                      | (215,881)       |
| Deferred inflow of resources – pension                     | (9,652)         |
| Deferred outflow of resources – pension                    | <br>166,998     |
| Net adjustment to decrease fund balance – total government |                 |
| funds to arrive at net position – governmental activities  | \$<br>(724,620) |

# B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances, total governmental funds, and changes in net position of governmental activities as reported in the government-wide Statement of Activities. Governmental funds report capital expenditures; however, in the Statement of Activities, the cost of capital assets is allocated over their estimate useful lives and reported as depreciation expense. The detail of this difference is as follows:

| Capital expenditures (derived from page 54) \$              | 53,312   |
|-------------------------------------------------------------|----------|
| Depreciation expense (derived from page 54)                 | (22,067) |
| Donated capital asset                                       | (6,953)  |
| Net adjustment to increase net changes in fund balances -   |          |
| total government funds to arrive at changes in net position |          |
| of governmental activities \$                               | 24,292   |

Another element of that reconciliation states that "The net effect of various transactions (e.g. sales of capital assets)." In the Statement of Activities, only the gain or loss on the disposal

#### September 30, 2016 (in thousands of dollars)

## **II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS** (Continued)

of capital assets is reported; however, in the government funds, proceeds from sales increase financial resources. The detail of this difference is as follows:

| Depreciated cost of capital assets sold or disposed (see page 54) | \$<br>(8,227) |
|-------------------------------------------------------------------|---------------|
| Net adjustment to decrease net changes in fund balances -         |               |
| total government funds to arrive at changes in net position       |               |
| of governmental activities                                        | \$<br>(8,227) |

Another element of the reconciliation states, "Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds." The details of this difference are as follows:

| Unavailable Revenue – Fund Basis                        |                 |
|---------------------------------------------------------|-----------------|
| September 30, 2015                                      | \$<br>(464,765) |
| September 30, 2016                                      | 507,654         |
| Deferred Inflows - Statement of Net Position            |                 |
| September 30, 2015                                      | 448,777         |
| September 30, 2016                                      | (491,846)       |
| Net adjustment to decrease net changes in fund balances | \$<br>(180)     |

Another element of that reconciliation states, "Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds." The details of this difference represent changes in the following:

| Compensated absences                                    | \$<br>(4,834)  |
|---------------------------------------------------------|----------------|
| Pension                                                 | (13,132)       |
| Accrued interest                                        | (211)          |
| Other postemployment benefits                           | (53,504)       |
| Arbitrage rebate accrued                                | 64             |
| Other accrued expense                                   | (5,315)        |
| Net adjustment to decrease net changes in fund balances | \$<br>(76,932) |

Another element of the reconciliation states, "The issuance of long-term debt (e.g., bonds, tax notes) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are amortized in the Statement of Activities."

The details of this difference are as follows:

| Debt principal repayment                                | \$<br>24,645    |
|---------------------------------------------------------|-----------------|
| Debt principal issued                                   | (167,900)       |
| Debt premium issued                                     | (33,278)        |
| Amortization of premium                                 | 2,117           |
| Net adjustment to increase net changes in fund balances | \$<br>(174,416) |

#### September 30, 2016 (in thousands of dollars)

#### **III. DEPOSITS, INVESTMENTS, AND INVESTMENT POLICIES**

The County's investment policies are in accordance with Texas statutes. The policies identify authorized investments, investment terms, collateral requirements and safekeeping requirements for collateral.

The County's demand deposits and bank certificates of deposit are fully collateralized by securities held in the County's name by third party financial institutions and with an irrevocable standby letter of credit. The County's collateral agreements require that the total amount of cash and investments on deposit with its depository financial institutions at all times be collateralized based upon par value. The collateral market value shall be a minimum of 102% of par value.

The County's investments are comprised of Federal National Mortgage Association Notes; Federal Home Loan Bank Notes; Federal Home Loan Mortgage Corporation Notes, Security Repurchase Agreements, Federal Farm Credit Bank Notes; U.S. Small Business Administration Notes, TexPool deposits, and Tex Pool Prime deposits.

#### **Deposits**

At September 30, 2016, the carrying amount of the County's demand deposits and investments was as follows:

|                                              | Governmental |              |    | Proprietary  | Fiduciary |              |    |              |    |              |
|----------------------------------------------|--------------|--------------|----|--------------|-----------|--------------|----|--------------|----|--------------|
|                                              |              | <b>Funds</b> |    | <b>Funds</b> |           | <u>Total</u> |    | <b>Funds</b> |    | <u>Total</u> |
| Cash (a)                                     | \$           | 47,342       | \$ | 2,853        | \$        | 50,195       | \$ | 112,393      | \$ | 162,588      |
| Investments and cash equivalents (a)         | _            | 635,712      |    | 3,967        |           | 639,679      |    | 25,822       | _  | 665,501      |
| Total cash, cash equivalents and investments | \$           | 683,054      | \$ | 6,820        | \$        | 689,874      | \$ | 138,215      | \$ | 828,089      |

(a) The County pools cash, investments, and cash equivalents of certain Governmental and Fiduciary Funds.

#### Custodial Credit Risk – Deposit

In accordance with the Texas Public Funds Collateral Act and County cash management policies, County deposits are either covered by FDIC insurance, collateralized with securities held by the County or the County's agent in the name of the County, or an irrevocable standby letter of credit issued by the Federal Home Loan Bank of Atlanta.

#### **Custodial Credit Risk – Investments**

In accordance with Texas Public Funds Collateral Act and the County's formal investment policies, County investments are either insured, registered, or held by the County or the County's agent in the name of the County.

#### **TexPool and TexPool Prime – Deposits**

The State Comptroller of Public Accounts exercises responsibility over TexPool and TexPool Prime (TexPool), the Texas Local Government Investment Pool. Oversight includes the ability to significantly influence operations, designation of management and accountability for fiscal matters.

#### September 30, 2016 (in thousands of dollars)

#### III. DEPOSITS, INVESTMENTS, AND INVESTMENT POLICIES (Continued)

Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other individuals who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure.

Currently, TexPool and TexPool Prime are rated AAAm by Standard & Poor's. As a requirement to maintain the weekly rating, portfolio information must be submitted to Standard & Poor's, as well as the office of the State Comptroller of Public Accounts for review.

TexPool and TexPool Prime operate in a manner consistent with GASB 79. TexPool and TexPool Prime are reported at amortized cost. The pools are subject to regulatory oversight by the Texas State Comptroller, although they are not registered with the SEC.

TexPool invests in obligations of the United States Government, its agencies or instrumentalities, fully collateralized repurchase agreements or reverse repurchase agreements, or no-load money market funds that are registered with and regulated by the SEC. TexPool Prime invests in obligations of the United States Government, its agencies or instrumentalities, fully collateralized repurchase agreements or reverse repurchase agreements, no-load money market funds that are registered with and regulated by the SEC, certificates of deposit issued by national or state banks or credit unions, including savings banks, provided that such bank or credit union are domiciled in Texas, or commercial paper that matures in 270 days or less from the date of its issuance.

#### III. DEPOSITS, INVESTMENTS, AND INVESTMENT POLICIES (Continued)

#### Investments

At September 30, 2016, investments held by the County and Fiduciary funds are carried at fair value defined as the price at which two willing parties would complete an exchange. Those investments were as follows:

| Investment Type                                                           |     | Fair<br>Value | Percent of<br>Investments,<br>Cash and Cash<br>Equivalents | Weighted<br>Average Days<br>to Maturity | Weighted<br>Average Stated<br>Interest Rate | Rating |
|---------------------------------------------------------------------------|-----|---------------|------------------------------------------------------------|-----------------------------------------|---------------------------------------------|--------|
| Federal Home Loan Bank Notes                                              | \$  | 52,190        | 6.30%                                                      | 583                                     | 1.01%                                       | Note 1 |
| U.S. Small Business<br>Administration Notes<br>Federal Home Loan Mortgage |     | 54            | -                                                          | 148                                     | 3.08                                        | Note 1 |

Note 1: Moody's Investor Services, Standard & Poor's (S&P) AAA, Fitch AAA.

Note 2: Tex Pool's portfolio consists exclusively of U.S. government securities, repurchase agreements collateralized by U.S. government securities and AAA rated no-load money market mutual funds. TexPool is rated AAAm by S&P. TexPool uses amortized cost to value its portfolio and follows the criteria established by GASB Statement No. 79. There are no restrictions of the County's access to these cash equivalents.

Note 3: Collateralized securities are U.S. government securities.

#### September 30, 2016 (in thousands of dollars)

#### III. DEPOSITS, INVESTMENTS, AND INVESTMENT POLICIES (Continued)

At September 30, 2016, the County had the following investments and cash equivalents, and maturities:

|                            |    |         | Investment Maturities (In Years) |         |    |        |    |        |    |         |  |

| Agreements                 | _  | 187,914 |                                  | 187,914 |    | -      |    | -      |    | -       |  |
| Total investments and cash |    |         |                                  |         |    |        |    |        |    |         |  |
| equivalents                | \$ | 665,501 | \$                               | 432,182 | \$ | 76,637 | \$ | 54,975 | \$ | 101,707 |  |

GASB No. 72 categorizes financial instruments within three different levels of risk dependent upon the measurement of their fair value and pricing. The three levels of fair value are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the County can access at the measurement date.
- Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobserved inputs for the asset or liability.

Because the County investments are restricted by policy and State law to active secondary markets, the market approach is used for valuation. Market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets, liabilities, or a group of assets and liabilities.

Fair value measurements of investments are all Level 2.

Fair value of investments at September 30, 2016:

|                     | <br>Fiscal 2016 |    |         |    |         |    |         |  |  |  |
|---------------------|-----------------|----|---------|----|---------|----|---------|--|--|--|
|                     | Level 1         |    | Level 2 |    | Level 3 |    | Total   |  |  |  |
| U.S. Agencies       | \$<br>-         | \$ | 256,291 | \$ | -       | \$ | 256,291 |  |  |  |
| Security Repurchase |                 |    |         |    |         |    |         |  |  |  |
| Agreements          | <br>-           | _  | 187,914 |    | -       |    | 187,914 |  |  |  |
| Total fair value    | \$<br>-         | \$ | 444,205 | \$ | -       | \$ | 444,205 |  |  |  |

In accordance with GASB 79, TexPool deposits and TexPool Prime deposits are recorded at amortized cost.

#### September 30, 2016 (in thousands of dollars)

#### III. DEPOSITS, INVESTMENTS, AND INVESTMENT POLICIES (Continued)

#### **Interest Rate Risk**

The County's formal investment policy limits the County's exposure to declines in fair values by limiting to two years the weighted average days to maturity of its entire investment portfolio including uninvested cash and cash equivalents.

#### **Credit Risk**

The County is authorized by statute and depository contract to invest in insured or registered securities including commercial paper and security repurchase agreements. It is the County's policy to limit its investments in these investment types.

The County's formal investment policy permits investment in State and U.S. government obligations and agency securities and investment pools rated AAA or higher. This policy also permits investment in certificates of deposit that are fully collateralized.

#### **Concentration/Diversification of Credit Risk**

County investment policy includes various concentration limits as to issues and maturity. These limits apply to securities issued by federal, state and local governments and related agencies and consider all funds under the County's control. The limit for federal agencies is 80% of the County's investment portfolio. The County has 30.95% invested in federal agencies as of September 30, 2016, with 10.06% invested in Federal Home Loan Mortgage Corporation notes.

#### **IV. PROPERTY TAXES AND OTHER RECEIVABLES**

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied prior to September 30, become due October 1 and are delinquent after January 31. The County's Tax Office collects property taxes for 78 entities: 4 county entities, 10 school districts, 22 cities, 2 flood control districts, 2 levee districts, and 38 public improvement districts (PIDs) as authorized by V.T.C.A., Tax Code §6.24.

