METRICS REFUGEE HEALTH SERVICES CLINIC

DCHHS

Purpose Vinic

The Refugee Clinic provides essential healthcare services to refugees and immigrants who have recently arrived in the United States. These clinics aim to address the specific needs of this population,

Key services included medical screenings, review past medical records, then check for and treat any contagious diseases, update immunizations, and screen for common health issues like parasites and malaria. They also perform a physical exam, blood tests, and screenings for pregnancy, sexually transmitted diseases, and lead testing in children.
