

Dallas County Health and Human Services 2019 Novel Coronavirus (COVID-19) Summary

September 22, 2020

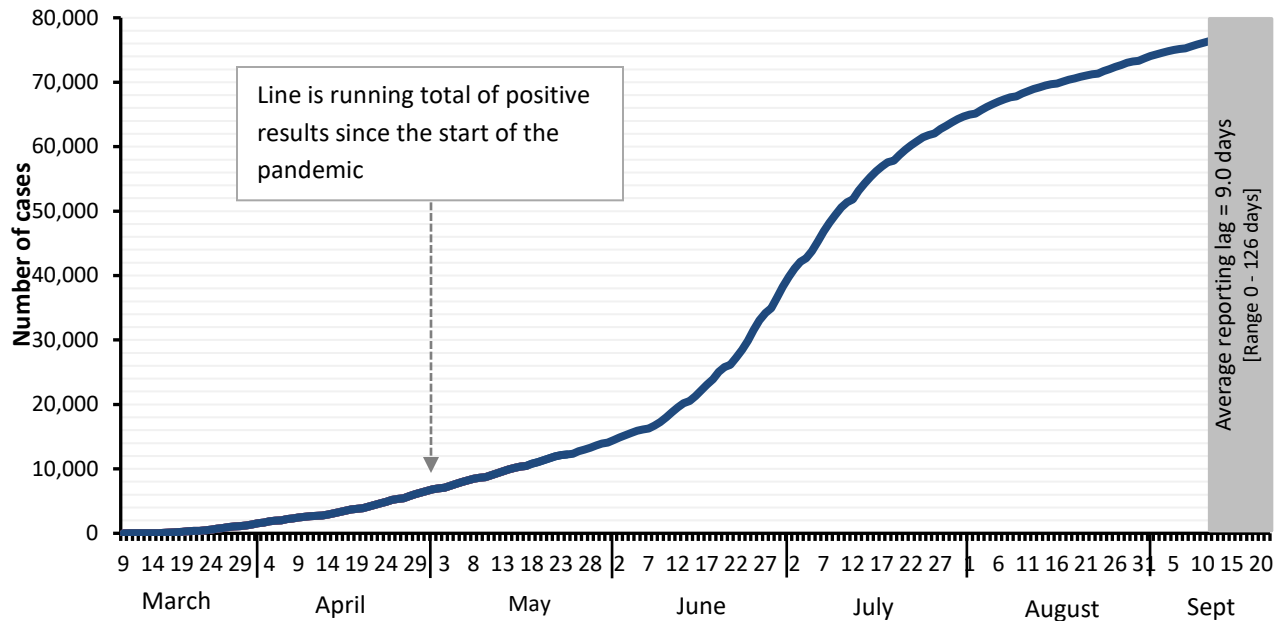

- As of September 22, 2020, DCHHS is reporting 172 additional confirmed cases of 2019 novel coronavirus (COVID-19), bringing the total number of confirmed cases in Dallas County to 78,377, including 1,000 confirmed deaths. The total number of probable cases in Dallas County is 3,875, including 11 probable COVID-19 associated deaths.
- The provisional 7-day average daily new confirmed and probable cases (by date of test collection) for CDC week 37 was 257. The percentage of respiratory specimens testing positive for SARS-CoV-2 remains high, with 10.0% of symptomatic patients presenting to area hospitals testing positive in week 37 (week ending 9/12/2020).
- The percentage of cases occurring in young adults aged 18 to 22 years has increased to 14% in September to date. A provisional total of 179 confirmed and probable COVID-19 cases were diagnosed in school-aged children (5 to 17 years) during CDC week 37, an increase from the previous week for this age group.
- Of the 7,738 cases requiring hospitalization to date, almost three-quarters (70%) have been under 65 years of age, and over half reported having a chronic health condition. Diabetes has been an underlying high-risk health condition reported in about a third of all hospitalized patients with COVID-19.
- Of cases requiring hospitalization who reported employment, almost 80% have been critical infrastructure workers, with a broad range of affected occupational sectors, including: healthcare, transportation, food and agriculture, public works, finance, communications, clergy, first responders and other essential functions.
- Twenty-five percent (25%) of deaths have been associated with long-term care facilities.

