DALLAS COUNTY, TEXAS
Minutes of the Behavioral Health Leadership Team Meeting
Thursday, April 9, 2026
<https://www.dallascounty.org/departments/criminal-justice/bhlt/>

Welcome and Call to Order

Commissioner John Wiley Price called the Behavioral Health Leadership Team (BHLT) meeting to order at 9:43 AM. Commissioner Price welcomed everyone and announced that the meeting was being recorded and those who continued in attendance were consenting to being recorded as a part of the open records.

The Commissioner present was Commissioner John Wiley Price. Commissioner Price entertained a motion for opening the meeting. A motion was made and seconded by another participant. The motion was unanimously passed by the committee members.

Review/Approval of Minutes

The minutes of the BHLT meeting held on Thursday, January 8, 2026, were included in the meeting packet. Commissioner Price offered an opportunity for the minutes to be reviewed and approved. The minutes were approved as submitted.

Introduction

Commissioner Price welcomed everyone to the meeting and asked first-time attendees to introduce themselves.

- Jackie Rakowski, CEO Child & Family Guidance Center
- Tate Ringer, Interim-CEO, Metrocare Services
- Dr. John Bennett, MD- Interim-CMO, Metrocare Services
- Traswell C. Livingston III- President & CEO, Home for Life (Formerly Aids Services of Dallas)
- Arlisa Hopkins, Parkland Community Health Plan

North Texas Behavioral Health Authority (NTBHA) Update

Carol Lucky, CEO, NTBHA. Ms. Lucky reported NTBHA served over 34,000 people across all providers (27,000 adults and 7,800 children). Ms. Lucky provided an update regarding recent board activities and announced that the organization successfully completed its fiscal audit with no findings, no material weaknesses, and no significant issues. She noted managing over 70 grants and programs, highlighting the organization's growth from an \$80 million budget to approximately \$175 million, largely through pursuing grant opportunities rather than increased state funding. Ms. Lucky also shared updates on newly awarded and renewed contracts, including a significant expansion of the Youth Crisis Outreach Team funding from \$875,000 to \$3.5 million annually for

FY26-FY28. She explained the program's focus on crisis response, family stabilization, and long-term service connection for youth. Additional updates included renewed Mental Health First Aid funding at \$363,000 annually and administrative changes to the Texas Veterans Commission contract, which will now be managed through the Texas Veterans Commission instead of HHSC. Ms. Lucky concluded by noting ongoing preparation for anticipated OIG audits across LMHAs statewide.

Meadows Mental Health Policy Institution (MMHPI)

Ron Stretcher, Senior Director of Systems Management, MMHPI. Ron Stretcher provided an update on the county's partnership with Housing Forward and other community organizations related to the Street to Home initiative. He shared that Dallas County invested \$2.5 million last fiscal year and \$10 million this fiscal year to support efforts aimed at moving individuals from the streets into shelters and housing. Mr. Stretcher noted that the team is working to maximize the impact of the funding and plans to provide a more detailed presentation next month, including monthly reporting on outcomes and how county investments are being leveraged.

Sarah Kahn, CEO, Housing Forward, provided an overview of a coordinated cross-system initiative involving NTBHA, Parkland, Criminal Justice, the DA's Office, homeless outreach teams, and first responders to address the needs of individuals experiencing severe behavioral health and substance use challenges who cycle repeatedly through hospitals, jail, and homelessness. She explained that partners are developing a by-name list to improve continuity of care, discharge planning, and long-term stabilization efforts. The complex needs workgroup initially focused on 38 high-need individuals and has been meeting multiple times a week to review cases individually and create personalized pathways to care, including supportive housing, skilled nursing facilities, and stabilization through the Deflection Center. Ms. Kahn highlighted the Deflection Center as a critical component of the initiative, noting that access to respite beds has significantly improved stabilization outcomes and helped transition some individuals directly into supportive housing. She also shared that the collaboration has resulted in strong cross-sector engagement and positive outcomes, with the goal of reducing jail utilization and improving long-term outcomes for individuals experiencing homelessness.

Doug Denton, Executive Director, Homeward Bound, shared updates on the Deflection Center's utilization and outreach efforts, noting that 92 clients were served, with DART identified as the largest law enforcement referral source, followed by the South Central District of the Dallas Police Department. He also introduced a new public dashboard available on the organization's website that provides regularly updated statistics and graphical reporting on program outcomes.

