Payday Tips and information!

- If you must make any payment changes, please make sure changes are submitted and saved in Oracle Fusion before noon the Tuesday before payday.
- **Check and Double check** your Account and Routing numbers are correctly entered and saved. The majority of payment issues are due to this.
- If you are making any changes to payment, please make sure the correct amount of your payment is going to the correct bank account and click, 'Save.'

Example 1: My bank account has been closed, due to fraudulent activity. I must log into my Oracle fusion and update my payment with my new Bank information. I make sure to check that 100% of my pay is going into my new Bank account and click, 'Save.'

- Direct deposit is the fastest way to receive your paycheck! If you are expecting a check, please know checks are mailed out the morning of payday. If you would like to pick up a check, you must have already emailed and received confirmation about a check pickup.

Please contact our office if there are any questions or concerns at (214)653-7321 or cashiers.treasurer@dallascounty.org.