Figure 1. Confirmed COVID-19 positive cases by date of test collection, Dallas County: March 10 – September 22, 2020

1. Data received as of 8:00 pm yesterday, for residents of Dallas County tested with known specimen collection dates. This does include delayed results from previous days. All data are preliminary and subject to change as cases continue to be investigated.
2. Data are incomplete for the most recent dates. Test results may be reported to DCHHS several days after the result. The reporting lag is calculated as time from specimen collection to receipt of test results. The average reporting lag is 9.0 days, with a range from 0 – 126 days.
3. This summary graph includes only confirmed cases based on molecular amplification detection test results.
4. Bars are the number of positive molecular amplification detection tests which were collected that day.
5. Rolling 7-day average is the average number of new confirmed COVID-19 cases collected 7 days prior to value.

Figure 2. Cumulative confirmed COVID-19 cases by date of test collection, Dallas County: March 10 – September 22, 2020¹⁻²

1. Data received as of 8:00 pm yesterday, for residents of Dallas County tested with known specimen collection dates. This does include delayed results from previous days. All data are preliminary and subject to change as cases continue to be investigated.
2. Data are incomplete for the most recent dates. Test results may be reported to DCHHS several days after the result. The reporting lag is calculated as time from specimen collection to receipt of test results. The average reporting lag is 9.0 days, with a range from 0 – 126 days.

Table 1. Source of laboratory testing for confirmed cases of COVID-19, Dallas County

Source of Laboratory Testing for Reported Positive Molecular Amplification Detection Tests	# Tests (N=78,377)	% of Total Cases
Commercial or Hospital Laboratory*	76,488	97%
Dallas LRN Laboratory	1,617	2%
Other Public Health Laboratory	272	<1%