The County continues to collect only delinquent taxes for County Education Districts, Wilmer/Hutchins ISD and Levee Districts 4 and 14.

Property tax levies and collections are reduced by allowable exemptions. Certain exemptions are approved by statute and others are approved by local adoption. Exemptions approved by the County include a general homestead (the greater of 20% of appraised valuation or \$5), over 65 homestead and effective January 1, 2008 an over 65 tax freeze.

Collections of the property taxes and subsequent remittances to the proper entities are accounted for in the Tax Assessor/Collector's Agency Fund. Tax collections are recorded net of the entities' related collection commission paid to the County in this agency fund according to the levy year for which taxes are collected. Tax collections deposited for the County are distributed on a monthly basis to the following funds (amounts are for each one hundred dollars of valuation): General (\$0.17415), Debt Service (\$0.0153), Major Projects (\$0.03625), and Non-Major Funds - Permanent Improvement (\$0.0018), and Major Technology (\$0.0156). This distribution is based upon the tax

#### September 30, 2016 (in thousands of dollars)

#### IV. PROPERTY TAXES AND OTHER RECEIVABLES (Continued)

rate established for each fund by order of the Commissioners Court for the tax year for which the collections are made.

Property tax receivables are affected by participation in several Tax Increment Finance (TIF) Districts. In the fiscal year ended September 30, 2016, the County either financially participated in or had authorization to participate in 28 TIF districts at various percentage participation levels. The 2016 total incremental taxable value prior to participation and new construction after participation increased from the prior year value. The County's decision to participate is influenced by level of proposed development in blighted/distressed areas and is determined by the amount of County property taxes levied and collected each tax year on the captured appraised value of real property located in the TIF district less the tax increment base for the year in which the TIF was designated, multiplied by the County's increment provided per agreement. TIF funds are not recognized as County revenue but are used by the TIF district to finance project costs within the district and/or pay bonds or notes issued for the TIF.

Governmental funds report unavailable and unearned revenue in connection with receivables that are not considered available to liquidate liabilities of the current period. Property taxes are an imposed non-exchange revenue. Assets from imposed non-exchange transactions are recorded when the entity has an enforceable legal claim to the asset or when the entity receives resources, whichever comes first. The enforceable legal claim date for property taxes is the assessment date as designated in the enabling legislation. The County has a valid lien on January 1 with property assessed at the tax rate adopted prior to the fiscal year-end. The County has recorded property taxes receivable including an amount for unavailable revenue as of September 30, 2016.

At the end of the current fiscal year, the various components of unavailable and unearned revenue reported in the governmental funds were as follows:

Unavailable means not available to finance expenditures for the current fiscal period. Unearned refers to funds received before the earnings process is completed.

The County is authorized by the tax laws of Texas to levy taxes up to \$0.80 per one hundred dollars of assessed valuation for general governmental services and payment of principal and interest on certain permanent improvement long-term debt. The total tax rate adopted during September 2015

#### September 30, 2016 (in thousands of dollars)

#### V. CAPITAL ASSETS

Capital assets are recorded at cost or, if donated, at fair market value at the date of receipt. Depreciation policies were adopted to include useful lives and classification by function. Infrastructure assets are listed at historical cost, but not depreciated as the County elected to use the modified approach. Summary of changes in capital assets are as follows:

|                                              | Beginning<br>Balance | Increases /<br>Transfers | Decreases /<br>Transfers | Ending<br>Balance |
|----------------------------------------------|----------------------|--------------------------|--------------------------|-------------------|
| Governmental activities:                     |                      |                          |                          |                   |
| Capital assets, not being depreciated:       |                      |                          |                          |                   |

#### VI. LONG-TERM LIABILITIES (Continued)

#### **Pledged Future Revenues**

Under the terms of the Combination Tax and Parking Garage Revenue Certificates of Obligation Series 2016 the County agreed to pledge \$1 of future net revenues from certain parking facilities. In FY16, net revenue from these parking facilities was approximately \$1,732.

#### **Changes in Long-Term Liabilities**

Long-term liabilities for the year ended September 30, 2016 were as follows:

|                                |            |            |            |            | Due       | Funding     |
|--------------------------------|------------|------------|------------|------------|-----------|-------------|
|                                | Beginning  |            |            | Ending     | Within    | for         |
| <b>Governmental Activities</b> | Balance    | Additions  | Reductions | Balance    | One Year  | Liquidation |
| Bonds and COs                  | \$ 90,517  | \$ 201,178 | \$ 26,762  | \$ 264,933 | \$ 28,435 | a           |
| Other postemployment benefits  | 306,904    | 62,507     | 9,003      | 360,408    | -         | b           |
| Claims and judgments           | 2,000      | 167        | 167        | 2,000      | 600       | с           |
| Compensated absences           | 27,918     | 42,626     | 37,792     | 32,752     | 29,618    | с           |
| Net pension liability          | 89,266     | 205,895    | 79,280     | 215,881    | -         | с           |
| Workers' compensation          | 2,703      | 962        | 1,649      | 2,016      | 1,450     | с           |
| Total                          | \$ 519,308 | \$ 513,335 | \$ 154,653 | \$ 877,990 | \$ 60,103 |             |

Funding for liquidation: a=Debt Service Fund: b=Unfunded: c=General Fund

Note: Changes in estimates of workers' compensation are indirect costs charged to General Government in the Statement of Activities and which may not be reasonably allocated as a direct expense to other functions / programs in the Statement of Activities. Other post employment benefits are charged to General Government functions / programs in the Statement of Activities as these benefits are considered direct costs guaranteed by the general government.

#### **Contractual Maturities**

The annual debt service for general obligation, certificates of obligation and revenue bonds is as follows:

| Year Ending<br>September 30 | Principal     | Interest     |
|-----------------------------|---------------|--------------|
| 2017                        | \$<br>28,435  | \$<br>9,581  |
| 2018                        | 27,280        | 9,262        |
| 2019                        | 20,770        | 8,084        |
| 2020                        | 21,050        | 7,076        |
| 2021                        | 13,780        | 6,170        |
| 2022 - 2026                 | 60,690        | 21,321       |
| 2027 - 2031                 | 55,975        | 6,829        |
| Subtotal                    | 227,980       | <br>68,323   |
| Premium on debt             | 36,953        | -            |
| Total                       | \$<br>264,933 | \$<br>68,323 |
|                             |               |              |

The Debt Service Fund has \$2,053 available to service the general long-term bond retirement. There are a number of limitations and restrictions contained in the various bond indentures. County management believes that it has complied with all significant limitations and restrictions.

#### September 30, 2016 (in thousands of dollars)

#### VII. INTERFUND RECEIVABLES AND PAYABLE BALANCES AND TRANSFERS

The composition of inter-fund balances as of September 30, 2016 is as follows:

| Receivable fund              | Payable fund                 | <u>Amount</u> |
|------------------------------|------------------------------|---------------|
| Major Projects               | County Building Improvements | \$<br>5,957   |
| County Building Improvements | Debt Service                 | 34            |
| Major Grants                 | Other Non-Major Governmental | 2             |
| Other Non-Major Governmental | Major Grants                 | 16            |
| Other Non-Major Governmental | General                      | 63            |
| Internal Service             | General                      | 256           |
| Internal Service             | Other Non-Major Governmental | <br>50        |
| Total                        |                              | \$<br>6,378   |

Transactions between funds of the County can result in receivables and payables at year end when there is a reasonable expectation of repayment. The Major Projects receivable represents reimbursement of renovation costs which were to be repaid from the debt issued in September 2016. Other Non-Major Governmental receivables are due from Major Grants and General for HUD Section 8 Grants. The Internal Service Fund receivable from General and Other Non-Major Governmental relates to health insurance liabilities expected to be funded in fiscal 2017.

| Other Non-Major    |    |                 |                   |     |                 |                                              |              |
| Governmental Funds | _  | 6,574           | <br>18,774        |     | 162             | <br>175                                      | <br>25,685   |
| Total              | \$ | 8,823           | \$<br>19,850      | \$  | 3,929           | \$<br>175                                    | \$<br>32,777 |

Transfers from Other Non-Major Governmental funds to the General and Major Projects funds were mainly from Road and Bridge and totaled \$20,579. Transfers from the Road and Bridge fund were primarily from vehicle registration fees, criminal fines, and forfeitures and were for various transportation related projects.

A condition of certain Major Grants requires the County to provide matching funds in order to obtain grant funding. In fiscal 2016, the General fund provided matching funds aggregating \$3,767. The majority of these transfers were for health, juvenile, and law enforcement grants.

#### ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Approximately 0.1% of the \$64.256 balance in accounts payable and accrued liabilities at September 30, 2016 represents accrued payroll liabilities with the balance payable to vendors or contractors.

#### September 30, 2016 (in thousands of dollars)

#### **VIII. RETIREMENT COMMITMENTS**

#### (a) Retirement Plan Description

#### Texas County and District Retirement System

The County provides retirement, disability, and death benefits for all of its full-time employees through a non-traditional agent multi-employer defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The TCDRS Board of Trustees is responsible for the administration of the statewide agent multi-employer public employee retirement system consisting of 701 nontraditional defined benefit pension plans. TCDRS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available online at www.tcdrs.org or upon written request from the Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

The governing body of the employer adopts the plan provisions within options available in Texas state statutes (TCDRS Act) governing TCDRS. Members employed by the County are vested and may retire at age 60 and above with 10 or more years of service; with 30 years of service regardless of age, or when the sum of their age and years of service equals 80 or more. Members are vested after combined 10 years of employment with any organization(s) with an accredited plan (not just the County), but must leave their accumulated contributions in the plan to receive any employer financed benefit.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of an employees accumulated contributions and the employer financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

At December 31, 2015, the following inactive or active County employees were covered by the benefit terms:

| Inactive employees or beneficiaries currently receiving benefits | 2,852 |
|------------------------------------------------------------------|-------|
| Inactive employees entitled but not yet receiving benefits       | 570   |
| Active employees                                                 | 6,133 |
| Total                                                            | 9,555 |

#### (b) Funding Policy

The County has chosen a fixed rate plan under the provisions of the TCDRS Act. County employees with 1,000 or more hours of service a year are members of the plan. The plan is funded by monthly contributions from both the County and its employees based on the covered payroll of employee members. Regulated by the TCDRS Act, the required 11.5% contribution rate (effective January 1, 2014) of the County is a fixed percentage matched by a 7% contribution rate payable by employee members and adopted by the Commissioners Court.

The financing objective for the plan is to provide benefits for the employee members that can be adequately financed by a fixed employer contribution rate that remains level as a percentage of covered payroll. Employee and County contribution rates may be changed by the Commissioners Court with options available in the TCDRS Act. If a plan has had adverse experience, the TCDRS

#### September 30, 2016 (in thousands of dollars)

#### VIII. RETIREMENT COMMITMENTS (Continued)

Act provisions allow an employer to contribute a fixed supplemental contribution rate determined by the TCDRS actuary above the regular rate for 30 years, or to reduce benefits earned in the future.

The County's net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

#### Actuarial Methods and Assumptions

| Valuation Timing                                                              |          | Actuarially determined contribution rates are calculated as of December 31, two years prior to the end of the fiscal year in which the contributions are reported. |                                                                                                                                                                                                                                                                                                                                                                                  |  |  |  |

#### VIII. RETIREMENT COMMITMENTS (Continued)

#### Long-Term Expected Rate of Return

Long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant. The amounts shown are based on January 2016 information for a 7 - 10 year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a 30-year time horizon; the most recent analysis was performed in 2013. See Milliman's TCDRS Investigation of Experience report for the period January 1, 2009 – December 31, 2012 for more details.

