Figure 3. Daily Temperatures versus HRI Reports in Dallas County

Peak temperatures forecasted for this weekend are in the low 90s°F with overnight lows predicted to be in the low to upper 70s°F.

Data obtained from hospitals participating in the Electronic Surveillance System for the Early Notification of Community-based Epidemics (ESSENCE) from April 7, 2019 through the present. Depicted are the numbers of patients presenting to Emergency Departments in Dallas County hospitals with heat-related chief complaints. Data also obtained from reports received from Dallas County Medical Examiner's Office.

*Data for most recent week is preliminary and reflects results reported as of 12:30 p.m. June 21, 2019.

†Includes only deaths which have been confirmed by Medical Examiner's office as heat-related.