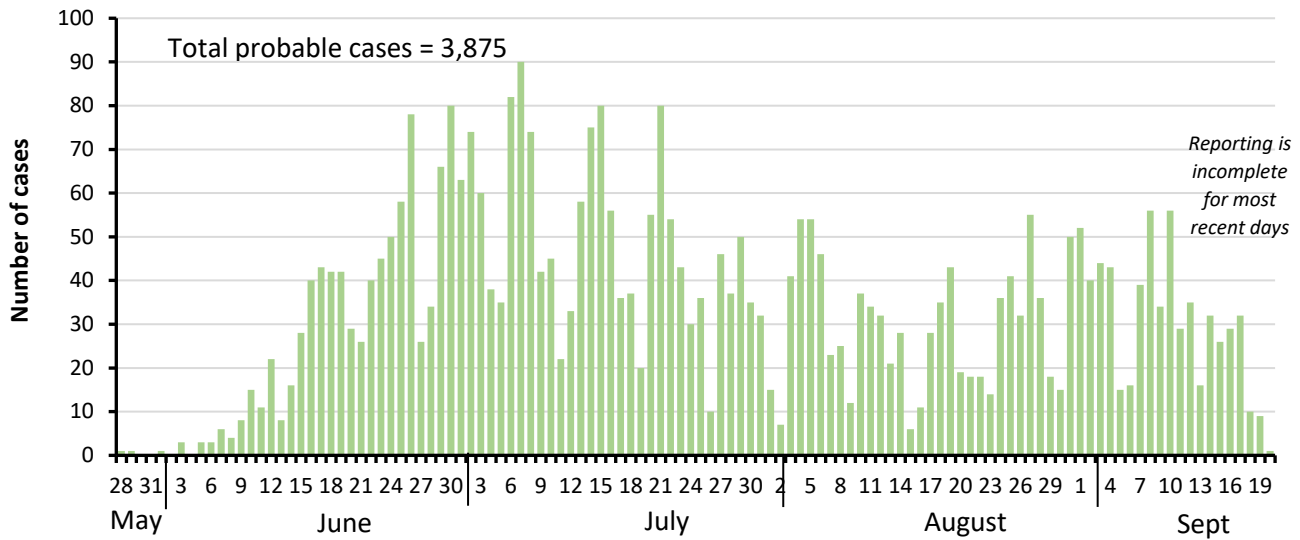

* Includes: AIT, ARUP, CPL, Excelsior, LabCorp, Magnolia, Medfusion, Prism, Quest, Viracor, and multiple hospital laboratories

Table 2. Characteristics of cumulative confirmed COVID-19 cases, Dallas County: March 9 – September 22, 2020

	Number	% of Total Cases*
Total Cases in Dallas County residents	N = 78,377	100%
Age Group (years)	0 to 17	11%
	18 to 40	46%
	41 to 64	34%
	≥65	9%
Sex	Female	51%
	Male	49%
Not Hospitalized (Includes: Outpatient, urgent care, drive-through, ED)	70,639	90%
Ever Hospitalized	7,738	10%

* Percentages calculated among cases with known age/sex

Figure 3. Probable COVID-19 cases by date of test collection, Dallas County: May 28 – September 22, 2020¹⁻⁵

1. Data received as of 8:00 pm yesterday, for residents of Dallas County tested with known specimen collection dates. This does include delayed results from previous days. All data are preliminary and subject to change as cases continue to be investigated.
2. Data are incomplete for the most recent dates. Test results may be reported to DCHHS several days after the result. The reporting lag is calculated as time from specimen collection to receipt of test results.
3. This summary graph includes only probable cases which meet below CDC case definition. Probable cases are reported separately from confirmed cases.

Table 3. Characteristics of cumulative probable COVID-19 cases, Dallas County: May 28 – September 22, 2020

		Number	% of Total Cases*
Total Probable Cases in Dallas County residents		N = 3,875	100%
Age Group (years)	0 to 17	897	23%
	18 to 40	1,930	50%
	41 to 64	862	22%
	≥65	181	5%
Sex	Female	1,943	50%
	Male	1,919	50%

* Percentages calculated among cases with known age/sex

CDC Definition of a COVID-19 case:

"A COVID-19 case includes [confirmed and probable cases and deaths](#). This change was made to reflect an interim [COVID-19 position](#) statement issued by the Council of State and Territorial Epidemiologists on April 5, 2020. The position statement included a case definition and made COVID-19 a [nationally notifiable disease](#)."

CDC Definition of a COVID-19 probable case:

"A [probable case or death](#) is defined as:

- A person meeting [clinical criteria](#) **AND** [epidemiologic evidence](#) with no confirmatory laboratory testing performed for COVID-19;
- A person meeting [presumptive laboratory evidence](#) **AND** either [clinical criteria](#) **OR** [epidemiologic evidence](#);
- A person meeting [vital records criteria](#) with no confirmatory laboratory testing performed for COVID-19."

Private Schools	12	19
Homeschool	0	0
Non-Dallas County ³	2	8
Unknown	8	0
Total	149	210

1. Data received as of 8:00 pm yesterday, for children ages 5 to 17 years of age residing in Dallas County and for adults employed in K-12 schools within Dallas County. These totals are updated weekly to include receipt of delayed test results. All data are preliminary and subject to change as cases continue to be investigated

2. Includes cases verified to be enrolled in the district and cases projected to be enrolled in the ISD by zip code of residence.