#### VIII. RETIREMENT COMMITMENTS (Continued)

#### (c) Net Pension Liability (continued)

#### Discount rate

The discount rate used to measure the total pension liability was 8.10%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that County contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

| Discount rate <sup>(1)</sup>                                                     | 8.10%                                |

| Long-term expected rate of return, net of investment expense <sup>(1)</sup>      | 8.10%                                |
| Municipal bond rate <sup>(2)</sup>                                               | Does not apply                       |
| (1) This rate reflects the long term rate of return funding valuation assumption | of 8 0.00% plug 0 100% adjustment to |

<sup>(1)</sup> This rate reflects the long-term rate of return funding valuation assumption of 8.00%, plus 0.10% adjustment to be gross of administrative expenses as required by GASB 68.

<sup>(2)</sup> The plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active, inactive, and retired members. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return, and the municipal bond rate does not apply.

The \$126,615 change in pension liability for the County is described below.

#### VIII. RETIREMENT COMMITMENTS (Continued)

As of September 30, 2016, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

#### **Deferred Inflows / Outflows of Resources**

|                                                      | Deferred<br>Inflows<br>of Resources | Deferred<br>Outflows<br>of Resources |
|------------------------------------------------------|-------------------------------------|--------------------------------------|
| Differences between expected and actual experience   | \$<br>9,652                         | \$<br>-                              |
| Changes of assumptions                               | -                                   | 16,539                               |
| Net difference between projected and actual earnings | -                                   | 121,763                              |
| Contributions made subsequent to measurement date    |                                     | 28,696                               |
|                                                      | \$<br>9,652                         | \$<br>166,998                        |

Deferred outflows of resources and deferred inflows of resources related to pensions, excluding contributions made subsequent to the measurement date, will be recognized in pension expense as follows:

| Year ended December 31, | Amount        |
|-------------------------|---------------|
| 2016                    | \$<br>33,189  |
| 2017                    | 33,189        |
| 2018                    | 33,189        |
| 2019                    | 29,083        |
|                         | \$<br>128,650 |

#### (e) Payable to the Pension Plan

At September 30, 2016, the County reported a payable of \$2,880 for the outstanding amount of contributions to the pension plan required for the year ended September 30, 2016.

#### **Public Agency Retirement Services**

County employees with less than 1,000 hours of annual service are required to participate in the Public Agency Retirement Services Plan (PARS), as an alternative to participation in Social Security. PARS is a 457 Deferred Compensation Plan administered by Phase II Systems, a California corporation. Employee and County contributions are fixed as a percentage of an employee's salary, which percentages are 6.2% and 1.3%, respectively. In fiscal 2016, employee and County contributions were \$117 and \$25, respectively. The County Treasurer administers the investment policy for employee and County contributions.

#### September 30, 2016 (in thousands of dollars)

#### VIII. RETIREMENT COMMITMENTS (Continued)

#### Post Retirement Benefits Other Than Pension (OPEB)

#### **OPEB** Plan Description

The County's group medical plans (Plan) are administered through the Public Employee Benefits Cooperative. The Plan is a single-employer defined benefit healthcare plan funded on a pay-as-you-go basis. OPEB includes health insurance and Medicare supplements. Contribution, adjustment or elimination of the contribution and adjustments to OPEB eligibility are subject to the governing body's annual budgetary discretion. The County allows retirees and dependents to continue health, dental and other insurance benefits upon retirement.

Age-adjusted premium amounts are not incorporated with the policy, except after the age of 65 retirees are removed from the plan and offered Medicare supplement plans. All retirement credits must be earned within the County for insurance eligibility. Retiree plan participants who opt for other than basic or enhanced coverage must contribute 100% of the costs.

#### **Funding Policy**

The County is not required by Texas law or contractual agreement to provide funding for OPEB other than the pay-as-you-go amount necessary to provide current budget year benefits to retirees and eligible beneficiaries and their dependents. Contribution, adjustment, or elimination of the contribution and adjustments to eligibility are subject to the governing body's annual budgetary discretion. For the year ended September 30, 2016, combined County and retiree contributions totaled \$10,209 for the Plan. Retiree Plan members receiving benefits contributed \$4,320 or approximately 42.31% of total cost through their required contributions.

#### Annual OPEB Cost and Net OPEB Obligation

The County's annual OPEB cost (expense) calculation is based on the annual required contribution of the employer (ARC), an amount that was actuarially determined by using the Projected Unit Credit method. The ARC represents a level of funding that, if paid on an on-going basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The Projected Unit Credit method allocates costs from date of hire to expected retirement date based on experience with active claims to retirement. The portion of this Actuarial Present Value allocated to a valuation year is called the Normal Cost. Under this method, actuarial gains or losses, as they occur, reduce or increase future Normal Costs. The following table shows the elements of the County's annual OPEB cost for each of the three fiscal years ended September 30, the amount actually paid on behalf of the Plan, and changes in the County's net OPEB obligation to the Plan:

#### September 30, 2016 (in thousands of dollars)

# VIII. RETIREMENT COMMITMENTS (Continued)

## Annual OPEB Cost and Net OPEB Obligation (continued)

| Amortization of Unfunded Actuarial         |    |             |               |               |
| Accrued Liability                          |    | 19,790      | 13,218        | 13,218        |
| Interest on net OPEB obligation            |    | 8,286       | 6,754         | 5,905         |
| Adjustment to annual required contribution | _  | (11,400)    | <br>(9,700)   | (5,905)       |
| Annual OPEB expense                        |    | 59,393      | 35,293        | 45,156        |
| Contributions made                         | _  | (5,889)     | <br>(5,468)   | (4,271)       |
| Change in net OPEB obligation              |    | 53,504      | 29,825        | 40,885        |
| Net OPEB obligation – beginning of year    |    | 306,904     | 277,079       | 236,194       |
| Net OPEB obligation – end of year          | \$ | 360,408     | \$<br>306,904 | \$<br>277,079 |

The County decided against funding any Unfunded Actuarial Accrued Liability (UAAL) at transition and will amortize it over the maximum period of thirty years, open basis.

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the three fiscal years ended September 30 are as follows:

| Fiscal<br><u>Year</u> | Annual<br><u>OPEB Cost</u> | Percentage of OPEB<br>Cost Contributed | Net OPEB<br>Obligation |
|-----------------------|----------------------------|----------------------------------------|------------------------|
| 2014                  | \$ 45,156                  | 9.46%                                  | \$ 277,079             |
| 2015                  | 35,239                     | 15.50                                  | 306,904                |
| 2016                  | 59,393                     | 9.92                                   | 360,408                |

OPEB long-term liabilities will be funded in future periods.

#### Funding Status and Funding Progress

The most recent actuarial valuation (dated October 1, 2015) includes an actuarial accrued liability of \$534,933 and actuarial value of assets of \$0, resulting in an unfunded actuarial balance. There are no Plan assets because the County funds on a pay-as-you-go basis. The covered payroll (annual payroll of active employees covered by the Plan) was \$315,349, and the ratio of the UAAL to the covered payroll was (169.6%).

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Increases in the most recent actuarial evaluation are due to actuarial assumptions. The discount rate of 2.7% increased from the 2013 valuation. Other estimates include assumptions about future employment mortality, age of retirement and continuance of retiree coverage.

The schedule of funding progress, presented below, presents multi-year trend information about whether the actuarial value of OPEB assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

## September 30, 2016 (in thousands of dollars)

| 2015           | October 1, 2013             | -                               | 367,933                           | (367,933)                 | 0.00            | 298,611            | (123.2)                               |
| 2016           | October 1, 2015             | -                               | 534,933                           | (534,933)                 | 0.00            | 315,349            | (169.6)                               |

## **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan, which include actuarial valuations; the types of benefits provided at the time of each valuation; and the historical pattern of benefit costs between the employer and the plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with long-term perspective of the calculations. The demographic assumptions requiring approval were accepted by the County.

The County uses a discount rate of 2.7% based on the rate of return on short-term investments that are used to pay benefits. The health cost trend rate for ages 65 and under is 7% in 2015, reducing 0.5% per year, reaching 5% in 2019 and after. The amortization period is over the maximum period of 30 years, open basis. There are no adjustments for age or gender differentials from national population or for pre-2020 inflation on government plans.

The following is participant data.

| Active:                                     |       |
|---------------------------------------------|-------|
| Number                                      | 5,799 |
| Average age                                 | 44.7  |
| Average service                             | 9.8   |
| Average future service:                     |       |
| To expected retirement                      | 10.6  |
| Retired participants and surviving spouses: |       |
| Number                                      | 687   |
| Average age                                 | 69.1  |
| Dependents:                                 |       |
| Number                                      | 230   |
| Average age                                 | 66.2  |

# **Additional Disclosure**

The County has the authority to pay OPEB for its retired employees; therefore, it may incur a debt obligation to pay for OPEB, so long as the County follows the constitutional requirement that it has sufficient taxing authority available at the time such debt is incurred. Any debt incurred in contravention of this constitutional requirement is considered void and payment will not be due.

## September 30, 2016 (in thousands of dollars)

# VIII. RETIREMENT COMMITMENTS (Continued)

The County has not incurred a legal debt obligation for OPEB and has not levied a tax for the same. The County funds the cost associated with OPEB on a current "pay-as-you-go" basis for a single fiscal year through an annual appropriation authorization by Commissioners Court during the County's annual budget adoption process.

GAAP requires governmental organizations to recognize an actuarially calculated accrued liability for OPEB, even though it may not have a legally enforceable obligation to pay OPEB benefits. Information and amounts presented in the County's Comprehensive Annual Financial Report relative to OPEB expense/expenditures, related liabilities (assets), note disclosures, and supplementary information are intended to achieve compliance with the requirements of generally accepted accounting principles and does not constitute or imply that the County is legally obligated to provide OPEB benefits.

# IX. LEASES

The County has a number of operating leases. Future minimum rental payments applicable to the operating leases are as follows:

| Year Ending September 30, | Amount       |
|---------------------------|--------------|
| 2017                      | \$<br>4,718  |
| 2018                      | 3,995        |
| 2019                      | 3,924        |
| 2020                      | 3,706        |
| 2021                      | 3,108        |
| 2022 - 2026               | 2,529        |
| Total                     | \$<br>21,980 |

#### September 30, 2016 (in thousands of dollars)

## IX. LEASES (Continued)

Rental expense for fiscal 2016, for all County operating leases was approximately \$3,217 including \$178 for lease pass-through expenses such as common area maintenance.

The County is also a lessor of land, office space, and parking space under operating leases. Renewal options are available on certain leases. Future minimum rental payments to be received under operating leases are as follows:

| Year Ending September 30, |    | Amount |
|---------------------------|----|--------|
| 2017                      | \$ | 638    |
| 2018                      |    | 561    |
| 2019                      |    | 551    |
| 2020                      |    | 552    |
| 2021                      |    | 539    |
| 2022                      | _  | 401    |
| Total                     | \$ | 3,242  |

Rental receipts for multi-year leases were approximately \$656, additionally, the County received parking revenues of \$4,039.

# X. RISK MANAGEMENT

The County has elected to self-insure against risks arising from tort claims, employee group medical insurance benefits, workers' compensation benefits due to employees who are injured while on duty, losses of funds by theft or mysterious disappearances in all fee offices of the County (with the exception of offices of County Tax Assessor Collector and the County Treasurer), and any and all other claims asserted by employees and/or third parties against the County arising out of the normal conduct of County business. The County has chosen to be a reimbursing employer under the unemployment compensation program administered by the Texas Workforce Commission.

The County purchased third-party vehicle insurance for Auto Theft Task Force grants. Specific property insurance is purchased to mitigate certain risks. Property insurance deductible limits include buildings at \$1,000; boiler and machinery at \$100; data, IT equipment, media at \$100 after period of interruption exceeds 48 hours, and radio equipment at \$100, and builders risk for certain construction projects at \$50. Current premium reflects a rate of \$0.40 per one hundred dollars of insurance.