Dallas County Behavioral Health Housing Workgroup (BHHWG)

Commissioner Dr. Theresa Daniel, no report was provided during this meeting.

Dallas County Mental Health Advisory Committee Update

Yordanos Melake, Criminal Justice Department. Ms. Melake reported that, for the month of March, there were 3,313 magistrate orders, reflecting the continued increase in the jail population. ADAPT completed 2,716 screenings and remained statutorily compliant with required screening timelines for both in-custody and out-of-custody individuals. Ms. Melake also acknowledged ADAPT, Alyssa Aldrige, her team, and community stakeholders for their continued collaboration and support. Additionally, she shared that the second quarter advisory committee meeting is expected to be scheduled by the end of the month.

Legislative Update

Janie Metzinger, Director of External Affairs, NTBHA. Ms. Metzinger provided a legislative and policy update focused on behavioral health, substance use services, juvenile justice, and state funding concerns. She highlighted ongoing discussions at the state level regarding juvenile violence, diversion programs, not guilty by reason of insanity outcomes, THC-related mental health impacts, homelessness, incarceration, and the development of state mental health facilities. Discussion also centered on concerns related to HHSC funding allocations, reductions in substance use disorder funding, and limitations placed on statewide residential treatment providers such as Nexus, Homeward Bound, and other indigent care programs. Stakeholders expressed concern that current funding formulas do not adequately support specialized statewide residential services for women, children, and individuals with complex behavioral health needs. Ms. Metzinger emphasized the importance of proactive regional advocacy and collaboration with the Dallas County legislative delegation to address funding inequities, preserve critical behavioral health services, and ensure state leadership understands the operational challenges providers are facing.

Funding Opportunities Updates

• SAMHSA Residential Treatment Grant Update

Regina Fowlks, SAMHSA Program Coordinator. Ms. Fowlks reported one new admission at Nexus with an average wait time of 22 days and three new admissions at Homeward Bound with an average wait time of 14 days. She shared that the program has reached a total of 20 admissions during the current grant period and remains on track to meet the annual goal of 35 admissions.

• Community Courts Grant Update-Public Defender's Office (PDO)

Christi Dean, Chief, Public Defender's Office. Ms. Dean provided an update on the Public Defender's Office new formal restoration and reentry program, which will offer support services before, during, and after incarceration. The program, led by Brianna Gordon, includes services such as parole readiness, warrant clearance, time credit corrections, expunctions, benefits reinstatement, identification assistance, and referrals to community resources in partnership with Unlocking Doors. The initiative also aims to support client stability and reduce violations through coordinated reentry planning.

Theo Peugh, Mental Health Division Chief. Mr. Peugh provided additional updates and noted that mental health, competency, civil commitment, PR bond, and specialty court statistics have remained consistent with prior months. Due to Senate Bill 9 requirements, an additional attorney was added to help maintain continuity and timely processing of mental health PR bond hearings.

• Restorative Justice Division-District Attorney's Office (RJD-DAO)

Julie Turnbull, Chief of Restorative Justice Division. Ms. Turnbull reported, DIVERT Court, the adult pretrial drug court, is currently at full capacity. She also shared that AIM Court, which serves youthful offenders, is expected to reach full capacity soon due to an increase in referrals. As a result, the office is exploring alternative options for handling future cases. Ms. Turnbull further noted that the division is actively working on multiple grant applications and anticipates providing additional updates in the future.

Upcoming Events and Notifications

- Dr. Taylor announced an upcoming community event scheduled for May 8 from 9:00 a.m. to 12:30 p.m. at APAA, located at 2800 Martin Luther King Dr Dallas Tx. The event will focus on person-centered and trauma-informed care, centered around the theme “The Art of Seeing Others Deeply and Being Deeply Seen,” inspired by David Brooks’ work.
- Dr. LeBlanc announced an upcoming “Cuisine and Conversation for Men” event scheduled for May 11 at The Pelican House 107 S. Cedar Ridge Dr. Duncanville Tx. The quarterly gathering was created in response to the death by suicide of former Dallas Cowboys player Marshawn Kneeland and provides a safe space for men to openly discuss mental health challenges and address stigma surrounding men’s emotional wellbeing and faith.
- Tate Ringer announced an upcoming symposium on April 10, hosted by Metrocare’s Altshuler Center for Education & Research focused on comprehensive mental and behavioral health development, including topics related to mood disorders, psychosis, and addiction.
- Sara Kahn announced that the All-Neighbors Coalition’s annual “State of Homelessness” event will take place on May 14, with official invitations to be distributed soon. The event will highlight the progress made since 2021 in transforming and coordinating the region’s homeless response system, while also discussing current efforts and future goals.
- Joe Powell announced that APAA will be hosting a fashion show on May 23 and that additional event details will be shared by email. He also provided an update regarding continuing education opportunities for peer support specialists, noting that monthly CEU sessions are being offered to assist peers with maintaining their certification renewal requirements.