3. Individual who attends or works in a school in Dallas County, but does not reside in Dallas County

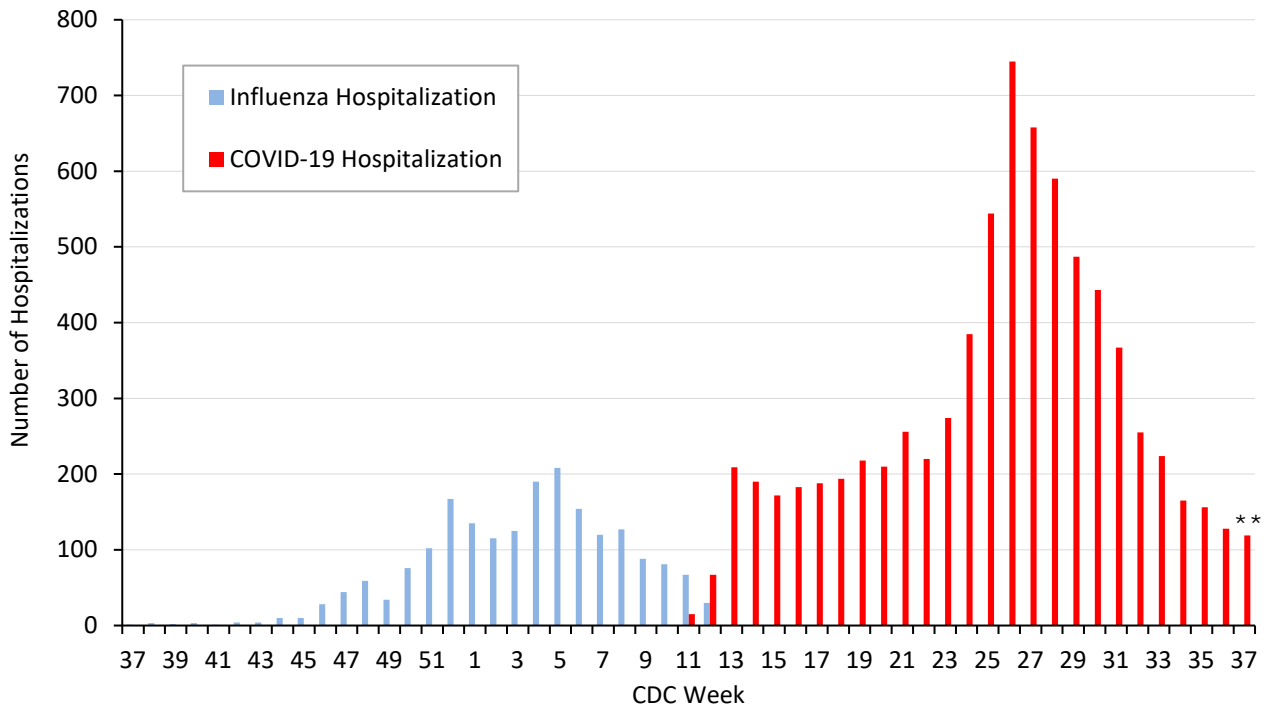

Figure 5. Non-hospitalized and hospitalized confirmed COVID-19 cases by week of test collection, Dallas County: September 2019 through week ending September 12, 2020 (CDC Week 37)*

* Non-hospitalized includes all patients not admitted to acute-care hospitals (e.g. outpatient, urgent care, drive-through, ED-only, LTCF) and diagnosed with confirmed COVID-19. All data are preliminary and subject to change as cases continue to be received and investigated.

** Data are incomplete for the most recent dates. Test results may be reported to DCHHS several days after the result. The reporting lag is calculated as time from specimen collection to receipt of molecular amplification detection test results.

Figure 6. Influenza and confirmed COVID-19 hospitalizations by week of admission, Dallas County: September 2019 through week ending September 12, 2020 (CDC Week 37)*

* Hospitalized Dallas County residents diagnosed with confirmed COVID-19 by molecular amplification detection testing. All data are preliminary and subject to change as cases continue to be received and investigated.

** Data are incomplete for the most recent dates. Test results may be reported to DCHHS several days after the result. The reporting lag is calculated as time from specimen collection to receipt of test results.

Data sources: National Respiratory and Enteric Virus Surveillance System and an additional subset of hospitals voluntarily reporting surveillance PCR data directly to DCHHS. Testing denominators include out-of-county patients and testing performed only through hospitals in Dallas County. (Does not include FEMA drive-thru clinics). Data are incomplete for the most recent dates.

Figure 7. SARS-CoV-2 positive PCR tests reported to DCHHS by hospital laboratories: March 22 – September 12, 2020 (CDC Weeks 26-37)¹⁻²

1. Data received as of 8:00 pm yesterday. All data are preliminary and subject to change as cases continue to be received and investigated.
2. Data are incomplete for the most recent dates. Test results may be reported to DCHHS several days after the result.

Table 8. Transmission risk factors for cumulative confirmed COVID-19 cases, Dallas County

Exposure Risk Factor	Cases (N= 78,377)	% of Total Cases
International Travel	117	0.1%
Domestic Travel (Out-of-state)	311	0.4%
Cruise Ship Travel	14	<0.1%
Long-Term Care Facility (Resident) ¹	1,456	1.9%
County Jail (Inmate)	698	0.9%
State Jail (Inmate-- TDCL COVID-19 Medical Action Center) ²	96	0.1%
Federal Prison (Inmate) ³	1,396	1.8%
Homeless Shelter	90	0.1%
Meat/Food Processing Facilities	591	0.8%
Close contact or Presumed Community Transmission ⁴	73,608	93.9%

¹ Does not include over 565 COVID-19 cases reported in LTCF staff members employed by the > 112 affected LTCFs.

² Texas Department of Criminal Justice cases are under the jurisdiction of the Texas Department of State Health Services for investigation

³ Federal prison cases are under the jurisdiction of the federal government for investigation, but are now included in total County cases

⁴ Includes: household transmission and cases with no other exposure risk factors identified

Table 8. Summary of weekly COVID-19 hospitalizations and deaths from Dallas County hospitals, Vital Statistics and Medical Examiner’s office¹⁻⁴

Week Ending	07/18	07/25	08/01	08/08	08/15	08/22	08/29	09/05	09/12	09/19	9/08/19– Present
CDC Week	29	30	31	32	33	34	35	36	37	38	
COVID-19 hospitalizations ¹	487	443	367	255	224	165	156	128	119	73	7,738*
COVID-19 ICU admissions ¹	119	90	101	63	53	34	25	18	16	7	1,816*
Probable COVID-19-associated deaths ²	0	3	2	3	3	0	0	0	0	0	11*
Confirmed COVID-19-associated deaths ³	78	103	79	58	56	39	34	16	2	2	1,000*