The County's workers' compensation self-insurance program provides medical and indemnity payments as required by law for on-the-job related injuries. The liability is recognized in the Internal Service Fund. The third-party administrator for the program monitors the filing of claims, verifies the legitimacy, and processes payments to injured employees.

The Internal Service Fund also was established to account for the County's group medical insurance program. The County self-insures benefits through this fund utilizing its third-party benefit administrator. The County pays certain amounts of premiums for employees into the Internal Service Fund or to a third party, and allows employees to select additional benefits with premiums paid by the employees.

## September 30, 2016 (in thousands of dollars)

#### X. RISK MANAGEMENT (Continued)

Premiums are paid into the Internal Service Fund by all other governmental funds for medical insurance programs. Contracted insurance providers receive disbursements based on monthly enrollment and premium calculations. Funds are available to pay claims, claim reserves, and administrative costs of the programs. Liabilities include an amount for claims or judgments that have been incurred but not reported. Liabilities of each fund are reported when it is probable that a loss or claim has occurred and the amount of the loss or claim is known or can be reasonably estimated. The County has specific deductible stop loss coverage of \$600 for the fiscal year ended September 30, 2016. In the past three years, the County has not experienced any losses which exceeded the stop loss coverage.

Changes in the medical and workers' compensation claims liability amounts in fiscal years 2015 and 2016 follow:

|                            | Current<br>Year Claims<br>Beginning and Changes Claim Ending |              |           |           |  |  |  |
|----------------------------|--------------------------------------------------------------|--------------|-----------|-----------|--|--|--|
|                            | Liability                                                    | in Estimates | Payments  | Liability |  |  |  |
| 2015 Medical               | \$ 4,693                                                     | \$ 66,340    | \$ 65,028 | \$ 6,005  |  |  |  |
| 2016 Medical               | 6,005                                                        | 68,536       | 68,907    | 5,634     |  |  |  |
| 2015 Workers' compensation | 2,338                                                        | 2,081        | 1,716     | 2,703     |  |  |  |
| 2016 Workers' compensation | 2,703                                                        | 962          | 1,649     | 2,016     |  |  |  |

# XI. COMMITMENTS AND CONTINGENCIES

Several lawsuits that could affect the County's financial position are in various stages of litigation. An estimated liability of \$2,000 has been established in the government-wide Statement of Net Position to provide coverage for the estimated maximum cost to the County. Lawsuits settled in the fiscal year totaled \$167. Most were settled for property damages. There are other outstanding lawsuits and claims in which the County is involved. Based upon the representations of the District Attorney and legal counsel for the Commissioners Court, management believes that potential claims, if any, against the County, resulting from such litigation would not materially affect the financial position or operations of the County.

#### September 30, 2016 (in thousands of dollars)

#### XI. COMMITMENTS AND CONTIGENCIES (Continued)

The County has assigned, committed and restricted fund balances for the following purposes:

| General Fund – Assigned Fund Balance          |               |
|-----------------------------------------------|---------------|
| Building improvements                         | \$<br>5,058   |
| Public welfare contracts                      | 1,255         |
| Professional services                         | 776           |
| Equipment                                     | 2,965         |
| Maintenance and supplies                      | 1,823         |
| Rental contracts                              | 297           |
| Other                                         | 81            |
|                                               | \$<br>12,255  |
| Debt Service – Restricted Fund Balance        |               |
| Debt service                                  | \$<br>2,053   |
| County Building Improvement – Restricted Fund |               |
| Balance                                       | \$<br>205,755 |
| Major Projects – Committed Fund Balance       |               |
| Thoroughfares and trails                      | \$<br>42,829  |
| Buildings and improvements                    | 4,380         |
| Data processing and software improvements     | 1,281         |
| Energy management/improvements                | 13,043        |
| Utilities                                     | 3,933         |
| Other                                         | 354           |
| Committed for future projects                 | 171,632       |
|                                               | \$<br>237,452 |
| Major Grants – Restricted Fund Balance        | \$<br>6,565   |

Other Non-Major Governmental Funds include funds with Restricted or Committed Fund Balances, which are determined based upon the nature of the funds.

#### XII. DALLAS COUNTY HOSPITAL DISTRICT

#### Organization

The Dallas County Hospital District, dba Parkland Health & Hospital System (District), is a political subdivision of the State, and is a discretely presented component unit of the County. The District is composed of Parkland Health & Hospital System (Hospital); Parkland Community Health Plan, Inc. (Health Plan); Parkland Foundation (Foundation); and Parkland Center for Clinical Innovation (PCCI). The County determined that the following component units of the District are not component units of the County: the Health Plan, Foundation, and PCCI. The District is a hospital district, and accordingly, its income is excluded under Section 115 of the Internal Revenue Code (Code), and it is recognized as an organization described in Section 501(c) (3) of the Code, and as such, is exempt from federal income taxes. During 2016, all income was related to essential government functions. The Hospital, Foundation, and PCCI have

## September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

fiscal years ending September 30. The Health Plan's fiscal year ends December 31. All references to annual periods refer to the year ended September 30.

The District is governed by a Board of Managers (Board) appointed by, but not composed of, County Commissioners or County Judge. The Commissioners Court of the County approves the District's tax rate and annual budget; however, the District operates under different statutory and constitutional authority. The District also has a separate constitutional tax limitation, independent power of eminent domain, and individual right of ownership of property. County taxpayers provide ad valorem tax revenues to the District, but the County does not hold title to any of the District's assets and does not have any rights to any surpluses of the District. The component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the primary government.

Complete financial statements for the District may be obtained from:

Parkland Health & Hospital System 5200 Harry Hines Dallas, Texas 75235 Attention: John G. Moore Executive Vice President and Chief Financial Officer

In August 2015, the Hospital opened the new Parkland Hospital (Parkland). Parkland operates 774 inpatient beds, 96 neonatal beds, numerous outpatient clinics, and an emergency department. Parkland also operates the Community Oriented Primary Care clinics and Acute Response Clinics in the community. Additionally, Parkland serves as the major teaching hospital for the UT Southwestern Medical Center at Dallas (UT Southwestern) in accordance with an affiliation agreement effective September 1, 2006. Parkland also manages the County's jail health system. The County's jail is the seventh largest jail in the nation with approximately 5,400 inmates. The District provides direct patient care at three adult facilities and contracts for services at four juvenile facilities. The District is accounted for as a single-column business-type entity on an accrual basis of accounting.

Parkland acquired the licenses and operations of twelve nursing homes in February 2015. The arrangement improves the continuity of care for Parkland's patients by allowing Parkland to track their nursing home care. The arrangement also gives uninsured patients easier access to nursing home beds, rather than extended stays at Parkland. Each nursing home is eligible to receive supplemental Medicaid funding with Parkland holding the operating licenses. The Texas Legislature approved the collaboration between nursing homes and public hospitals in 2013 as the State shifted its Medicaid nursing home program into managed care.

The Foundation is a nonprofit corporation organized in Texas in 1985, to support and benefit the District exclusively. It is an organization as described in Section 501(c) (3) of the Code. The Foundation's mission is to secure substantial financial resources that advance the clinical, educational, and research quests of the District. Because these resources can only be used by, or for the benefit of Parkland, the Foundation is considered a component unit of Parkland. In addition, because Parkland is entitled to these economic resources and they are significant to Parkland, the Foundation is discretely presented in Parkland's financial statements. Financial

## September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

statements for the Foundation can be obtained from the Parkland Foundation, 2777 N. Stemmons Freeway, Suite 1700, Dallas, Texas 75207. Attn: President and Chief Executive Officer.

The Health Plan is a nonprofit corporation organized in Texas in 1995 and is reported as a component unit of the District because its Board of Directors is appointed by the District's Board of Managers and the District can impose its will on the Health Plan. It is discretely presented because its board is not substantively the same as the District's board, it does not provide services entirely, or almost entirely, for the benefit of the District, nor does it have any outstanding debt that is expected to be repaid by the District. It is an organization as described in Section 501(c) (4) of the Code. The Health Plan participates in the Texas Medicaid Managed Care Program and the Children's Health Insurance Program. All income of the Health Plan was related business income. Financial statements for the Health Plan can be obtained from Parkland Community Health Plan, 2777 N. Stemmons Fwy, Suite 1750, Dallas, TX 75207, Attn: Executive Director.

PCCI is a nonprofit research and development corporation organized in Texas in 2012. It is an organization as described in Section 501 (c) (3) of the Code. PCCI is included in the District's financial statements because its Board of Directors is appointed by the District's Board of Managers and the District can impose its will on PCCI. It does not provide services entirely, or almost entirely, for the benefit of the District, nor does it have any outstanding debt that is expected to be repaid by the District. During 2016, PCCI licensed 100% of its intellectual property to a third party via an exclusive patent and technology license agreement which resulted in a strategic shift in the business. Financial statements for PCCI can be obtained from Parkland Center for Clinical Innovation, 8435 N. Stemmons Freeway, Suite 1150, Dallas, Texas 75247. Attn: Vice President of Finance.

# **Significant Accounting Policies**

The District classifies net position into three components: net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

*Net Investment in Capital Assets* – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Unspent related debt proceeds are excluded from the calculation of net investment in capital assets.

*Restricted* – This component of net position consists of those assets whose use is restricted through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, laws, or regulations of other governments, or laws through constitutional provisions or enabling legislation.

*Unrestricted* – This component of net position consists of those assets that do not meet the definition of "restricted" or "net investment in capital assets."

The District uses the accrual method of accounting, whereby revenues are recognized in the accounting period when services are rendered and expenses are recognized when incurred.

#### September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

For purposes of financial statement presentation, operating revenues include those generated from direct patient care and related support services. Nonoperating revenues consist of those revenues that are related to financing and investing types of activities and result from nonexchange transactions or investment income. When an expenditure is incurred for the purposes for which there are both restricted and unrestricted net position available, it is the District's policy to apply those expenditures to restricted net position, to the extent that such are available, and then to unrestricted net position.

# **Cash, Cash Equivalents and Investments**

The District considers all highly liquid investments with original maturities of less than 90 days at date of purchase to be cash equivalents. Cash and cash equivalents include demand deposits and investments in the Texas Local Government Investment Pool (TexPool), which is a local government investment pool sponsored by the Texas Comptroller of Public Accounts and managed by Federated Investors. Additional cash and cash equivalents are kept in AAA-rated Securities and Exchange Commission-registered money market mutual funds. All District demand deposits are insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized with securities pledged to the District and held in safekeeping at a third-party bank on behalf of the District's depository institution.

Statutes give the District authority to invest in obligations of the United States, as well as direct obligations of the State and other obligations guaranteed or insured by the State or the United States. The following investments are also acceptable: obligations of states, agencies, counties, or cities of any state that have been rated not less than "A" or its equivalent by a nationally recognized ratings firm, and certificates of deposit guaranteed, insured, or secured by approved investments. Other authorized investments include prime commercial paper; Securities and Exchange Commission-registered, no-load money market mutual funds whose assets consist exclusively of approved investments; and approved local government investment pools.

All investments at September 30, 2016, are reported at fair value based on quoted market prices with realized and unrealized gains and losses included in the Statement of Activities. Obligations of the United States government with maturity dates in excess of one year that are not expected to be traded within one year are reported as long-term investments in the accompanying Statement of Net Position.

# **Receivables and Payables**

The carrying amount of receivables and payables is reported in the Statement of Net Position at approximate fair value due to the short maturity of these instruments.

# Patient Accounts Receivable

Patient accounts receivable is presented net of allowances for charity, contractual discounts, and bad debts of \$522,800 as of September 30, 2016.

## September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

## Inventories

Inventories are stated at the lower of cost (determined on an average-cost basis) or market.

