# DALLAS COUNTY MANAGEMENT REPORT

# VOLUME IV JUVENILE RECIDIVISM

FISCAL YEAR ENDING SEPTEMBER 30, 2002

4-2002

PREPARED BY:

DALLAS COUNTY JUVENILE DEPARTMENT

#### Quarterly Report On Juvenile Justice System Recidivism Measures

### **Table Of Contents**

### I. Executive Summary

#### II. Texas Youth Commission

- 2.0 Narrative and Index to Data
- 2.1 Summary of Available Data
- 2.2 Releases in 1998
- 2.3 Releases in 1999

#### III. Dallas County Youth Village

- 3.0 Narrative and Index to Data
- 3.1 Summary of Available Data
- 3.2 Successful Discharges in 1998
- 3.3 Successful Discharges in 1999

#### IV. Medlock Treatment Center

- 4.0 Narrative and Index to Data
- 4.1 Successful Discharges in 1999

#### V. Contract Residential Placement

- 5.0 Narrative and Index to Data
- 5.1 Summary of Available Data
- 5.2 Successful Discharges in 1998
- 5.3 1998 Successful Discharges by Facility
- 5.4 Successful Discharges in 1999
- 5.5 1999 Successful Discharges by Facility

## VI. Intensive Supervision Probation

- 6.0 Narrative and Index to Data
- 6.1 Summary of Available Data
- 6.2 Intensive Supervision during First Quarter of 1999
- 6.3 Intensive Supervision during First Quarter of 2000
- 6.4 Intensive Supervision during Third Quarter of 2000

## VII. Regular Home Probation

- 7.0 Narrative and Index to Data
- 7.1 Summary of Available Data
- 7.2 Home Probation during First Quarter of 1999
- 7.3 Home Probation during First Quarter of 2000
- 7.4 Home Probation during Third Quarter of 2000

#### **VIII.** Deferred Prosecution

- 8.0 Narrative and Index to Data
- 8.1 Summary of Available Data
- 8.2 Deferred Prosecution during First Quarter of 1999
- 8.3 Deferred Prosecution during First Quarter of 2000
- 8.4 Deferred Prosecution during Third Quarter of 2000

## IX. Supervisory Caution

- 9.0 Narrative and Index to Data
- 9.1 Summary of Available Data
- 9.2 Supervisory Caution during First Quarter of 1999
- 9.3 Supervisory Caution during First Quarter of 2000
- 9.4 Supervisory Caution during Third Quarter of 2000

## **Executive Summary**

This report presents six-month recidivism rates for referrals that were disposed of during the third quarter of 2000, including intensive supervision (ISP), regular home probation (HP), deferred prosecution (DP), and supervisory caution (SC). Twelve months recidivism rates were also updated for those who were discharged during 1999 from Texas Youth Commission (TYC), Youth Village (YV), Contract Residential Placement (CRP), and Medlock Treatment Center. Data for other samples were also updated with 12- and 24-month recidivism rates.

# ISP, Home Probation, Deferred Prosecution, and Supervisory Caution

Some patterns in offender profiles and recidivism rates are clear for those supervised in the community, which are shown in the charts on this page.

#### Changes in Offense Profiles

- Offense profiles for the HP groups show a gradual but clearly noticeable decline throughout the period. The lowest point of 1.6 in the second quarter of 2000 represents a decline of 33 percent compared to the highest point of 2.4 in the second quarter of 1995.
- Offense profiles for SC and DP groups have remained at relatively similar levels since 1995.
- No clear trend is apparent for ISP samples although their profiles have fluctuated within a wide range.

#### Changes in Recidivism Rates

- Total recidivism rates, which include all types of re-referrals, do not show clear trend for any group throughout the period.
- Delinquent recidivism rates, which exclude technical violations and CINS offenses, show different trends for different groups. DP has maintained a low level around 10 percent in

#### Six-Month Total Recidivism Rates

#### **Average Number of Delinquent Referrals**

Note: Quarterly Data for ISP is available since Q1 96.

