# 3 Tips For Ordering Tests Through LabOnline

## Dallas County Health and Human Services - LIS

**1**

### Selecting the test ordering profile

If you are ordering a Select Agent test, select "Laboratory Response Network Tests"

If you are ordering a Flu or Covid test, select "Respiratory Testing"

If you are ordering a STI test, select "Sexually Transmitted Infections Tests"

**2**

### Entering patient and sample information

Click the blue drop-down arrows to reveal the "Patient Information" and "Add Samples And Tests" options

**3**

### Selecting tests to order

Click on "Line item" to reveal the test options drop down menu

If multiple tests are being ordered for one patient, click the "Add" button with the green plus sign to add tests