## **Capital Assets**

Capital assets are recorded at cost or, if donated, fair market value at the date of receipt. Costs of major renewals and betterments that extend useful lives are capitalized, while maintenance and repairs are charged to current operations. Assets with a purchase price of \$5 or more are capitalized and assets with a purchase price of less than \$5 are expensed. Disposals are removed at carrying cost, less accumulated depreciation, with any resulting gain or loss included in other nonoperating revenue or expense. Depreciation is recorded on the straight-line method over the estimated useful lives of the assets. Estimated useful lives for buildings are 10 to 40 years and for equipment 3 to 20 years.

The District evaluates long-lived assets regularly for impairment under the provision of GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recovery*. If circumstances suggest that assets may be impaired, an assessment of recoverability is performed prior to any write-down of assets. If an asset's estimated fair value is below its carrying value, an impairment is recorded. An asset impairment of \$1,400 was recognized in 2016.

# Assets Limited to Use

Assets limited as to use represents those assets whose use has been legally restricted, including bond proceeds. Resources are also set aside for Board designated purposes or self-insurance arrangements. It has been the general practice of the District, due to the timing of cash flows, to temporarily use Board designated funds to fund operating activities. Current assets limited to use represent assets related to capital projects and debt service to be paid in the next year.

#### **Uncompensated Care**

The District provides services to uninsured patients who qualify for tax-supported care. The program is called Parkland Health*Plus* and is designed for County indigent patients with family incomes up to 200% of the federal poverty level and no third-party coverage, such as Medicaid, Medicare, or commercial insurance. The District recognized ad valorem tax revenues of approximately \$535,600 in 2016, to fund services for qualified patients and debt service obligations.

The District also provides services to patients who are County residents and have incomes that exceed the limit for tax supported health care or whose income cannot be determined. Although these patients are uninsured, they do not qualify for tax-supported health care and are classified as self-pay. Certain of these patients are medically indigent. Additionally, certain of these patients have limited financial resources and are unable to pay for the services received, while others may be able to pay for some or all services received, but are unwilling to do so. District costs to care for these patients was approximately \$522,000 in 2016, and are reflected in the Statement of Activities.

## September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

Management estimates the cost of uncompensated health care by applying a ratio of overall costs to gross charges, applied to the gross uncompensated charges. During the year ended September 30, 2016, the estimated cost of uncompensated care is approximately \$871,401, of which approximately \$423,100 is charity care.

## Ad Valorem Taxes

The District received approximately 31.7% of its total revenues from ad valorem taxes in 2016. The District's ad valorem taxes receivable is net of an allowance for uncollectible taxes of \$15,500 as of September 30, 2016.

Current taxes are collected beginning in October of each year and become delinquent after January 31. Ad valorem tax revenue is recognized in the year for which taxes are levied. A schedule of ad valorem taxes follows:

|                    |               |                 |             | Cost of       | Cost of       |
|--------------------|---------------|-----------------|-------------|---------------|---------------|
|                    |               | Tax (per \$100) | Net Tax     | Uncompensated | Uncompensated |
| <b>Fiscal Year</b> | Tax Base      | Valuation       | Revenue (1) | Care          | Care Over Tax |
| 2016               | \$189,510,334 | \$0.286         | \$535,646   | \$871.401     | \$335,755     |

(1) Net tax revenue includes adjustments for actual collection performance.

# **Disproportionate Share**

The disproportionate share program is a supplemental reimbursement program for hospitals that provide a significant proportion of Medicaid and indigent care services. Under program guidelines, the District may use the funds to benefit the indigent in either current or future periods. The District recognizes all funds received under the program as operating revenue in the applicable year, and any amounts relating to that year that are not yet received are included in other receivables in the accompanying Statement of Net Position. There is no guarantee that this program will continue into future years. Total revenue recognized related to the disproportionate share program was \$75,700 in 2016.

# 1115 Transformation Waiver Funds

The 1115 Transformation Waiver began October 1, 2011. Under this waiver, the former Upper Payment Limit (UPL) programs are discontinued in favor of a reimbursement methodology that balances payment for uncompensated care costs (UC) with the need to improve quality of care for Texas recipients using Delivery System Reform Incentive Payments (DSRIP) funds. Over the five year waiver period, UC reimbursement generally moves downward while available DSRIP monies increase, so there is an even split between UC and DSRIP by the last year of the waiver. The program divides the State into 20 Regional Health Partnerships (RHPs), creating an environment where regional collaboration is essential in order to earn available monies. The District serves as an "anchor" hospital (administrative lead) for one of these regions. The Centers for Medicare & Medicaid Services (CMS) has agreed to extend the current waiver through December, 2017, until the election is complete and political policy is determined. Revenue recognized related to the 1115 Waiver was \$118,500 in 2016. The District recognizes all funds received under the program as operating revenue in the Statement of Activities, and any amounts relating to that year that are not yet received are included in other receivables, net of amounts to be distributed to other participating hospitals in the region, in the accompanying Statement of Net

## September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

Position. These amounts involve a considerable amount of judgment and are subject to audit and final reconciliation by the Texas Health and Human Services Commission (HHSC).

# Net Patient Services Revenue

The District has agreements with third-party payors that provide for reimbursement to the District at amounts different from its established rates. Contractual adjustments under third-party reimbursement programs represent the difference between the District's established rates for services and the amounts reimbursed by the third-party payors. The District's more significant third-party payors are the Medicare and Medicaid programs, which accounted for gross charges of approximately 15.9% and 28.8% respectively in 2016. Allowances for uncollectible amounts are estimated using historical experience, current trends and policy information, aged account balances, and a collectability analysis. Net patient services revenue in the accompanying Statement of Activities is net of contractual adjustments and bad debt provisions totaling approximately \$5,100,000 for the year ended September 30, 2016.

In accordance with provisions of the Medicare and Medicaid programs, inpatient services to Medicare and Medicaid beneficiaries are paid at prospectively determined rates per discharge based on a patient classification system utilizing clinical, diagnostic, and other factors. Medicare outpatient services are reimbursed on a prospective basis through ambulatory payment classifications, which are based on clinical resources used in performing the procedure. Medicaid outpatient services are paid based on the lower of reasonable costs or customary charges, a fee schedule, or blended rates. For certain costs, as defined by the Medicare program, including kidney acquisition, medical education, and bad debts, additional reimbursement is provided based on cost pass-through payments and the cost report.

Cost-reimbursable items are reimbursed to the District at a tentative rate, with final settlement determined after submission of annual cost reports by the District, which are subject to audit by the fiscal intermediaries prior to final settlement. Any differences between final audited settlements and amounts accrued at the end of the prior reporting period are included currently in the Statement of Activities as an adjustment to the appropriate allowance account. Such adjustments increased net patient services revenue by \$5,400 in 2016. The District's cost reports have been audited and settled by the fiscal intermediaries through 2013 for Medicare and 2009 for Medicaid. Cost reports for both programs are subject to certain re-openings and appeals as per federal and state regulations.

#### **Grant Revenue**

Grant revenues are recognized in the period in which expenditures related to the grant are incurred or the period in which grant funds become available.

# **Compensated Absences**

The District accrues an estimated liability for compensated absences as they are earned by employees based on the District's policy. The District's liability related to compensated absences was \$41,200 as of September 30, 2016, and is recorded in the financial statements in accounts payable and accrued expenses.

#### September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

## **Pharmaceutical Costs**

The District participates in replacement pharmaceutical programs on behalf of patients who enroll and meet eligibility requirements of these programs.

## **Deposits and Investments**

As of September 30, 2016, the District had deposits and investments as follows:

| Description                                                                                                                                     |          | ecorded<br>Value                       | Weighted<br>Average Days to<br>Maturity |

Estimated fair values have been determined by the District using appropriate valuation methodologies by third parties, quoted market prices and information available to management as of September 30, 2016. The investments are recorded at fair value with the exception of TexPool deposits which are recorded at amortized cost. The District adjusts the carrying value of financial instruments classified as assets to reflect their appropriate fair value. As of September 30, 2016, the District had not yet received \$48,700 of accrued revenue related to the supplemental programs. Cash and cash equivalent included in assets limited to use was \$82,800 as of September 30, 2016.

The District categories its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to

## September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

measure fair value of the assets. Level 1 are quoted prices in an active market for identical assets; Level 2 are significant other observable inputs; and Level 3 are significant unobservable inputs (the District does not value any of its investments using Level 3 inputs).

The following is a summary of the hierarchy of the fair value of investments of the District as of September 30, 2016.

|                                    |                   | Fair Value Measurements Using |    |               |    |                       |

(1) This amount excludes investments in local government investment pools which are recorded at amortized cost. These investments total \$224,842 as of September 30, 2016.

# **Interest Rate Risk**

The District invests in fixed-rate debt securities with estimated average maturities of approximately one to six years. Interest rate risk is limited by the short-term nature of these investments.

# **Credit Risk**

The District has a comprehensive investment policy that is designed to comply with State law and the Texas Public Funds Investment Act. The debt securities issued by Federal National Mortgage Association (FNMA), the Federal Home Loan Bank (FHLB), the Federal Home Loan Mortgage Corporation (FHLMC), and the Federal Farm Credit Bureau (FFCB) are rated AAA by Standard & Poor's rating agency. TexPool's portfolio consists exclusively of U.S. government securities; repurchase agreements collateralized by U.S. government securities; and AAA-rated, no-load money market mutual funds. All demand deposits are collateralized by FDIC insurance and with securities pledged to the District held in safekeeping at a third-party bank on behalf of the District's depository institutions.

# **Concentration of Credit Risk**

Per the District's investment policy, no more than 40% of the investment portfolio can be invested in any one issuer of U.S. government agencies and government- sponsored enterprises, including, but not limited to, FNMA, FHLB, FFCB, and FHLMC. The largest percentage in any one issuer is invested with FNMA at 7% as of September 30, 2016.

## September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

# **Custodial Credit Risk**

Per the District's investment policy, all investments are held in the District's name in safekeeping at the District's trust or custodial institutions.

## **Investment Income**

Investment income for the year ended September 30, 2016, consisted the following:

|                                           | 2016         |
|-------------------------------------------|--------------|
| Interest income, including realized gains | \$<br>14,754 |
| Unrealized loss on investments            | (819)        |
| Total investment income                   | \$<br>13,935 |

## Assets Limited to Use

Assets limited to use at September 30, 2016, consist of the following funds, which are all investments in TexPool and U.S. government-sponsored enterprises:

|                             | _  | 2016     |
|-----------------------------|----|----------|
| Debt service                | \$ | 2,196    |
| Designated for capital uses |    | 119,017  |
| Other designated            |    | 3,399    |
| Total                       |    | 124,612  |
| Less current                |    | (69,216) |
| Noncurrent                  | \$ | 55,396   |

# **Debt Service**

Assets limited as to use for debt service represent those assets related to the bond issues whose use is legally restricted.

# **Designated for Capital Uses**

Assets limited to use designated for capital uses represent funds designated at the discretion of the Board for annual additions to capital equipment, as well as funding for a combination of renovations and new facilities.

# **Other Designated**

Other assets limited to use includes funds designated by the Board to fund the District's hospital professional liability program.

# Due to/from Cash

Assets limited to use includes funds designated at the discretion of the Board which may be used temporarily to fund operating activities due to the timing of cash flows.

#### **Accounts Payable and Accrued Expenses**

Accounts payable and accrued expenses, at September 30, 2016 consist of the following:

|                                             | 2016          |
|---------------------------------------------|---------------|
| Accounts payable                            | \$<br>16,945  |
| Accrued expenses                            | 72,802        |
| Accrued payroll                             | 80,322        |
| Employee health care benefit liability      | 14,765        |
| Other employee benefits                     | 5,811         |
| Total accounts payable and accrued expenses | \$<br>190,645 |

The liabilities, described in the table below as of September 30, 2016, are based on requirements that a liability for claims be reported if it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. These liabilities include estimates for both reported claims and incurred, but not reported claims. As a result of settled claims, the frequency of new claims, and other economic and social factors, claims liabilities are reevaluated periodically.

