Metrics & Performance Data

Registered Nurse II

This position is considered "High" priority since the position will support the proposed South Dallas Satellite Clinic operations as detailed below. DCHHS is requesting this position be transitioned from ARP to General Fund since it is relatively difficult to recruit & retail good nursing staff.

Background

Based on the CHNA data identified in 2016 and 2019 there is a significant level of health disparity caused due to the various social determinants such as economic instability, low literacy rates, social ills and above all inaccessibility to proper healthcare in the Southeast sector of Dallas County. This effort to ensure that residents of that area will have improved healthcare access to address social determinants of health and achieve better health outcomes.

The clinic will provesting, diagnosis, health.