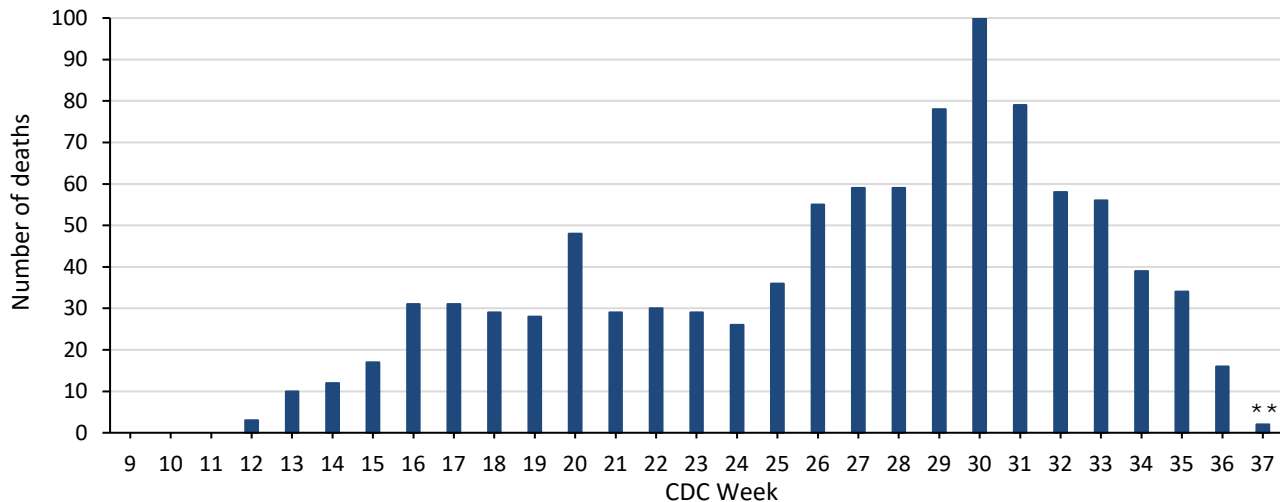

* All data are preliminary and subject to change as cases continue to be received and investigated.

¹ Reflects all COVID-19-associated hospitalizations and intensive care unit admissions reported from area hospitals within Dallas County by week of admission. Hospitalizations are inclusive of ICU admissions. Data are preliminary and include reports received as of 8:00 pm yesterday.

² Probable COVID-19 deaths as defined by CSTE interim case classification criteria--meeting vital records criteria without molecular lab test confirmation.

³ Confirmed COVID-19 deaths as defined by a positive molecular amplification detection test *and* any of the following: (1) death certificate denotation, (2) medical record documentation of compatible symptoms and clear progression from illness to death, or (3) determination by the County Medical Examiner’s office (ME) of no alternate cause of death. Does not include possible COVID-19 -associated deaths with pending determination of cause of death.