Hospital Professional and General Liability – The District is involved in certain legal actions and claims arising in the ordinary course of operations. The District records estimated self-insurance costs for medical malpractice and general liabilities as other current and long-term liabilities. The amounts provided for funding and the estimated liabilities are based on settlement of claims limited to \$100 per claim and \$300 per occurrence in accordance with the limited liability provisions of the Texas Tort Claim Act. The funding estimate used an actuarially determined 1.0% discount rate for 2016 and is reported in other long-term liabilities in the Statement of Net Position.

Employees Health Care Benefit Liability – The District manages a self-insurance plan that provides for the payment of employee health claims. The District records estimated self-insurance costs for health claims as current liabilities. The amount of the estimated liability is derived from a claims modeling system. To obtain coverage, employees authorize payroll withholdings to pay the employee portion of contributions for individual and dependent coverage. Claims are paid by a third-party administrator acting on behalf of the District. The administrative contract between the District and the third-party administrator is renewable annually, and administrative fees are included in the contractual provisions. The employee health care benefit liability is reported in accounts payable and accrued expenses in the Statement of Net Position.

Workers' Compensation Liability – The District maintains a self-insurance program for workers' compensation benefits, managed by a third-party administrator. The District records estimated self-insurance costs for workers' compensation as current liabilities. The amount provided for the estimated liability is based on settlement of claims. The funding estimate used an actuarially determined 1.0% discount rate for 2016 and is reported in accounts payable and accrued expenses in the Statement of Net Position.

# **Operating Leases**

The District leases facilities under operating leases that expire over periods of up to ten years. Renewal and purchase options are available on certain of these leases. At September 30, 2016, future minimum rental payments for operating leases including escalations were as follows:

# September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

| Years Ending |    | Amount |
|--------------|----|--------|
| 2017         | \$ | 14,835 |
| 2018         |    | 4,349  |
| 2019         |    | 2,332  |
| 2020         |    | 758    |

| Total        | \$ | 24,346 |

Rental expense was approximately \$15,900 for the year ended September 30, 2016 and is recorded in the accompanying Statement of Activities.

The District is also a lessor of land, office space, and parking space under operating leases. Renewal options are available on certain of these leases. Rentals received under these arrangements are recorded in the accompanying Statement of Activities. Minimum future rentals to be received under operating leases at September 30, 2016, are as follows:

| Year | s Ei | nding | Amount       |
|------|------|-------|--------------|
| 2    | 201′ | 7     | \$<br>1,126  |

| Capital leases, net           | \$ 13,413                           |

#### **Retirement Plans**

# **Defined Benefit Plan**

The District maintains the Dallas County Hospital District Retirement Income Plan, a singleemployer, defined benefit pension plan (Plan). The Plan participation as of January 1, 2016 includes 10,360 active participants, 3,638 inactive employees entitled to but not yet receiving benefits, and 2,216 retirees and beneficiaries. The Plan is administered by the Board. The annual payroll for employees covered by the Plan for the years ended December 31, 2015 and 2014, which is included in the actuarial valuation as of January 1, 2016 and 2015, respectively, was approximately \$574,200 and \$554,100. For the years ended December 31, 2015 and 2014, Parkland's total payroll was approximately \$749,900 and \$714,900, respectively.

Employees are required to contribute 4.5% of their annual salaries to the Plan. The District is required by the Plan to contribute the remaining amounts necessary to fund the Plan using actuarial methods. Beginning in 2017, employees will be required to contribute 5.5% of their annual salaries to the retirement plan.

The District's funding policy is to make periodic actuarially determined employer contributions in amounts designed to accumulate sufficient assets to pay benefits when due. The projected entry age normal method is used to determine both the funding and the pension benefit obligation.

## September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

The Plan's assets include investments reported at fair value. Investments in mutual funds, corporate equities, and fixed income securities are reported at fair value based on published market prices. Short-term money market funds are reported at cost, which approximates fair value. Investments in common collective trusts and hedge funds are reported at net asset value as a practical expedient for fair value.

# Calculation of Money Weighted Rate of Return

The money-weighted rate of return considers the changing amounts actually invested during a period and weights the amount of pension plan investments by the proportion of time they are available to earn a return during that period. External cash flows are determined on a monthly basis and are assumed to occur at the beginning of each month. External cash inflows are netted with external cash outflows, resulting in a net external cash flow in each month. The money-weighted rate of return is calculated net of investment expenses.

The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long term expected rate of return.

## Actuarial methods and assumptions

| Valuation date                       | January 1, 2016                      | January 1, 2015                      |

GASB 68 requires a blended discount rate be used to measure the total pension liability (the actuarial accrued liability calculated using the individual entry age normal cost method). The long-term expected return on Plan investments may be used to discount liabilities to the extent that the Plan's fiduciary net position (fair value of assets) is projected to cover benefit payments and administrative expenses. A 20 year high quality (AA/Aa or higher) municipal bond rate must be used for periods where the fiduciary net position is not projected to cover benefit payments and administrative expenses. GASB 68 does allow for alternative evaluations of projected solvency. The following circumstances justify an alternative evaluation of sufficiency for the Plan:

- The District has at least a five year history of paying at least 100% of the actuarially determined contribution (previously termed the annual required contribution).
- The actuarially determined contribution is based on a closed amortization period, which means that payment of the actuarially determined contribution each year will bring the Plan to a 100% funded position by the end of the amortization period.

## September 30, 2016 (in thousands of dollars)

## XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

• The projections regarding future solvency assume that Plan assets earn the assumed rate of return and there are no future changes in the Plan provisions or actuarial methods and assumptions. Therefore, the projections will not reflect any adverse future experience which might impact the Plan's funded position.

Based on these circumstances, the detailed depletion date projections will show that the fiduciary net position is projected to be sufficient to cover benefit payments and administrative expenses.

| Net pension liability   |    | 562,273           |    | 408,185          |    | 280,747         |

During the years ended December 31, 2015 and 2014, \$28,400 and \$27,400, respectively, of employee contributions were made in accordance with the established contribution requirements described above. The District contributed approximately \$24,500 to the Plan during the year ended December 31, 2015, in accordance with contribution requirements determined by the January 1, 2016 actuarial valuation. An additional \$20,800 was contributed between January 1, 2016 and September 30, 2016. This amount was recorded as a deferred outflow of resources. The District contributed approximately \$22,800 to the Plan during the year ended December 31, 2014, in accordance with contribution requirements determined by the January 1, 2015 actuarial valuation.

As of December 31, 2015, the deferred inflows and outflows of resources are as follows:

|                                                      | Deferred<br>Inflows of<br>Resources | Deferred<br>Outflows of<br>Resources |

## September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

Amounts currently reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Years Ending | Amount    |
|--------------|-----------|
| 2016         | \$ 14,196 |
| 2017         | 34,019    |
| 2018         | 13,614    |
| 2019         | 12,341    |
|              | \$ 74,170 |

The Plan issues a publicly available financial report that includes financial statements and required supplementary information for the Plan. This report may be obtained by writing to the District's accounting office.

## (e) Defined Contribution Plan

The District also maintains a voluntary defined contribution plan covering all employees with at least one year of service. The defined contribution plan is administered by the Board. The defined contribution plan provisions and contribution requirements are established and may be amended by the Board. The payroll for employees covered by the defined contribution plan for the year ended September 30, 2016 was approximately \$698,300. The District's total payroll was approximately \$795,800 for the year ended September 30, 2016. Eligible employees can choose to contribute from 2% to 20% of their base salaries. The District will match employees' contributions 100%, up to 6% of their base salaries. Employees are fully vested at all times in their voluntary contributions, plus earnings thereon. Vesting in the District's matching contributions is based on years of service. After one year of service, employees vest at the rate of 20% per year for five years. Should an employee terminate prior to vesting completely in the District's contributions, the unvested portion can be used to reduce the District's matching contributions in the aggregate in the following year.

Contributions for the year ended September 30, 2016, were approximately \$21,400 from the District and \$46,700 from employees.

#### Postretirement Benefits Other Than Pension (OPEB)

In addition to providing pension benefits, the District provides certain health care benefits for retired employees until age 65 (OPEB Plan). As of January 1, 2016, the number of retirees and eligible beneficiaries of the OPEB Plan was 30.

In September 2011, the OPEB Plan provisions were modified to discontinue allowing new enrollees in the OPEB Plan effective January 1, 2013. As of the January 1, 2016 and 2015 actuarial valuation dates, the OPEB Plan was not prefunded. Contributions made were for current year costs incurred only.

#### September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

#### **Concentrations of Patient Accounts Receivable Credit Risk**

The District grants credit without collateral to its patients, most of whom are County residents. The mix of receivables from patients and third-party payors, as of September 30, 2016 is as follows:

|                      | Percentage |
|----------------------|------------|
| Commercial insurance | 44%        |
| Medicaid             | 32         |
| Medicare             | 22         |
| Patients             | 2          |
| Total                | 100%       |

## **Commitments and Contingencies**

As a local governmental unit, the District is subject to the provisions of the Texas statute known as the Texas Tort Claims Act. Currently, the District's liability is limited under the Act to monetary damages in a maximum amount of \$100 for each person, \$300 for each single occurrence for bodily injury or death, and \$100 for each single occurrence for injury to or destruction of property. These liability limitations apply to claims and lawsuits covered by the Texas Tort Claims Act and do not apply to other types of claims and lawsuits, including, among others, civil rights and employment related litigation.

As to litigation or other proceedings pending, or to its knowledge, threatened in any court, agency or other administrative body (either state or federal) that are not specifically disclosed in the these footnotes, the District intends to vigorously defend these matters and pursue its counterclaims, if any. Furthermore, as to such matters the District is either currently unable to estimate the ultimate aggregate amount of monetary gain, loss or financial impact of these matters, or does not currently believe these proceedings will have a material adverse impact; provided, however, adverse resolution of these actions and counterclaims could have a material adverse effect on the District's business, financial condition or results of operations.

In response to a *qui tam* lawsuit filed in March 2010 alleging that the District had submitted certain claims for payment relating to the provision of physical medicine and rehabilitation services that were impermissible under then applicable Medicare and Medicaid program billing regulations, the District entered a settlement agreement in May 2013 with the United States of America, acting through the United States Department of Justice and on behalf of the Office of Inspector General (OIG-HHS) of the United States Department of Health and Human Services, and the State of Texas. Under the settlement agreement, the District paid \$1,400 to settle the allegations and entered into a five-year Corporate Integrity Agreement (CIA) with the OIG-HHS. Under the CIA, among other things the District agreed to (1) implement corrective action to improve systemic performance in compliance, ethics, clinical quality and patient safety; (2) measure, analyze, and track quality indicators, including adverse patient events, and implement written policies and procedures designed to ensure the District's compliance with the federal healthcare program requirements on

#### September 30, 2016 (in thousands of dollars)

# XII. DALLAS COUNTY HOSPITAL DISTRICT (Continued)

billing and reimbursement; (3) engage an outside monitoring organization to review the District's submission of claims for reimbursement from federal healthcare programs; and (4) engage an outside monitoring organization to review the District's clinical quality systems. Under the CIA, if the District fails to comply with its provisions, the District is entitled to notice of such non-compliance from the OIG-HHS and an opportunity to cure any alleged non-compliance. The CIA also contains provisions for imposition of monetary penalties for any non-compliance that is not timely cured by the District. Further, for any material breaches of the CIA that are not cured by the District, the CIA provides that the District could be excluded from participation in the Medicare and Medicaid programs, but the CIA also contains dispute resolution provisions for any proceeding seeking to exclude the District from participation in the Medicare and Medicaid programs for non-compliance.

