\(^{(1)}\) The interest on the proposed bonds was estimated at a rate of 4.00% based on market conditions as of February 2, 2021, and therefore, the interest payable on the proposed bonds may be less than, or more than, the amounts set forth above based on market conditions at the time of sale of the proposed bonds.

Based on the information and assumptions provided in the table above, the estimated maximum annual increase in the amount of taxes that would be imposed on a residence homestead in the City with a taxable appraised value of $100,000 to repay the proposed bonds, if approved, is $0.00. This estimate assumes annual growth of the City's taxable assessed valuation at a rate of 0% in tax year 2022, with incrementally smaller assumed growth rates through starting in year 2023 with a 2% per year growth in taxable assessed valuation constant thereafter. The Bonds are intended to be issued in a manner that will produce relatively consistent levels of debt service in each year.