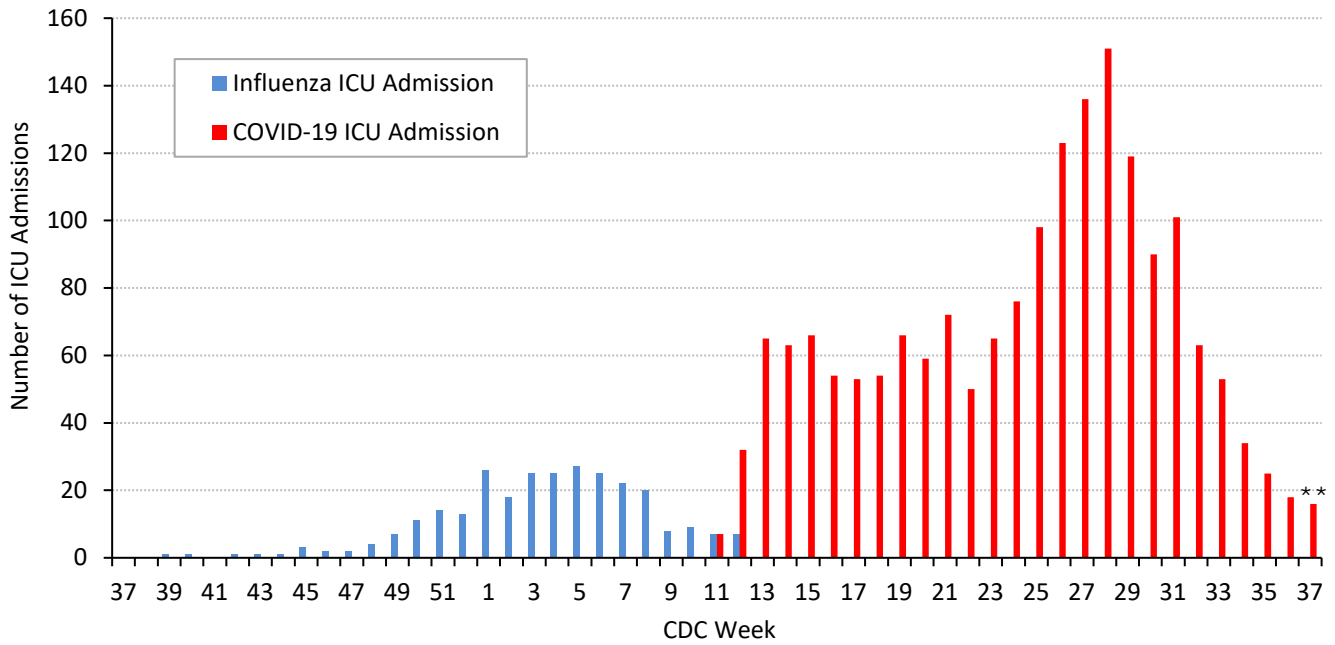

Figure 8. Confirmed COVID-19-associated deaths by week of death, Dallas County: March 2019 through week ending September 12, 2020 (CDC Week 37)*

* Dallas County residents diagnosed with confirmed COVID-19 by molecular amplification detection testing.

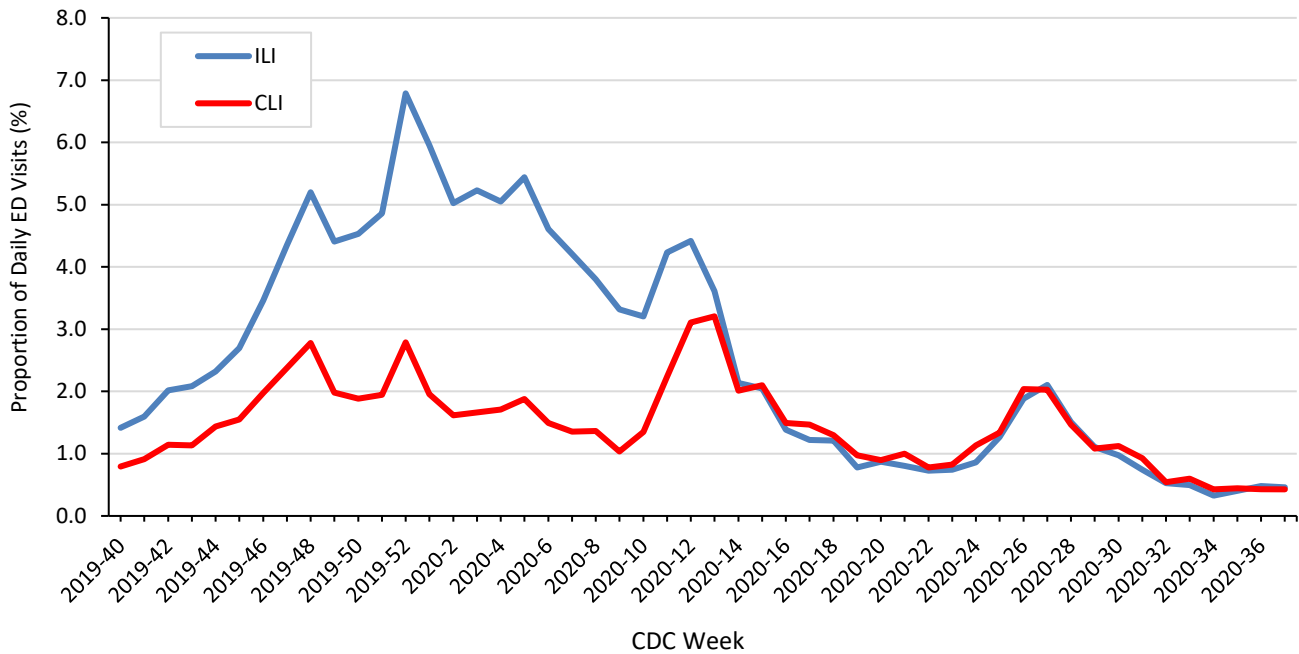

** All data are preliminary and subject to change as cases continue to be received and investigated.

Figure 9. Intensive care unit hospitalizations for influenza and COVID-19 by week of admission, Dallas County: September 2019 through week ending September 12, 2020 (CDC Week 37)*

* New ICU admissions of Dallas County residents reported with confirmed COVID-19 by molecular amplification detection testing as of 8:00 pm yesterday. Hospitalized patients with self-reported residence from outside of Dallas County are not included.
 ** All data are preliminary and subject to change as cases continue to be received and investigated.

