

**FOR IMMEDIATE RELEASE**

**March 24, 2022**

**Dallas County Reports a Total of 530 New Positive 2019 Novel Coronavirus (COVID-19) Cases and 12 Deaths, Including 185 Probable Cases**

**DALLAS** -- As of 12:00 pm March 24, 2022 Dallas County Health and Human Services is reporting 530 additional positive cases of 2019 novel coronavirus (COVID-19) in Dallas County, 345 confirmed cases and 185 probable cases. There is a cumulative total of 474,944 confirmed cases (PCR test). There is a cumulative total of 102,314 probable cases (antigen test). A total of 6,201 Dallas County residents have lost their lives due to COVID-19 illness. The daily report of cases is based on when information is received and processed by DCHHS. While staff works through a backlog of cases, the most up-to-date information on the average number of daily cases based on test date can be found on the dashboard of COVID-19 cases listed on <http://www.dallascountycovid.org/>. The current seven day trailing average is 55 new reported cases per day.

Dallas County Health and Human Services (DCHHS) provided more than 500,000 total doses of COVID-19 vaccine at the Fair Park mega-vaccine clinic, which operated January 11 through July 17. A vaccination clinic is open at the Dallas College Eastfield Campus Location on Thursdays – Saturdays from 9am-6pm. A weekly pop-up vaccination clinic will also take place at Fair Park on Tuesdays from 12:30pm-6pm and on Sundays, from 10am – 4pm.

The additional deaths being reported today include the following:

- A woman in her 50's who was a resident of the City of Dallas. She had been critically ill in an area hospital and had underlying high risk health conditions.
- A woman in her 60's who was a resident of the City of Garland. She had been critically ill in an area hospital and had underlying high risk health conditions.
- A man in his 60's who was a resident of the City of Dallas. He had been critically ill in an area hospital and had underlying high risk health conditions.
- A man in his 60's who was a resident of the City of Dallas. He had been hospitalized and had underlying high risk health conditions.
- A man in his 70's who was a resident of the City of Garland. He had been critically ill in an area hospital and had underlying high risk health conditions.
- A man in his 70's who was a resident of a long-term care facility in the City of Dallas. He had been critically ill in an area hospital and had underlying high risk health conditions.
- A man in his 80's who was a resident of the City of Sachse. He had been critically ill in an area hospital and had underlying high risk health conditions.
- A woman in her 80's who was a resident of a long-term care facility in the City of Coppell. She had been hospitalized and had underlying high risk health conditions.
- A man in his 80's who was a resident of the City of Dallas. He had been critically ill in an area hospital and had underlying high risk health conditions.
- A woman in her 80's who was a resident of the City of Irving. She had been critically ill in an area hospital and had underlying high risk health conditions.

- A man in his 80's who was a resident of the City of Rowlett. He expired in hospice and had underlying high risk health conditions.
- A woman in her 100's who was a resident of the City of Dallas. She had been hospitalized and had underlying high risk health conditions.

To date, a total of 1,830 cases with SARS-CoV-2 variants have been identified and investigated in residents of Dallas County, including: 162 cases of B.1.1.7 (Alpha); 4 cases of B.1.351 (Beta); 1,440 cases of B.1.617.2 (Delta); 14 cases of B.1.427 (Epsilon); 20 cases of P.1 (Gamma); 9 cases of B.1.526 (Iota); 4 case of C.37 (Lambda); 2 cases of B.1.621 (Mu); 174 cases of B.1.1.529 (Omicron); and 1 case of P.2 (Zeta). Three hundred and twenty-two cases have been hospitalized and 47 have died. Thirty COVID-19 variant cases were reinfections. Four hundred and seventy-nine people were considered fully vaccinated before infection with a COVID-19 variant.

As of 3/18/2022, a total of **386** confirmed and probable cases were reported in CDC week 10 (week ending 3/12/22), which is a weekly rate of **14.6** new cases per 100,000 residents.

As of the week ending 3/12/2022, about 81% of Dallas County residents age 12 years and older have received at least one dose of COVID-19 vaccine, including: 98% of residents age 65 years and older; 86% of residents between 40-64 years of age; 78% of residents 25-39 years of age; 67% of residents 18-24 years of age; and 62% of residents 12-17 years of age. In the cities of Addison, Coppell, Highland Park, Irving, and Sunnyvale, greater than 92% of residents 18 years of age and older have received at least one dose of COVID-19 vaccine. In the cities of Cedar Hill, Desoto, Farmers Branch, Garland, Lancaster, and University Park, greater than 80% of residents 18 years of age and older have received at least one dose of COVID-19 vaccine.

About 52.9% of COVID-19 cases diagnosed in Week 10 were Dallas County residents who were not fully vaccinated. In Dallas County, 39,031 cases of COVID-19 breakthrough COVID-19 infections in fully vaccinated individuals have been confirmed to date, of which 3,635 (9.3%) were hospitalized and 607 have died due to COVID-19.

Of all Dallas County residents tested for COVID-19 by PCR during the week ending 3/12/2022 (CDC week 10), **2.4%** of respiratory specimens tested positive for SARS-CoV-2. For week 10, area hospital labs have continued to report elevated numbers and proportions of respiratory specimens that are positive for other respiratory viruses by molecular tests: parainfluenza (2.75%), rhinovirus/enterovirus (33.15%) and RSV (2.16%).

There are currently 25 active long-term care facility outbreaks. A cumulative total of 6,431 residents and 4,362 healthcare workers in long-term facilities in Dallas have been diagnosed with COVID-19. Of these, 1,313 have been hospitalized and 894 have died. About 16% of all deaths reported to date have been associated with long-term care facilities.

There have been 3 outbreaks of COVID-19 in a congregate-living facility (e.g. homeless shelters, group homes, and halfway homes) reported within the past 30 days. A cumulative total of 840 residents and 295 staff members in congregate-living facilities in Dallas have been diagnosed with COVID-19.

New cases are being reported as a daily aggregate, with more detailed data dashboards and summary reports updated on Friday evenings, available at: <https://www.dallascounty.org/departments/dchhs/2019-novel-coronavirus/daily-updates.php>.

Local health experts use hospitalizations, ICU admissions, and ER visits as three of the key indicators as part of determining the COVID-19 Risk Level (color-coded risk) and corresponding guidelines for activities during our COVID-19 response. The most recent COVID-19 hospitalization data for Dallas County, as reported to the North Central Texas Trauma Regional Advisory Council, can be found at [www.dallascounty.org/covid-19](http://www.dallascounty.org/covid-19) under "Monitoring Data," and is updated regularly. This data includes information on the total available ICU beds, suspected and confirmed COVID-19 ER visits in the last 24 hours, confirmed COVID-19 inpatients, and COVID-19 deaths by actual date of death. The most recent forecasting from UTSW can be found [here](#). The most recent COVID-19 Data Summaries for Dallas County, TX can be found at the bottom of [this page](#).

“It's important to remember that we all have a role play to keep these numbers going down and to stay in the good place of more public health, safety, and freedom. Get your booster if you're eligible or get vaccinated if you've not already been vaccinated. Find a vaccine near you at [Vaccines.gov](https://www.vaccines.gov). Wear your mask when around the immunocompromised or in large indoor gathering where spacing and ventilation limitations could lead to an increase risk of exposure. If we'll do these simple things, we'll put our community in its best position to beat COVID-19,” said Dallas County Judge Clay Jenkins.
