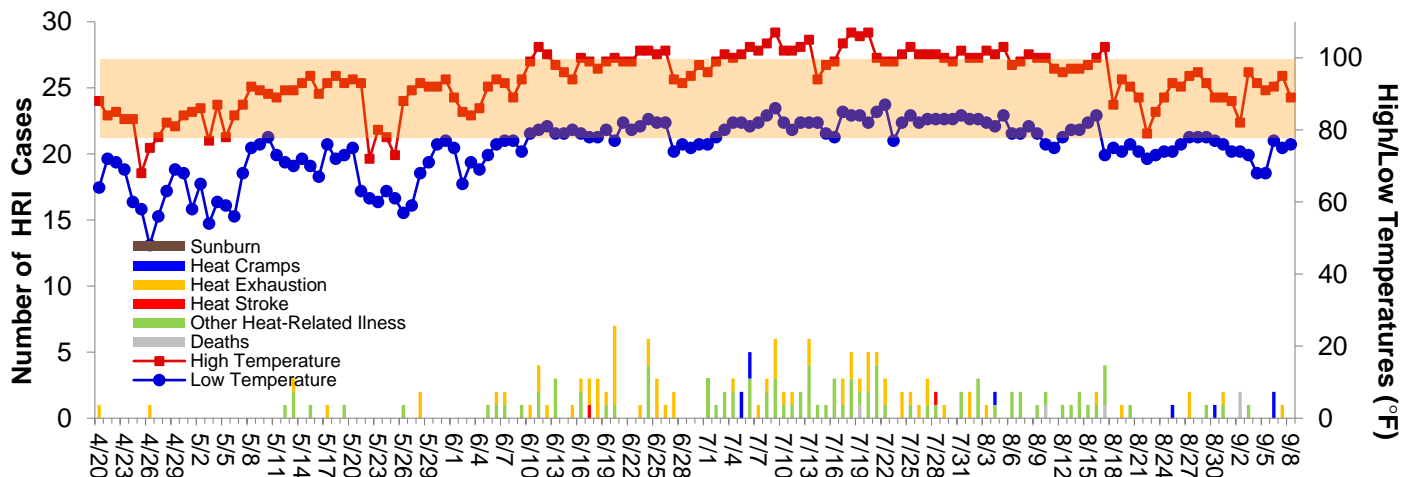

Figure 3. Daily Temperatures versus HRI Reports in Dallas County

Peak temperatures forecasted for this weekend are in the low 90's°F, with overnight lows predicted to be in the mid to high 60's°F

Data obtained from hospitals participating in the Electronic Surveillance System for the Early Notification of Community-based Epidemics (ESSENCE) from April 20, 2022 through the present. Depicted are the numbers of patients presenting to Emergency Departments in Dallas County hospitals with heat-related chief complaints. Data also obtained from reports received from Dallas County Medical Examiner's Office.

*Data for most recent week is preliminary and reflects results reported as of 12:30 p.m. September 8, 2022.

** Other HRI includes heat exposure, rash, sickness/illness, stress, and syncope; overheating; and other HRIs not listed in Table 1

†Includes only deaths which have been confirmed by Medical Examiner's office as heat-related.
