

BE PREPARED FOR A HURRICANE

Threats from hurricanes include powerful winds, heavy rainfall, storm surges, coastal and inland flooding, rip currents, tornadoes, and landslides.

FEMA

FEMA P-2143/August 2023

Hurricanes are massive storm systems that form over warm ocean waters and move toward land. The Atlantic hurricane season runs June 1 to November 30. The Pacific hurricane season runs May 15 to November 30.

Can happen along any U.S. coast or territory in the Atlantic or Pacific

Can affect areas more than 100 miles inland

Most active in September

IF YOU ARE UNDER A HURRICANE WARNING, FIND SAFE SHELTER RIGHT AWAY

Determine your best protection for high winds and flooding.

Evacuate if told to do so.

Take shelter in a designated storm shelter or an interior room for high winds.

Listen for emergency information and alerts.

Only use generators outdoors and away from windows.

Do not walk, swim, or drive through flood waters.
