

Congratulations to Reina Reyna, Project Analyst, on your acceptance to the 2024-2025 Leadership and Management Academy

We asked Reina to share a bit about herself and her thoughts on her acceptance!

My name is Reina Reyna and I am the Program Analyst for the Treasurer's Office. I have been employed with Dallas County since February 27th, 2012. I started my journey with Dallas County in the Tax Office and was there for three years. In November of 2015, I transitioned over to the Treasurer's Office. February of this year has marked my twelfth year with Dallas County.

I truly feel honored to be have been accepted into the Leadership and Management Academy. It is a huge privilege for me to be the first from the Treasurer's Office to be nominated and accepted. I know it is a huge responsibility and I do not take this lightly.

My goals to take away from this program is to learn to be a great leader but also further my career with Dallas County. I also hope to build relationships within Dallas County and also fostering a positive work culture. The program is nine months long, and our first class started on October 17th.

-Reina Reyna, Program Analyst
