# Put Time to Work for You with Nationwide!

Think you can't come up with \$20 a month? Check this out.

**Pack your lunch**

Even if packing your lunch saves you just \$4 each time, you'll have \$20 in a week.

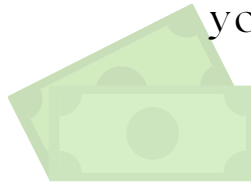

**Make your own coffee**

Let's say that saves you \$2 a day — you'll have \$20 in two weeks.

An increase of:	10 years	20 years	30 years
\$20 per month	\$3,293	\$9,287	\$20,190
\$50 per month	\$8,234	\$23,217	\$50,476
\$100 per month	\$16,469	\$46,435	\$100,953

An increase in your contribution, plus years of compounding interest, can potentially make a big difference in your retirement savings.