Adjournment

Commissioner Price thanked everyone for their collaboration and service. The meeting was adjourned at 10:44 am

Dallas County Administration, 500 Elm Street, 7th Floor, Dallas Texas 75202
May 27, 2026 Minutes

Mission Statement: The Dallas County Behavioral Health Housing Work Group (DCBHWG), with diverse representation, will formulate recommendations on the creation of housing and housing related support services designed to safely divert members of special populations in crisis away from frequent utilization of expensive and sometimes unnecessary inpatient stays, emergency department visits and incarceration.

Success will be measured in placement of consumers in housing and the decreased utilization of higher levels of care (hospitals and emergency care visits) and reduced incarceration in the Dallas County Jail. DCBHWG is committed to a data driven decision-making process with a focus on data supported outcomes.

ATTENDEES: Commissioner Theresa Daniel, Dallas County; Latoya Jenkins, Dallas County; Tzegabrhan Kidane, Dallas County; Kimberly Rawls, DCCJ; Doug Denton, Homeward Bound; Sabine Goodrich, EPG; Larry Gordon, Downtown Dallas Inc.; Tazora Moore, Hear my Cry Foundation; Lavida Davidson, Suicide Crisis Center; Josh Kumler, Housing Forward

Dr. Daniel opened the meeting by having the members at the table introduce themselves.

CALL TO ORDER: Commissioner and the committee approved the minutes of the April 29th meeting.

GOVERNANCE

Homeless Advisory Committee: Commissioner Daniel Office

The Homeless Advisory Committee was held on May 18th. The latest report of the Dallas Eviction Advocacy Center information is in the packet for review. There was discussion around the gender of those being evicted favoring women more than men. Sabine Goodrich commented that when she worked in HUD housing with tax credits, she saw more females being the lease holders. There was also a question about the number of unique evictions that have occurred over the past 2 years. The DEAC reported that over 7,000 people have been evicted since November 2024 and there was a question if the same people are being evicted or if those evictions are unique.

Federal/State Legislative Update: Doug Denton, Homeward Bound

Doug Denton reported that he along with a group met with the new HHSC Executive Commissioner yesterday, Stephanie Muth, regarding a potential rate increase in the substance use disorder residential treatment programs. In the last seven years they have received a one percent increase in detox. In FY 2020 they received a seven percent increase in residential rates and since then, inflation has risen 28%. Unfortunately, Ms. Muth stated they would not be able to accommodate the group, and she said the governor asked them to find a five percent overall reduction. Currently, they are only advocating for the lost SNAP benefits from the federal government, and the state is working to fill that gap. Ms. Muth encouraged the group to get with their legislature and add riders to other bills.

MEETING DISCUSSION

Sabine Goodrich reported that she has been in the affordable housing industry for over 25 years, and she has seen the system become less empathetic to the needs of their residents and the community focus aspect has been lost amongst the apartment communities. She also expressed that those coming from homelessness are not equipped with life skills to maintain and keep their apartments, so their company is requiring the properties they own to make community investment and life skills development within their properties. Ms. Goodrich explained that they encourage groups and organizations to partner with their properties to provide programming for the residents.

There was also discussion about development within the state of Texas and the amount of population growth the state has experienced. The growth has impacted how development occurs and if not managed or handled properly it could mean issues and problems for municipalities and counties.

A question was posed about what can be done to help the current system and Tazora Moore's answer was collaboration with other groups and organizations. She stated that by providing services and connecting with other organizations who are doing similar work, they can help with a number of client needs. She stated that at one point, her organization was the

only one around providing burial assistance to families affected by suicide and in doing so, funding ran out quickly. Since then, she's received calls for assistance with burial, but now they can't assist.