As of September 30, 2016, the District had commitments outstanding of approximately \$25,800 related to construction of Parkland.

#### Long-Term Debt

In 2009, the District issued three series of Dallas County Hospital District Limited Tax Bonds (Bonds), with a total principal amount of \$705,000. Payment of principal and interest on the Bonds is supported by ad valorem tax revenue. The Bonds are rated AA by Standard & Poor's and AA+ by Fitch.

Tax-Exempt Series 2009A Bonds were issued with stated fixed interest rates ranging from 3.00% and 5.00%. These bonds matured from August 15, 2015 to August 15, 2016.

Taxable Series 2009B Bonds were issued, with a total principal amount of \$222,500 in accordance with provisions of the Build America Bonds program. These bonds bear interest at fixed interest rates ranging from 4.9% to 6.2% and mature from August 15, 2020 through August 15, 2034. The Taxable Series 2009B Bonds are subject to redemption prior to maturity on August 15, 2019 or on any date thereafter, in whole or in part, at the option of the District, at the par amount plus any accrued interest.

Taxable Series 2009C Bonds were issued, with total principal amount of \$457,700, in accordance with provisions of the Build America Bonds program and bear interest at fixed interest rates ranging from 4.1% to 5.6%. These bonds mature from August 15, 2017 through August 15, 2044. The Taxable Series 2009C Bonds are subject to make-whole redemption prior to maturity at any time, in whole or in part, at the option of the District, at the greater of (i) the issue price of the principal amount redeemed, or (ii) the sum of the present value of the remaining scheduled payments of principal and interest at the Treasury Rate plus 25 basis points plus accrued interest.

The Tax-Exempt Series 2013 Bonds bear interest at stated fixed interest rates between 4.0% and 5.0%, and mature from August 15, 2018 to 2038. The Series 2013 Bonds, with stated maturities on and after August 15, 2024, are subject to redemption prior to maturity on August 15, 2023 or on any date thereafter, in whole or in part, at the option of the District, at the par amount plus any accrued interest. Payment of principal and interest on the Series 2013 Bonds is supported by parking revenues up to \$3,000 annually and by a tax levy for required debt service payments above \$3,000.

Interest costs totaled \$41,000 for fiscal 2016. Of total interest costs, \$41,000 was expensed in 2016.

# XIII. NEW ACCOUNTING PRONOUCEMENTS

GASB Statement No. 73 - Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of

#### September 30, 2016 (in thousands of dollars)

GASB Statements 67 and 68. The statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, Accounting and Financial Reporting for Pensions, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also amends certain provisions and pensions that are within their respective scopes. The requirements of this statement are effective for financial statements for reporting periods beginning after June 15, 2016, except those provisions that are not within the scope of Statement 68, which are effective for fiscal years beginning after June 15, 2016.

GASB Statement No. 74 – Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. The statement replaces Statements No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, as amended, Statement 43, and Statement No. 50, Pension Disclosures. The requirements of this statement are effective for financial statements for reporting periods beginning after June 15, 2016.

GASB Statement No. 75 – Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans. The requirements of this statement are effective for financial statements for reporting periods beginning after June 15, 2017.

GASB Statement No. 76 – *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments.* The statement supersedes Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments.* The requirements of this statement are effective for financial statements for reporting periods beginning after June 15, 2016.

GASB Statement No. 77 – *Tax Abatement Disclosures*. The statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements:

- Brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients.
- The gross dollar amount of taxes abated during the period.
- Commitments made by a government, other than to abate taxes, as part of a tax abatement agreement.
- The requirements of this statement are effective for financial statements for reporting periods beginning after December 15, 2016.

#### September 30, 2016 (in thousands of dollars)

## XIII. NEW ACCOUNTING PRONOUNCEMENTS (Continued)

GASB Statement No. 78 – Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans. The statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). The statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have these characteristics. The requirements of this statement are effective for financial statements for reporting periods beginning after December 15, 2016.

GASB Statement No. 80 – Blending Requirements for Certain Component Units – An Amendment of GASB Statement No. 14. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, Determining Whether Certain Organizations Are Component Units. The requirements of this statement are effective for financial statements for reporting periods beginning after June 15, 2016.

GASB Statement No. 81 – *Irrevocable Split-Interest Agreements*. This Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.

Split-interest agreements are a type of giving agreement used by donors to provide resources to two or more beneficiaries, including governments. Split-interest agreements can be created through trusts or other legally enforceable agreements with characteristics that are equivalent to split-interest agreements in which a donor transfers resources to an intermediary to hold and administer for the benefit of a government and at least one other beneficiary.

This Statement requires that a government that receives resources pursuant to an irrevocable splitinterest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period.

The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively.

GASB Statement No. 82 – Pension Issues – An Amendment of GASB Statements No. 67, No. 68, and No. 73. This Statement is to address certain issues that have been raised with respect to Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related

## September 30, 2016 (in thousands of dollars)

## XIII. NEW ACCOUNTING PRONOUNCEMENTS (Continued)

Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017.

GASB Statement No. 83 – *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018.

Management is in the process of determining the impact and application of these statements.

## **DALLAS COUNTY, TEXAS**

#### Notes to Schedules of Revenues, Expenditures and Changes in Fund Balances -Budget and Actual (Unaudited)

#### **September 30, 2016**

**Budgetary information** – The budget is prepared in accordance with financial policies approved by the County Budget Director and the Commissioners Court following a public hearing. The Budget Director is required by policy to present Commissioners Court with a balanced budget that contains a no-tax increase assumption as a starting point for budget discussions. The adopted budget must contain a projected unreserved cash balance not less than 10.5% of budgeted expenditures and may utilize a drawdown of beginning balance only to the extent that such draw-down does not exceed 4% of total General Fund resources. The amounts budgeted in a fiscal year for expenditures in various funds may not exceed the balances in those funds as of the first day of the fiscal year plus any anticipated revenue for the fiscal year as estimated by the County Auditor.

The following are the funds that have legally adopted annual budgets prepared on a basis consistent with GAAP (with the exception of budgeting for reserves): General Fund, Debt Service Fund and Special Revenue Funds (except for District Attorney funds and Judicial, Technology, Local Government, Local Official, and Record Management Funds). Project-length financial plans are adopted for Capital Projects Funds. Budget funds are allocated annually for Major Project funds in accordance to long-term requirements and projections.

- Tax rates are established and approved annually for budgeted funds per policy.
- General fund projected unallocated fund balance equal to or greater than 10.5% of budgeted expenditures.
- Permanent Improvement fund dedicated tax rate of 0.18 cents per \$100 valuation.
- Major Technology fund dedicated tax rate of 1.56 cents per \$100 valuation.
- Major Capital Development fund dedicated tax rate of 4.5 cents per \$100 valuation plus 0.655 cents (for utilities) per \$100 valuation less Debt Service fund requirements.
- Debt Service fund calculated requirement using current principle and interest payments plus 10.5% reserve balance and compliance with IRS regulations.

Budget laws of the State of Texas provides that "the amounts budgeted for current expenditures from the various funds of the County shall not exceed the balances in said funds plus the anticipated revenues for the current year for which the budget is made as estimated by the County Auditor." In addition, the law provides that the Commissioners Court "may, upon proper application, transfer an existing budget surplus during the year to a budget of like kind and fund but no such transfer shall increase the total budget."

Each year, all departments submit to the Budget Director requests for appropriation. These requests are reviewed, compiled and presented to the Commissioners Court for approval. The Commissioners Court conducts departmental budget reviews, adjusts budget requests to final form and conducts a public hearing in the County Administration Building. One copy of the proposed budget must be filed with the County Clerk and one with the County Auditor. Copies must be available to the public. The Commissioners Court must provide for the public hearing on the budget on some date within seven calendar days after the filing of the budget and prior to October 31 of the current fiscal year.

The County controls appropriations at the category level (i.e., salaries, allowances, operations and property) for each department or project within the General Fund and some of the Special Revenue Funds. Grants are budgeted in total and not at the category level. All Debt Service Fund expenditures for principal and interest on long-term debt are considered to be in the operations category. Certain appropriation transfers may be made between categories or departments only with the approval of the Commissioners Court. Other transfers (e.g. court costs) may be authorized by the Budget Director.

#### **DALLAS COUNTY, TEXAS**

#### Notes to Schedules of Revenues, Expenditures and Changes in Fund Balances -Budget and Actual (Unaudited)

#### **September 30, 2016**

Transfers that were made during the current fiscal year 2016 did not increase the County's overall budget. Unencumbered amounts for annually budgeted funds lapse at fiscal year-end. The original budgets inclusive of prior period encumbered funds presented in the report are the approved budgets before amendments and transfers. The final budgets presented in this report reflect the budgets as amended for all appropriation transfers processed during the fiscal year. More comprehensive accounting of activity on the budgetary basis is provided in a separate report, which is available for public inspection in the office of the Dallas County Auditor, 1201 Elm Street, Suite 2300, Dallas, Texas 75270.

#### Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund, Special Revenue Funds and Capital Projects Funds. General Fund encumbrances outstanding at year-end are constrained by a responsible official's request for a specific purpose and are reported in the General Fund Assigned Fund Balance.

## Roads

A federal highway administration pavement condition rating (PCR) was utilized to assess the condition of the 112.260 lane miles of County roads. County lane miles were reduced by 7.886 miles due to annexation during 2016. District 1 does not have any County roads. The County policy is to maintain roads at a minimum of 2.5 on a 4.0 scale. The following conditions were defined and associated to a rating:

| Condition | Rating |
|-----------|--------|
| Excellent | 4      |
| Good      | 3      |
| Fair      | 2      |
| Poor      | 1      |

Percentage of Roads with 2.5 or better condition:

## **Road and Bridge**

| District                  | 2016  | 2015  | 2014  | 2013  | 2012  |
|---------------------------|-------|-------|-------|-------|-------|
| District 1 <sup>(1)</sup> | -%    | -%    | -%    | -%    | -%    |
| District 2                | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 |
| District 3                | 97.8  | 97.9  | 97.5  | 97.9  | 97.9  |
| District 4                | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 |
| Overall System            | 99.3  | 99.3  | 99.2  | 99.3  | 99.3  |

Comparison of estimated to actual maintenance costs:

|           | 2016      | 2015   | 2014   | 2013   | 2012   |
|-----------|-----------|--------|--------|--------|--------|
| Estimated | \$<br>950 | \$ 901 | \$ 937 | \$ 937 | \$ 924 |
| Actual    | 2,013     | 1,431  | 1,280  | 1,397  | 1,717  |

<sup>(1)</sup> District 1 does not have any lane miles of County roads.

### Bridges

|           | Rating    | Number | 2016 | 2015 | 2014 | 2013 | 2012 |
|-----------|-----------|--------|------|------|------|------|------|
| Very Good | 6.0 - 9.0 | 24     | 100% | 100% | 100% | 100% | 97%  |
| Good      | 4.0 - 5.9 | 2      | -    | -    | -    | -    | 3    |
| Fair      | 3.0 - 3.9 | -      | -    | -    | -    | -    | -    |
| Poor      | 0.0 - 2.9 | -      | -    | -    | -    | -    | -    |
|           |           | 26     | 100% | 100% | 100% | 100% | 100% |

The condition of the County's bridges is determined using the State of Texas Bridge Inventory Inspection System (BRINSAP). A numerical condition range 0.0 (poor) to 9.0 (very good) is used to assess each of seven elements of the structure. These include deck, substructure, superstructure, channel, culvert, approaches, and miscellaneous items.

There was no change in the County's bridge inventory for 2016.

County's policy is to maintain bridges at the 4.0 - 5.9 level. Consistent with County policy, the above chart shows that 100% of the County's bridges are in very good condition.

