

## **Statement from Dallas County Judge Clay Jenkins**

**For Immediate Release**

**October 5, 2014**

We are working to find a low risk individual who has been identified by our local team as a contact. We have our Dallas County Sheriff's Department and Dallas Police Department teams on the ground. We are working to locate the individual and get him to a comfortable, compassionate place where we can monitor him and care for his every need for the full incubation period. I want to emphasize that he is a low risk individual and we are doing this out of precautionary measures.