Larry Gordon suggested that we tie the homelessness argument to public safety funding. He stated that since many municipalities' larger portions of their budgets are for public safety, the issues of behavioral health and homelessness issues should be tied to them because of public safety's involvement in these issues. He stated that there is data to support the connection between these issues. He also reports that with FIFA coming, the public safety teams are on high alert. Some people from Croatia have obtained a permit to stage a 4000-person march downtown and there may be potential arrests that could lead to people being transported to the jail which is close to capacity. He also reported that other countries are hosting events in the downtown area as well.

Doug Denton reported that the Miami Model Initiative will be convening next week here in Dallas County. He stated that the initiative is a mental health approach that includes law enforcement, the judiciary, and behavioral health specialists providing wrap around services to those experiencing mental health and substance use disorder. Josh Kumler reported that some feel apprehensive towards the model because Florida has fewer legal barriers than we currently have in Texas. He also stated that Florida has a local dedicated tax that helps fund their initiative as well. Doug Denton reported that Florida has the Baker Act that allows you to hold an individual and here, we have the APOWW. Larry Gordon expressed law enforcement wants to be right when they obtain a mental illness warrant. He reported that a while back he, current officers, and some retired police officers went to some Justices of the Peace with written search warrants saying they were the affiants on the mental illness warrant to show the degradation of the person they wanted to obtain. They then asked if they could obtain the mental illness warrant and they were told no. He also stated they have another meeting scheduled to revisit the issue. Doug Denton questioned if we get the Baker Act or if we extend the APOWW, where can we hold the individuals. He reported that NTBHA is maxed out on their payments for hospital beds. Miami Dade has remodeled a facility, but they are balking at the funding of it. Commissioner Daniel stated that it seems as if Dallas County has many of the foundational pieces that Miami has, to which Doug replied we have all of them, but we send our clients to the hospitals on NTBHA funding, and the hospitals don't want our clients. Larry Gordon questioned how the state hospital construction is going because he hasn't heard much about it and he questioned if it would help those needing care. Doug replied that it will be a 175-bed facility with a section for children, but certain criteria must be met to be admitted into the state hospital. Doug Denton stated that although we are getting people off the streets, there are more people falling into homelessness. Josh Kumler added they know two things are true, they are getting more people off the streets than ever before, but there are more people ending up on the streets than ever before too. Things have improved over the past couple of years, but they are not keeping up with the number of people falling into the homelessness system. He ended by stating that is why they are consistently having conversations and thinking of ways they can impact positively.

Commissioner Daniel thanked everyone for their work and encouraged the group that we are on the right track and to keep on thinking of ways to impact the system until we meet again.

Next Meeting: June 24, 2026

Acknowledgment

We would like to extend our sincere appreciation to **Adapt Community Solutions** for their continued partnership and dedication in completing the 16.22 CCP interviews. Their timely and thorough work plays a vital role in supporting the mission of the Mental Health Assessment Unit within the Criminal Justice Department. We are grateful for their commitment to ensuring individuals receive the appropriate assessments and care.

89th Texas Legislature-Interim
House Select Committee on Health Care Affordability
Hearing on Interim Charges
Rising Health Care and Insurance Costs
April 30, and May 1, 2026

House Select Committee on Health Care Affordability

Committee Chair: Representative James B. Frank. Vice Chair: Representative Toni Rose.
Members: Representatives Daniel Alders, Jay Dean, Mary E. González, Suleman Lalani, Shelley Luther, Tom Oliverson, M.D., Lauren A. Simmons, Denise Villalobos, Trey Wharton.

Interim Charges

- Evaluate health care cost drivers, including statutory, regulatory, and administrative burdens, the impact of fraud, waste, and abuse.
- Evaluate the impact of insurance design, cost sharing, market structure, and payment policies have on consumers and employers.
- Examine the impact of consolidation on patient choice, market competition and price and value in health care services.
- Review the level of consumer transparency in health care markets to ensure consumers have access to clear, accurate, and actionable information on prices, benefits, and out-of-pocket costs.

Link to Hearing: April 30, 2026: <https://house.texas.gov/videos/22672>

Link to Hearing: May 1, 2026: <https://house.texas.gov/videos/22673>

Invited Testimony

Most of the testimony did not relate directly to behavioral health specifically, or the work of LBHA/LMHAs, however, some information is relevant to the work of NTBHA.

Cynthia Cox- Senior Vice President-Kaiser Family Foundation

- Spending on prescription drugs has grown steadily over the past few years driven by higher utilizations, new high-cost therapies, price increases on existing medications.
- Drug prices are expected to grow higher than inflation.
- In 2024, 7% of adults reported delaying or going without needed mental health care due to cost.
 - 8% delayed or did without prescription drugs due to cost.
 - 10% delayed or did without medical care due to cost.