- recent periods compared to over 15 percent during 1995. HP samples reached a low of 12 percent in the second quarter of 1999 but have started to rise since, despite a downward trend in offender profiles during the same period.
- There is no apparent correlation, at least within six months from disposition, between prior referral history and delinquent recidivism rates. For example, although the prior referrals of ISP groups have always been significantly higher than those of HP, they have often experienced delinquent recidivism rates that are similar to or even lower than those for HP groups. While SC samples have consistently had the lowest number of prior referrals, often times their delinquent recidivism rates

are the highest among the groups. Only the DP samples appear to have maintained their recidivism rates at a level that consistently reflects its lower profile in comparison to HP and ISP.

## TYC, Youth Village, Contract Placement, and Medlock

There are certain noticeable trends in both the offender profiles and recidivism rates for the placement samples in this report.

#### Offense Profiles

- For both YV and CRP samples, the average number of prior delinquent referrals continues to decline in 1999, as shown in the chart at right. While it dropped slightly by 6 percent for YV 99 compared to 1998 (3.35 vs. 3.56), the relative drop for the CRP 99 sample was a substantial 24 percent (2.37 vs. 3.11).
- For those released from TYC, however, the number of prior referrals has been rising since 1996.

We also noted strong correlations between recidivism rates and offense profiles, particularly for the YV and CRP samples. With prior history on the horizontal axis and 12-month delinquent recidivism rates on the vertical axis, the chart at right shows their close relationship as represented by the dotted straight line. This relationship exists for both total and delinquent recidivism rates, although more pronounced for delinquent recidivism.

#### Recidivism Rates

In light of the strong correlations between offense profiles and recidivism rates, some clear patterns in recidivism rates can be summarized as follows:

- Although 12-month delinquent recidivism for CRP in 1999 dropped by a substantial 45 percent, from 38 percent in 98 to 20 percent, a large portion of the decline can be attributed to the corresponding decline in its offender profile.
- The recidivism trend for TYC samples diverges noticeably from the profile-recidivism correlations noted above; i.e., despite the gradual rise in prior referrals, recidivism rates for recent TYC samples continue to decline.
- While total recidivism rate for Medlock was higher than that for YV (56 vs. 46 percent respectively), its delinquent recidivism rate is slightly lower than YV, at 34 and 38 percent respectively. Offender profiles for the two groups are virtually the same.

#### Avg # of Prior Delinq. Referrals

Note: Data for Medlock available only in 1999

#### Correlations Between Prior Referrals and Recidivism Rates

Avg. Prior Delinq. Referrals

#### 12-Months Deling. Recidivism

| DALLAS COUNTY JUVENILE DEPARTMENT RECIDIVISM TRACKING PROGRAM |                               |          |          |  |  |  |  |  |
|---|-------------------------------|----------|----------|--|--|--|--|--|
| SAMPLE  | Lyle Medlock Treatment Center | PAGE NO. | 4.0      |  |  |  |  |  |
| MEASURE   | NARRATIVE AND INDEX TO DATA   | DATE     | 09/30/01 |  |  |  |  |  |

Lyle Medlock Treatment Center is a 96-bed secure treatment facility with four treatment modules. The four modules during the cover period of the report are substance abuse (CSCS), boot camp (CSCB), level 4 residential treatment (CSC4) and level 5 residential treatment (CSC4); level 5 program has since been replaced by a 90-day short term program.

#### Offense profile of the samples:

| MEASURE   | NARRATIVE AND INDEX TO DATA | DATE     | 09/30/01 |  |  |  |  |  |

This measure tracks juveniles who are diverted from formal court action to the Juvenile Department Deferred Prosecution program. The program offers a wide range of educational, therapeutic, and recreational services through Department programs and community service providers. Services or supervision are normally provided for four to six months.

| MEASURE | NARRATIVE AND INDEX TO DATA                                     | DATE     | 09/30/01 |

This measure tracks juveniles who are diverted from formal court action to the Juvenile Department Supervisory Caution program. Youths under this program are mostly referred for CIN offenses such as runaway and truancy, or more serious offense with mitigating circumstances. Counseling services, short-term non-residential or outpatient based, are provided as early intervention measures.