Figure 10. Syndromic surveillance of emergency department visits for COVID-like illness (CLI)* and Influenza-like illness (ILI), Dallas County: September 29, 2019 – September 12, 2020**

ESSENCE Data is from 18 hospital emergency departments voluntarily reporting numbers of persons presenting with self-reported chief complaints.
 * CLI is defined as chief complaint of fever and cough or shortness of breath or difficulty breathing.
 **ILI is defined as chief complaint of fever and cough or sore throat or mention of influenza.

Table 9. Occupations of hospitalized patients with confirmed COVID-19, Dallas County, 3/10 – 8/17/20

Occupation	Hospitalized Cases (%) of Total Employed	
	Position	Sector
Critical Infrastructure Workers*		1,406 (78%)
Healthcare and Public Health		216 (12%)
	<i>Nurse, LVN, CNA</i>	36
	<i>Physician</i>	10
	<i>Other: Dentist, dietary, home health, medical assistant, mental health, PCT</i>	170
Transportation and Logistics		177 (10%)
	<i>Airline/Airport</i>	14
	<i>Parcel or postal delivery</i>	17
	<i>Cab/rideshare or bus driver</i>	21
	<i>Other: Mechanic, truck driver, freight, railroad</i>	125
Food and Agriculture		268 (15%)
	<i>Grocery</i>	52
	<i>Restaurant</i>	81
	<i>Other: Food processing, production, supply</i>	135
Other Community/Government Essential Functions		98 (5%)
	<i>Clergy (Pastor, priest)</i>	11
	<i>Education (Teacher, administration)</i>	30
	<i>Judicial system (Attorney)</i>	11
	<i>Other: Real estate services, shelter services, government operations</i>	46
Public Works and Infrastructure Support Services		231 (13%)
	<i>Construction/Contractor</i>	167
	<i>Other: Waste disposal, landscaping, maintenance</i>	64
Financial (<i>Accounting, bank, insurance</i>)		68 (4%)
Communications and Information Technology		28 (2%)
Commercial Facilities (<i>Building materials, painting, warehouse</i>)		133 (7%)
Hygiene Services (<i>Custodian, housekeeping</i>)		73 (4%)
Law Enforcement, Public Safety, First Responders		48 (3%)
Critical Manufacturing (<i>Manufacturing metal, packaging</i>)		45 (2%)
Energy/Utilities (<i>Electricity, petroleum, gas</i>)		21 (1%)
Non-Critical Infrastructure Workers (Includes retail, personal services)		260 (14%)
Employed (position not reported)		139 (8%)
Total reporting any employment		1,805
Non-Employed (Includes retired, child, homemaker, etc.)		2,121
Student (≥18 years old)		66
Not reported		2,986
Total hospitalized		6,978

* Includes only residents of Dallas County with self-reported occupational information. All data is preliminary and subject to change.

* For 7-day time period for respective CDC week by date of test collection;
 ** For 7-day time period for respective CDC week by date of death
 *** See Table 6 for historical data

Many Thanks to:

Our area hospitals and healthcare providers for reporting lab-confirmed COVID-19 cases

Our DCHHS Case and Contact Investigations Team volunteers from:

Dallas County Medical Society

UT Southwestern Medical School

Texas A&M College of Medicine

UTHealth School of Public Health

Retired School Nurses

New COVID-19 cases are reported as a daily aggregate, with this cumulative summary updated Tuesdays and Fridays.

DCHHS COVID-19 Summaries and Case Report Form are accessible at:
