FOR IMMEDIATE RELEASE

FOUR ADDITIONAL COVID-19 TESTING SITES OPENING ACROSS DALLAS COUNTY

DALLAS (January 7, 2022) – Dallas County Health and Human Services (DCHHS) opens four additional COVID-19 testing facilities in Dallas County for anyone who needs a PCR COVID test.

DCHHS is partnering with Dallas College, the City of Irving, the City of Dallas Parks and Recreation Department, and Fair Park to open four additional testing facilities as drive-thru testing sites. In addition to COVID tests, Flu tests will be available at some locations.

“DCHHS is continuing to work to expand access to testing across Dallas County. Four new testing sites will open early next week to help meet the demand from the community, and DCHHS is exploring additional testing sites as well,” said Dr. Philip Huang, DCHHS Director. “To help keep our community safe during this winter COVID surge, it is vital that people get tested, continue to wear a mask, and get their vaccine and booster.”

According to the Centers for Disease Control and Prevention (CDC), anyone who may have been exposed to someone with COVID should test five days after their exposure, or as soon as symptoms occur.

Testing Locations:
