

# BE PREPARED FOR A CYBERATTACK

Cyberattacks can lead to loss of money, theft of personal information, and damage to your reputation and safety.

FEMA

FEMA P-2143/August 2023

Cyberattacks are malicious attempts to access or damage a computer system.

Can use computers, mobile phones, gaming systems, and other devices

Can include fraud or identity theft

Can block your access or delete your personal documents and pictures

May target children

May cause problems with business services, transportation, and power

## PROTECT YOURSELF AGAINST A CYBERATTACK

Keep software and operating systems up to date.

Use encrypted (secure) internet communications.

Use strong passwords and two-factor authentication (two methods of verification).

Create backup files.

Watch for suspicious activity. When in doubt, don't click. Do not provide personal information.

Protect your home Wi-Fi network.
