December 2023 Newsletter

As we wrap up 2023, I want to thank you for your support throughout the years. Not only for electing me to represent you, but also for working with me to make Dallas County better for our children, our elders,

our hard-working residents, and our volunteers. We have come a long way, but we still have work to do. I am happy and proud to know that we are headed in the right direction for a wonderful and successful coming year. I send you my best wishes for a joyful, peaceful, and safe holiday season!

-Dr. Elba Garcia-

Let's Keep Dallas County Safe with ZERO DWI incidents during this holiday season!!! This year the Dallas County DWI Taskforce, which I chair, is partnering with Lyft, 24HourDallas, Methodist Dallas Health Center, MADD and AAATexas to ensure that no one is affected by the poor choices of drunk drivers.

I am excited to share with you some highlights of our very successful 2023 Dallas County DWI Press Conference. As you know, every year, I invite local representatives to join me in spreading DWI awareness in hopes that our communities are safe during the holidays since it is the time of the year with higher incidents. Thank you to our speakers: DA John Creuzot, Dr. Phillip Huang, Chief Ely Reyes, Dr. Joseph Amos, Bryan Tony, Daniel Armbruster and our special guest speaker DJ who is a victim of a DWI driver.

PLEASE DO NOT DRIVE DRUNK!!!! Have a Happy and Safe Holiday Season!!!

Join Our Efforts to Build a Sustainable Dallas County!

I want to express my heartfelt appreciation for your support and allowing me to serve you on the Dallas County Commissioners Court. Our collective efforts have brought great progress to our community, and I am eager to continue building a brighter future. Our achievements in transportation and trail expansion are exciting, and I am dedicated to more progress as we continue forward. In addition, I am excited to share the impressive green initiatives I am spearheading in Dallas County:

- **Electric vehicles:** Our county has embraced EVs and is actively expanding charging infrastructure, making sustainable transportation a reality.
- **Eco-friendly facilities:** We're dedicated to using low VOC products, water-saving technologies, and energy-efficient LED lighting in our buildings.
- **Solar power:** We're exploring solar technology to power our facilities, reducing our environmental impact.
- **LEED certifications:** Committing to the highest environmental standards in our developments, several buildings have already achieved LEED certification with more to come.