This document is intended for informational purposes only and is not intended to indicate a position for or against any legislation. If you have questions, please contact Janie Metzinger at jmetzinger@ntbha.org

Maureen Hensley-Quinn-National Academy for State Health Policy (NASHP)

- Among the factors influencing high and rising health care costs are increasing demand for behavioral health and specialty care.

Zack Cooper, PhD.-Associate Professor of Public Health, and Economics-Yale University

- Job loss can affect health—Individuals who lose jobs due to factory closures have an increased risk of death from suicide, accident or overdose.
- Health care costs rise with health care mergers and hospital consolidations.

Charles Miller-Texas 2036

- On average, commercial payers in Texas pay Texas hospitals approximately 254% of what Medicare pays for comparable services
- The median Texas hospital needs to be paid roughly 127% of Medicare from its commercial book of business in order to breakeven overall, accounting for any margin shortfalls on Medicare and Medicaid patients.
- The average commercial price paid to Texas hospitals is roughly double the price needed to break even.

89th Texas Legislature-Interim
Senate Committee on Health and Human Services
Hearing on Interim Charges
Rising Health Care and Insurance Costs
May 27, 2026

Senate Health and Human Services Committee

Committee Chair: Senator Lois Kolkhorst. Vice Chair: Senator Charles Perry

Members: Senators César Blanco, Molly Cook, Bob Hall, Bryan Hughes, Borris Miles, Kevin Sparks

Interim Charge: Rising Health Care and Insurance Costs

Examine the drivers of rising health care costs in Texas.

- Consider whether certain providers and models for health care services, including, but not limited to, Pharmacy Benefit Managers (PBMs) and health care facility fees, have resulted in business practices that are contributing to rising health care costs and insurance premiums.
- Identify ways to lower the cost of health care and increase market flexibility, drawing on additional product offerings like Health Savings Accounts (HSAs) and new flexible plans.

Link to Hearing: <https://senate.texas.gov/videoplayer.php?vid=22702&lang=en>

Opening Remarks

Chair Kolkhorst complimented Chairman James Frank and the House Select Committee on Health Care Affordability on their hearings on April 30 and May 1. She noted that the Senate Health and Human Services Committee has a separate interim charge on mental health, homelessness and addiction services.

The invited speakers at this hearing primarily focused on the general medical health care system, but some speakers made points particularly directed toward behavioral health.

Maureen Milligan-President and CEO-Association of Teaching Hospitals of Texas.

- 40% of charity care in Texas is provided by teaching hospitals.
- Labor is 60% of hospital costs.
- Not everything in health care attracts investment—for example, providing services for people with no ability to pay, such as behavioral health care.
- People come to teaching hospitals when they don't know where else to go.
 - Elderly people with dementia without family support.
 - Group home residents who have had violent outbursts.
 - Behavioral health emergencies.
 - Behavioral health emergency detentions.
 - Inpatient care when LBHA/LMHA does not have available beds.
- Rural and urban disadvantages are similar in terms of access to care and life expectancy.

This document is intended for informational purposes only and is not intended to indicate a position for or against any legislation. If you have questions, please contact Janie Metzinger at jmetzinger@ntbha.org

Doug Lynch-CFO and Chief Actuary-Sidecar Health

- Restrictions like networks, formularies, step therapy, prior authorizations etc. haven't reduced the cost of care over the last 20 years.
- Information regarding cost and quality of care is opaque in current system.
- Sidecar gives consumers information on providers' prices and quality ratings in their area
- Sidecar gives consumer a fixed benefit amount for a specific service. Consumer can shop for the best deal. Consumer can keep half of the savings if they choose a lower cost provider.
- This has been especially effective in mental health. Sidecar has seen a 50% increase in utilization of mental health services when consumers have this information.

Clients in residential treatment in SAFPF or JJCJTC PRIOR to the in-court phase of a program are not included in the number of active participants or participants in residential treatment. Clients who have completed treatment prior to entering the problem-solving court and are LATER sent to treatment ARE counted in the "IN RESIDENTIAL TREATMENT" figures.

INACTIVE reflects clients not currently participating due to a pending probation violation and/or who may have an active warrant if the Court considers those clients inactive.