Comparison of estimated to actual maintenance costs:

|           | 2016        | 2015     | 2014     | 2013     | 2012     |
|-----------|-------------|----------|----------|----------|----------|
| Estimated | \$<br>1,098 | \$ 1,100 | \$ 1,093 | \$ 1,067 | \$ 1,380 |
| Actual    | 218         | 861      | 409      | 196      | 1,526    |

# SUPPLEMENTARY INFORMATION

### DALLAS COUNTY, TEXAS NON-MAJOR GOVERNMENTAL FUNDS

### **Special Revenue Funds**

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects funded by bond sales) that are legally restricted to expenditures for specified purposes. The following are the County's Special Revenue Funds:

<u>Road and Bridge Fund 105</u> - used to account for the receipt and disbursement of funds designated for construction and maintenance of County roads and bridges other than specific improvement programs for which road bonds are issued.

<u>Permanent Improvement Fund 126</u> - receives an allocation of property taxes for building maintenance and construction of permanent improvements.

<u>Law Library Fund 470</u> - used to account for a statutory fee from each civil case filed in a County or District Court that is restricted to the establishment and maintenance of a law library for the use of the judges and litigants of the County.

<u>Major Technology Fund 195</u> - used to account for monies received from property taxes that are dedicated to improvement of the County's computer systems.

<u>District Attorney Fund 535</u> - HIDTA/Federal Sharing – used to account for funds from participation in the Dallas Area "High Intensity Drug Traffic Area."

<u>District Attorney Special Fund 538</u> - used to account for funds to be used at the discretion of the District Attorney.

<u>District Attorney Forfeiture Funds 540, 541 and 547</u> - used to account for money and property forfeited in criminal seizures. Funds are to be used for criminal justice.

<u>Historical Commission Fund 168</u> - used to account for donations and other funds received for the preservation of historical landmarks.

Historical Exhibit Fund 169 - used to account for proceeds from the John F. Kennedy Sixth Floor Exhibit.

<u>Alternative Dispute Resolution Fund 162</u> - used to account for filing fees imposed on civil court cases for the purpose of funding a system for the peaceable and expeditious resolution of citizen disputes.

<u>Appellate Justice System Fund 471</u> - used to account for fees collected on civil cases filed in the County for the purpose of assisting the court of appeals, including costs incurred by a county within the judicial district.

HUD Section 8 Fund 467 - used to account for federal awards from HUD for Section 8 activity.

Academy for Academic Excellence Fund 468 - used to account for Academy for Academic Excellence.

<u>Judicial Fund 200</u> - used to account for statutory fees from criminal and civil court filings in County and District Courts restricted to projects for judiciary as approved by Commissioners Court.

<u>Technology Fund 201</u> - used to account for fees from each civil case filed in Justice Courts restricted for the use of technology projects for the Justice Courts.

### DALLAS COUNTY, TEXAS NON-MAJOR GOVERNMENTAL FUNDS

<u>Local Government Fund 202</u> - used to account for a statutory fee and earnings that are restricted for the use of elections, transportation and other projects as defined by statute.

<u>Local Official Fund 203</u> - used to account for money and property forfeited in criminal seizures restricted for use by County Sheriff, Constables and Special VIT interest managed by the County Assessor–Collector of Taxes.

<u>Record Management Fund 204</u> - used to account for monies received from each civil case filed in County or District Courts restricted to manage, preserve or digitize County records.

### **Capital Project Fund**

The Capital Project Fund is used to account for proceeds from bond issues specifically designated for capital expenditures. The following is the County's Capital Project Fund:

<u>Road Bond Funds 414, 418, 424, 427, 481, 490, 492 and 494</u> - used to account for proceeds from bonds issued for the purchase of right-of-way and for the subsequent construction and maintenance of roads and bridges throughout the County.

# FIDUCIARY SECTION

### DALLAS COUNTY, TEXAS FIDUCIARY FUNDS – ALL AGENCY FUNDS

Agency Funds are used to account for assets held by the County in an agency capacity for individuals, private organizations, other governmental units and/or other funds. The following are the County's Agency Funds:

<u>Administrative Escrow (Fund 532)</u> - used to account for miscellaneous amounts temporarily held for other individuals or entities outside control of Commissioners Court.

<u>Sheriff Inmate Funds (Fund 515)</u> - used to account for monies held in trust for individuals in County custody.

<u>State Reports (Fund 166)</u> - used to account for State fees collected by the County and subsequently disbursed to the State.

<u>County Clerk, District Clerk, Sheriff, Justices of the Peace and Constables Fee Funds (Funds 501-506, 580-587)</u> - used to account for monies received with ultimate disposition of receipts to be determined at a future date.

<u>Community Supervision and Corrections (Fund 128)</u> - used to account for the activities of a State agency with funds in the County depository.

Housing Finance Corporation - 1993 Refunding (Fund 570) - used to account for monies received as a result of refunding of 1983 Mortgage Revenue bonds issued by HFC.

<u>Juvenile Department Child Support (Funds 802-808)</u> - used to account for money held for other parties in the child support program in accordance with court orders.

Housing Finance Corporation - 1994 Refunding (Fund 571) - used to account for monies received as a result of refunding 1984 Mortgage Revenue Bonds issued by HFC.

<u>Community Supervision and Corrections Special (Fund 543)</u> - used to account for the receipt and distribution of restitution payments made by probationers.

<u>Youth Village (Fund 537)</u> - used to account for donated money to be used for the benefit of youths temporarily housed in the facility.

<u>Tax Assessor-Collector (Fund 704)</u> - used to account for initial receipt and distribution to proper parties of taxes and fees collected for various entities of government.

<u>Police Agencies Seized Funds (Fund 542)</u> - used to account for seized monies awaiting judicial determination for local police agencies.

<u>Attorney General Seized Funds (Fund 544)</u> - used to account for seized monies awaiting judicial determination for the Texas Attorney General.

Notes:

Notes:
(1) Some purchases that have met the County's capitalization threshold are classified as current expenditures at the functional level; these purchases are excluded from capital outlay expenditures.
(2) The amount of capital expenditures on page 46 of the Notes to the Basic Financial Statements and referenced on page 54 includes capital expenditures recorded within functional expenditure categories and Capital Outlay expenditures noted in (1) which meet the County's capitalization threshold.
(3) In FY 2011, the County reclassified \$8,221 from Charges for current services to Licenses and permits. This classification has been applied going forward.

Source: Dallas County Tax Assessor-Collector.

Note (1) Assessed values shown in this table includes rolling stock and amounts allowed for all exemptions. The Dallas County Commissioners Court approved the greater of 20% or \$5,000 allowance for homestead exemptions for all taxpayers. The Dallas County Commissioners Court approved an additional \$69,000 allowance for homestead exemptions for taxpayers of age or older. The approved allowance for disabled veterans is \$5,000 for disabilities of 10% but less than 30%, \$7,500 for disabilities of 30% but less than 50%, \$10,000 for disabilities of 50% but less than 70%, and \$12,000 for disabilities 70% or more.

Note (2) The differences between assessed value and estimated true value are the result of property items whose values were in dispute at the time of certification of values by the Appraisal District.

Note (3) Effective January 1, 2008 the Dallas County Commissioners Court approved a deferral on the total taxes imposed by the County on property held by disabled and 65 or older homeowners.

Note (4) The assessment date is January 1.

Source: Dallas County Financial Records.

Notes: (a) Current fiscal period collections are those collected between October 1 and September 30.

(b) Delinquent taxes include taxes collected in subsequent fiscal years.

(c) Total levy as of the last supplement processed during the fiscal year.

(d) Collections on the 2016 tax roll are incomplete until the end of the fiscal year, September 30, 2017.

(e) Tax collections exclude TIF payments and are reported net of commission for the office of the Tax Assessor-Collector.

(f) Original levy excludes property under protest which is subsequently added to tax rolls as a result of arbitration.

(g) Tax levies include Dallas County and its component unit. Refer to Table 7 for tax levies and tax rates for Dallas County and its component unit.

Taxes due: October 1

Taxes delinquent: February 1 year following levy

Tax lien and assessment date: January 1 year of levy

Taxes added to delinquent roll: April 1 (for personal property) or July 1 (for real property) in the year following levy

Delinquent tax penalty and interest:

February of delinquent year - 6% penalty plus 1% interest

March of delinquent year - 7% penalty plus 2% interest

April of delinquent year - 8% penalty plus 3% interest

May of delinquent year - 9% penalty plus 4% interest

June of delinquent year - 10% penalty plus 5% interest

After July 1 of delinquent year - 12% penalty plus 1% interest per month delinquent

Note: This schedule was prepared starting in 2005; prior fiscal years are not applicable. The George Allen parking garage was opened March 19, 2007, and the parking garage system revenues are available to service the Debt Service fund requirements.

- (1) Operating expenses from fiscal year 2008 forward include expenses for Founders Plaza and George Allen parking garage systems.
- (2) Funds on deposit in sinking fund in addition to net available revenue provide adequate coverage in compliance with bond covenants.
- (3) Debt service is net of amounts attributable to advance refunded debt.
- (4) Total resources decreased due to parking garage debt was paid in full in FY 2014.
- (5) On September 15, 2016, the County issued debt for which net revenues of \$1 from certain parking operations are pledged. Debt service commences February 15, 2017

Source:

1) The North Texas Commission was used for population estimate for all years except in 2010 and 2014 (ntc-dfw.org/ntpoppopest.html). For years 2010 & 2014-2016, the US Census Bureau population figure was used (http://quickfacts.census.gov).

2) For 2007 and 2008, personal income was estimated using CPI figures based on the

South-Urban region, and for years after 2008, personal income is estimated using CPI South Urban -Dallas-Fort Worth, TX figures available from the U.S. Department of Labor. (http://www.bls.gov/cpi/#data)

3) Texas Workforce Commission LMI Tracer (www.texasindustryprofiles.com/apps/win/eds.php)was used for amounts through Fiscal Year 2012. For fiscal years 2013 and on, LWDA Wages figures are used (www.texaswages.com).

4) U.S. Census Bureau - ACS Survey (factfinder.census.gov) for Dallas County, TX.

5) Dallas Independent School District Financial Report

6) U.S. Department of Labor (Bureau of Labor Statistics) for Dallas metropolitan area through 2008, and after 2008, for Counties and equivalents: Dallas County, Texas. (http://www.bls.gov/lau/data.htm)

### Note:

(a) The 2016 figure is not available; 2015 figure used.

(b) For year 2007, unemployment figures were reported as an annual average. For years subsequent to 2007, the unemployment rate is reported using the September rate.

Sources: Dallas County Financial Records

Note (1): Truancy courts established April 2004. Dallas County currently operates four Truancy courts.

(2): In thousands of dollars.

(3): Dallas County switched most short term investments to TexPool in FY 2009. The method resulted in a dramatic decrease in overall transactions as investments are not matured and reinvested daily.

(4): In 2012, includes 38 positions funded by the Records Management Fund. The positions were paid by general fund in FY 2013.

(5): Civil Process served by Sheriff cannot be determined at this time

(6): County Treasurer's office implemented a new policy for rolling over investments in which investments are recorded monthly. Past years encompassed rolling investments daily

Source: Operating Indicators were provided by the various operating departments.

Notes:

- (a) Includes a demolished (FY 07) building. The land was used to construct a new County building (Forensic Science).
- (b) Forensic building completed in 2008 but not put into use until 2011 due to construction issues.
  (c) Building purchased for record storage in January 2013.

(d) Building reduction due to the swap of Auto Service Center Building for future location.

(e) George Allen Jail is depopulated.

(c) See infrastructure assets for more information; pages 100-101.(g) Building reduction due to the sale of the Juvenile Administration/ Detention Building.

(h) Budget ramifications and re-structuring of internal programs reduced number of juvenile beds.
